Executive Summary

During May-July 2013, the University of New Hampshire Survey Center conducted a survey for New Hampshire's nine Regional Planning Commissions, as part of the *Granite State Future* and *New Hampshire Broadband Mapping and Planning* initiatives. Funded in part by a grant from the US Department of Housing and Urban Development, *Granite State Future* is intended to engage New Hampshire citizens in a public dialogue, at the local, regional and state levels, about what they want for the future of their communities and state. Results from the survey will inform updates to the Regional Master Plans in each of NH's nine planning regions. These regional plans, whose development has been required under State law (RSA 36:47) for over 40 years, are advisory documents designed to provide municipalities with data and strategies to support local decision-making as well as enhance regional cooperation.

With support from the National Telecommunications Information Administration of the US Department of Commerce and in conjunction with the University of New Hampshire and other partners, the New Hampshire Broadband Mapping and Planning Program (NHBMP) is a comprehensive, multi-year effort that seeks to understand where broadband is currently available in NH, how it can be made more widely available in the future, and how to encourage increased levels of broadband adoption and usage. Results from the survey will inform the broadband plans developed in each of NH's nine planning regions.

The specific areas of interest are New Hampshire resident's opinions on a range of issues facing communities around the State – transportation and broadband infrastructure, housing, economic development, natural resource management, energy and natural hazard mitigation. A survey of two thousand nine hundred and thirty-five (2,935) New Hampshire adults was conducted by telephone between May 9 and July 21, 2013. The response rate was 33% and the margin of sampling error for the survey is +/- 2.2%. (See Technical Report for a more detailed description of survey methods.) The following figures display survey results, detailed tabular results can be found in Appendix A, Appendix B contains the open-ended responses and Appendix C contains the survey instrument.

The intent of this report is to provide NH's regional planning commissions and other interested parties with a broad overview of the data collected. This report should serve as a concrete focus for engaging with these data and using them to design and implement strategies for regional planning. However, every summary statement made in this report will generate numerous questions from the reader about how this data element or piece of information applies to other specific strata of the population or planning domain. Many of these questions can readily be answered by the extensive cross tabulations that are provided for each survey question in Appendix A of this report. Some of the questions that will be generated by this report will require more extensive and sophisticated analyses of these data. Knowing this, it is our hope that New Hampshire Planning leaders will share these data with other academics and community organizations that will actively use these data to help New Hampshire discover more about their local population and about how better to target planning initiatives to meet the needs of those in specific communities.

Each section begins with a summary narrative that is written in the form of short, bulleted sentences that describe selected indicators on the data tables and charts. These narratives are not intended to explain or summarize every indicator in the accompanying data tables. This section was not meant to provide the reader with any conclusions.

It was intended to spark interest in the data and invite you to ask questions of this information and use the data cross tabs accompanying this report to understand better the planning concepts you are concerned about.

The charts and tables that follow display major findings of the survey. They are not intended to exhaustively present all the data in the survey. If no demographic differences were listed then responses were consistent across demographic categories. Not all findings are noted in this report; these are the highlights of the results. Additional results can be found in the detailed tables located in Appendix A.

Key Findings

- Responses from residents of the Nashua Region were largely similar to those of statewide residents. The biggest difference involved what type of neighborhood residents live in (more Nashua residents live in developments away from the town center and less live in rural locations away from the town center).
- Residents believe that energy efficiency and energy choices should be the top priority for investing public dollars. Residents are largely in favor of all the proposed energy efficiency and renewable energy projects, except for the idea of having public charging stations made for electric vehicles.
- Residents view environmental protection and natural resource protection as the second most important priority for investing public dollars, and a majority believes that all environmental protection measures mentioned should be high priorities for policymakers, except for managing shore land and waterfront development.
- Safe and affordable housing is another important priority for investing public dollars. The development of single family housing and assisted living facilities were particularly favorable to residents while development of manufactured housing and apartments were the least favorable.
- Residents say that the top activity that their community should actively encourage is promoting local agriculture (88%). Majorities want to encourage many other activities as well, including expanding or promoting current businesses (84%) and promoting safe places to walk or bike (83%).
- Residents view quality schools as the most important thing to have in their community (94%). Other important aspects of a community include having small businesses and retail stores (86%), grocery stores (86%), nearby job opportunities (85%), and medical offices (83%).
- Residents view maintaining our bridges and highways to be the most important priority for transportation funding (71%). Residents were split on funding for other transportation initiatives, with a narrow majority favoring funding for expanding bus or rail service for commuting between major cities (62%), the availability of senior and special needs transportation (52%), and the availability of bike paths (52%).
- The vast majority of residents (96%) have internet access at home, and almost all of them (90%) consider their internet access adequate for their uses. Almost as many (83%) would not be willing to pay any additional money in exchange for faster internet speeds.

Demographics

Sex	Nashua	State
Male	50%	49%
Female	50%	51%
Age of Respondent		
18 to 29	19%	19%
30 to 39	15%	15%
40 to 49	23%	20%
50 to 59	18%	20%

Work At Home	9%	12%

Housing

A plurality of residents (38%) describe where they live as either a neighborhood close to the town center or a development away from the town center, followed by those in a rural location away from the town center (16%) and those downtown or in a town center (8%).

- Residents of the Nashua region are *more likely* to live in a development away from the town center than statewide residents. They are also *less likely* to live in a rural location away from the town center.
- Households earning less than \$60,000, non-white residents and those with a high school education or less are *more likely* to live downtown or in the town center.

Figure 1: How would you classify the neighborhood where you live? (q1)

When asked whether they would prefer to live in a small house but have a short commute to work or a large home with a longer commute, a majority (55%) said they would prefer the small home and short commute, 43% would prefer the large home and long commute and 2% did not know (**Figure 2**).

Meanwhile, almost two-thirds of residents (64%) would prefer to live in a strictly residential neighborhood while 35% would prefer a mixed residential/commercial neighborhood and 1% did not know (**Figure 3**).

- Households with two or more children, households earning more than \$160,000, those aged 40-49 and the self-employed are *more likely* to want a larger home with a longer commute.
- Older adults (70 and older), retired people, non-white residents and households earning less than \$60,000 are *more likely* to choose a smaller home with a shorter commute.
- Households earning less than \$40,000, non-white residents and those with a high school education or less are *more likely* to want to live in a mixed residential/commercial neighborhood.

Figure 2: Large Home with Long Commute or Small Home with Short Commute? (q7a)

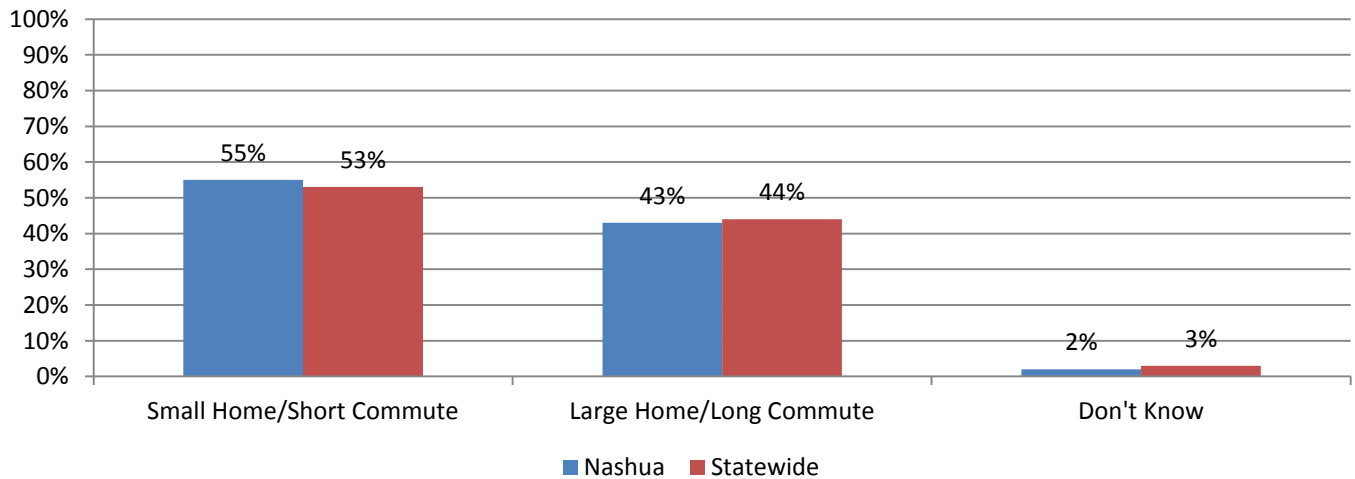

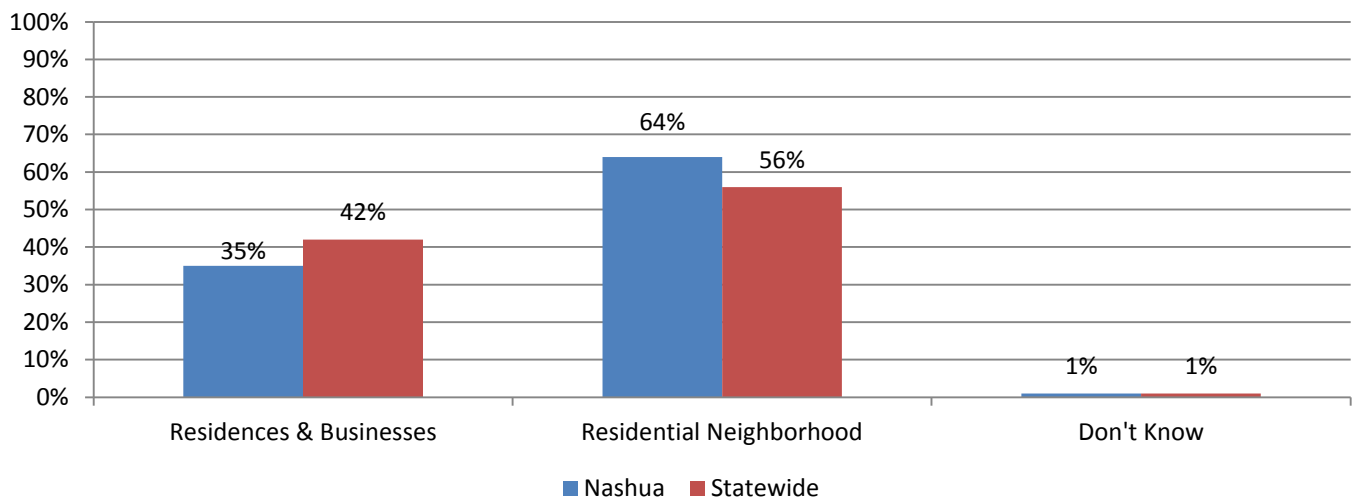

Figure 3: Mixed Neighborhood with Stores or Residential Only Neighborhood? (q7b)

Three in four residents (76%) who answered that they would like to live in a neighborhood with a mix of residences and businesses would prefer a smaller house with a short commute. A small majority (56%) of those who chose a residential neighborhood where you have to drive to services also prefer a larger house with a longer commute.

Table 1: Living Preference – Home Size and Commute vs. Type of Neighborhood

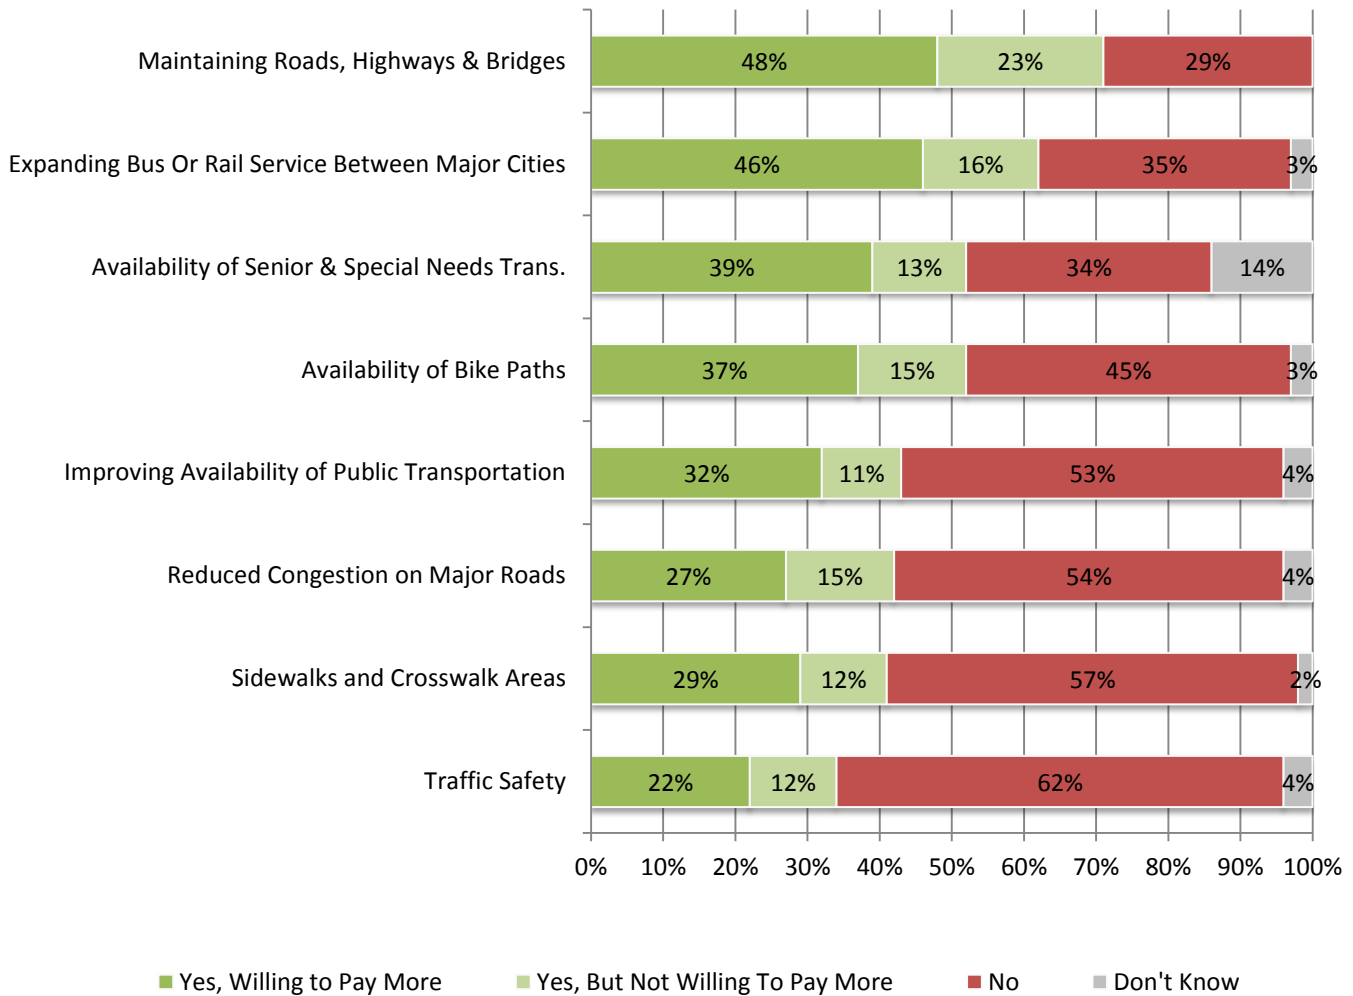

Q7A Would you choose to live in a small home with a small backyard, if it means you have a short trip to work, school or shopping, or would you choose to live in a large home with a large backyard, with a long trip to work school or shopping.	Q7B Would you choose to live in a neighborhood with a mix of residences and businesses where you can walk to stores, schools, and services, OR would you choose to live in a residential-only neighborhood where you needed to drive a car to get to stores, schools and services?		
	Mix of residences and businesses - walk	Residential neighborhood - drive	Total
Small home, small yard	76% (104)	44%(113)	56% (217)
Large home, large yard	24% (32)	56% (138)	44% (170)
Total	35% (136)	65% (254)	100%

Transportation

Seven in ten (71%) residents think that policy makers should invest more money in maintaining roads, highways and bridges (with 48% willing to pay more in taxes to do so), followed by expanding bus or rail service between major cities (62%), improving availability of senior and special needs transportation (52%), improving availability of bike paths (52%), improving the availability of public transportation (43%), reducing congestion on major roads (42%), sidewalks and crosswalk areas (41%) and traffic safety (34%).

- Residents of the Nashua Region are *more likely* than statewide residents to want investment in expanding bus or rail service for commuting between major cities.
- Household with two or more children, households earning less than \$40,000 and those aged 30 to 39 are *more likely* to want investment in sidewalks and crosswalk areas.
- Households earning less than \$40,000 and non-white residents are *more likely* to want investment in improving the availability to public transportation.

Figure 4: Should Policy Makers Invest More Money in Transportation (q2)

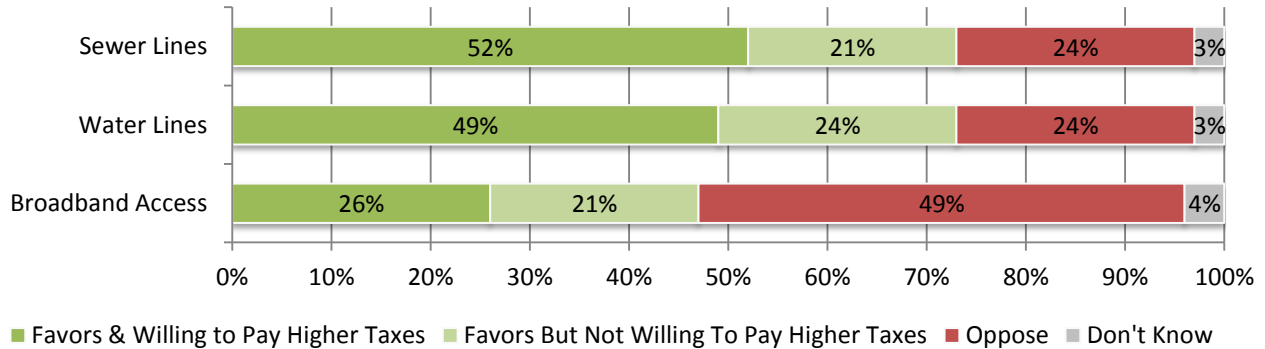

Community Development

A large majority of residents (73%) favor using municipal funds to provide sewer lines to existing and potential development (although just 52% would be willing to pay more in taxes for it), followed by sewer lines (73%) and broadband access (47%).

- Young people (18 to 29), those not employed and not looking and non-white residents are *more likely* to favor using funds for broadband access.

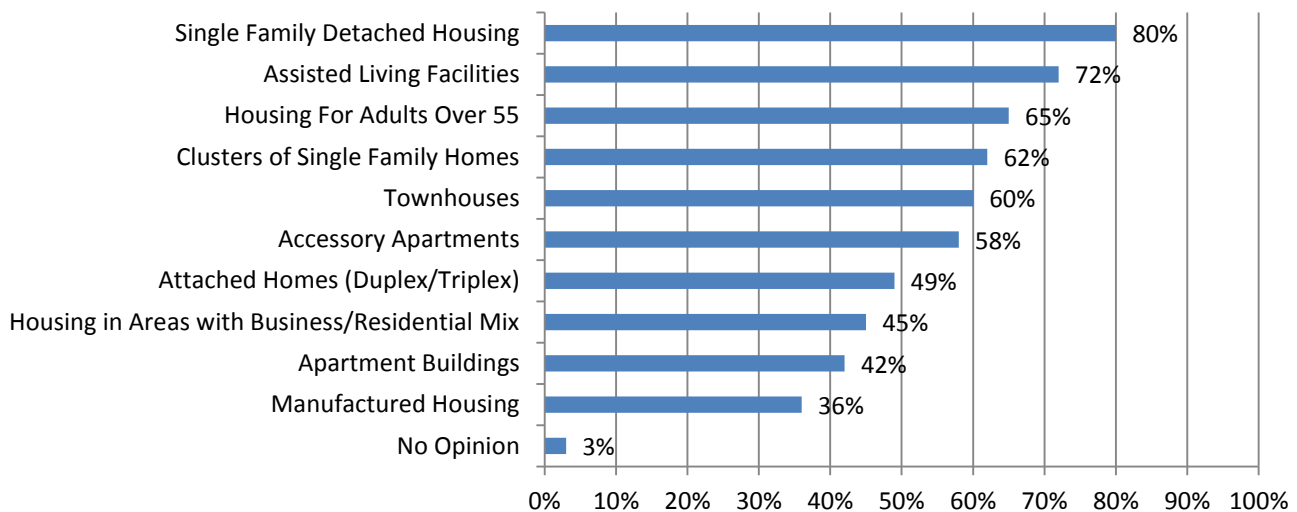

Figure 5: Favor or Oppose Using Municipal Funds to Provide Utilities for Development (q11)

Four in five residents (80%) think that their town should encourage single family detached housing, followed by assisted living facilities (72%), housing for adults over 55 (65%), clusters of single family homes (62%), townhouses (60%), accessory apartments (58%), attached homes (49%), housing in areas with a business/residential mix (45%), apartment buildings (42%), and manufactured housing (36%).

- Older people (50 to 59 and 70 or older) and those with a high school education or less are *more likely* to want their town to encourage housing for adults over 55 years old.
- Households earning less than \$40,000, non-white residents and those with a high school education or less are *more likely* to want their town to encourage apartment buildings.

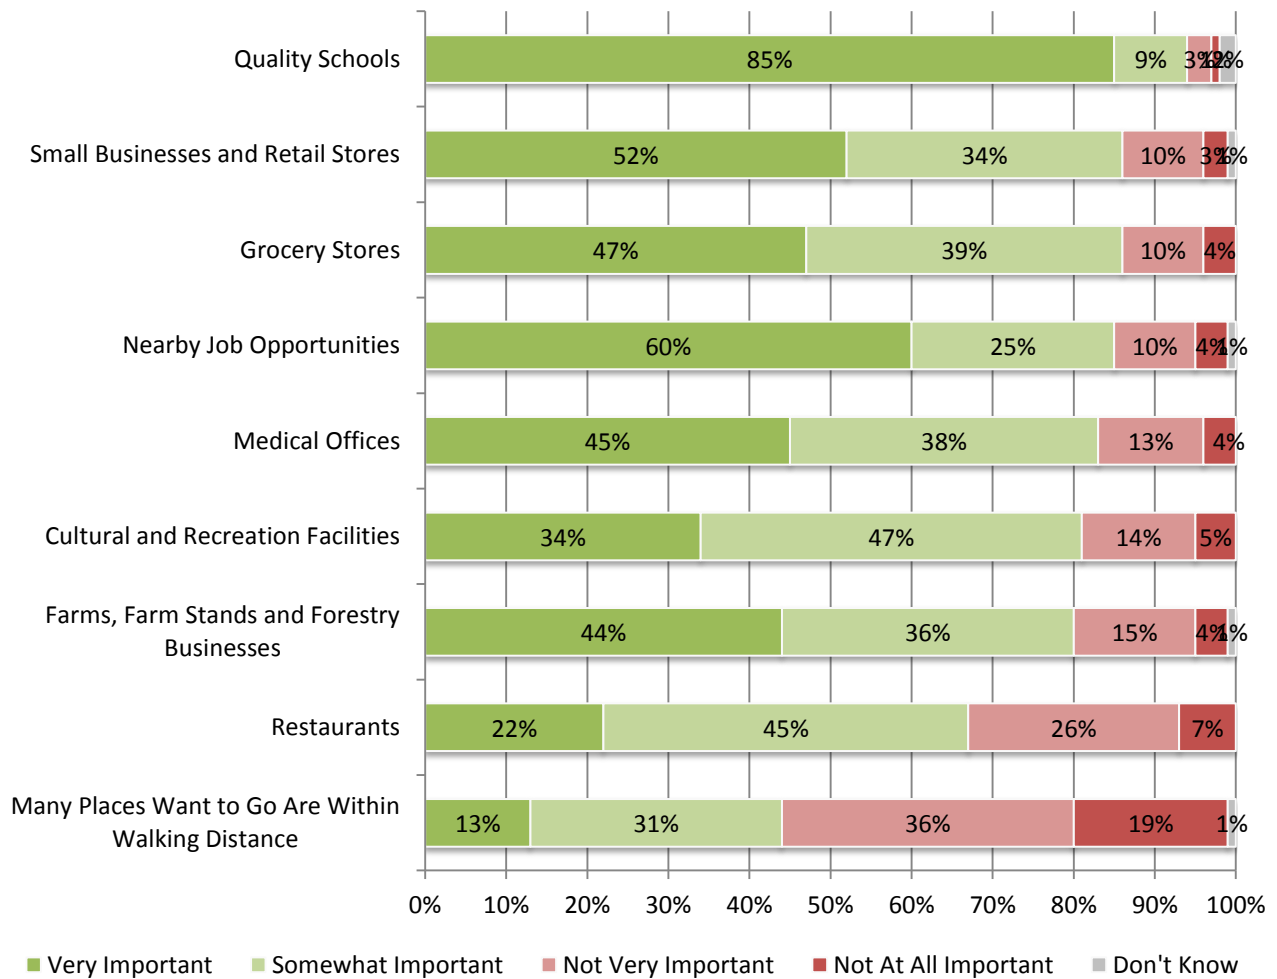

Figure 6: What kinds of housing should your town encourage? Check all that apply (q6)

Nearly all (94%) residents find it important (85% “very important” and 9% “somewhat important”) that there are quality schools in their community, followed by small businesses and retail stores (86%), grocery stores (86%), having nearby job opportunities (85%), medical offices (83%), cultural recreation facilities (81%), farms, farm stands and forestry businesses (80%), restaurants (67%) and that many places they want to go are within walking distance (44%).

- Older people (60 and older), households earning less than \$40,000, those with a high school education or less and non-white residents are *more likely* to think it is very important to have medical offices.
- Older people (70 and older), retired people, and households earning less than \$40,000 are *more likely* to think that grocery stores are very important.
- Young people (18 to 29) and households earning between \$20,000 and \$39,999 are *more likely* to think nearby job opportunities are very important.
- Those with technical school or some college education, the self-employed and households earning less than \$20,000 or between \$40,000 and \$59,999 are *more likely* to think that farms, farm stands and forestry businesses are very important.

Figure 7: How Important Is It To Have In Your Community? (q3)

Only 10% of respondents find housing to be very affordable in their town, 60% find it somewhat affordable, 22% find it not very affordable, 4% find it not affordable at all and 4% don't know. When it comes to renting, only 6% find it very affordable, 40% find it somewhat affordable, 20% find it not very affordable, 6% find it not affordable at all and 29% don't know.

- Young people (18 to 29), those with a high school education of less, non-white residents and households earning between \$40,000 and \$160,000 are *more likely* to think that rent is somewhat affordable.

Figure 8: How Affordable is Housing in Your Town? (q4 & q5)

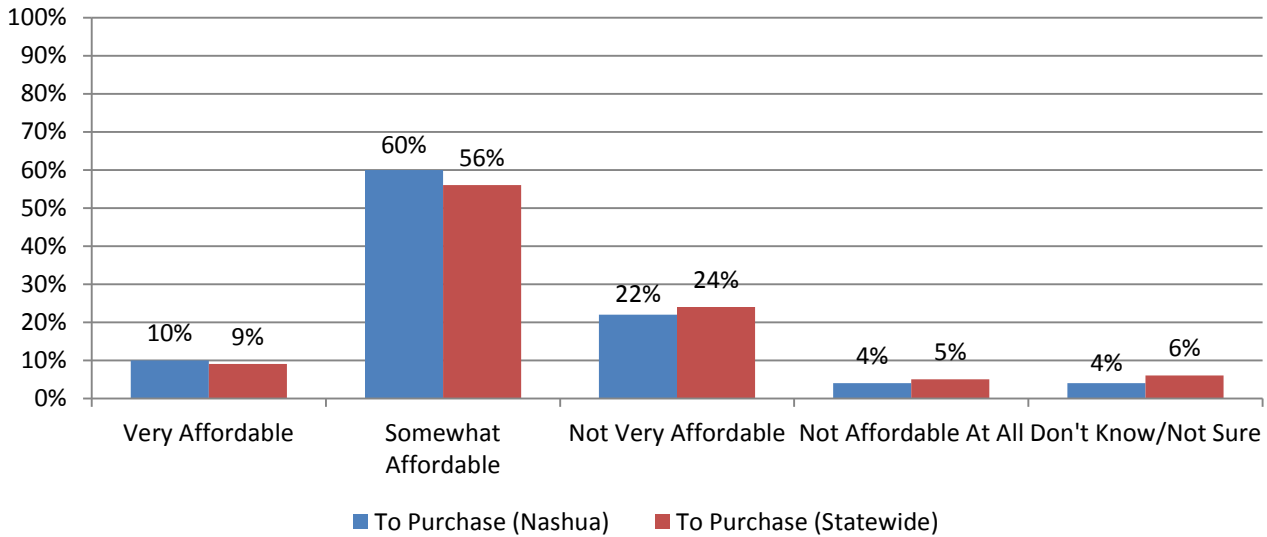

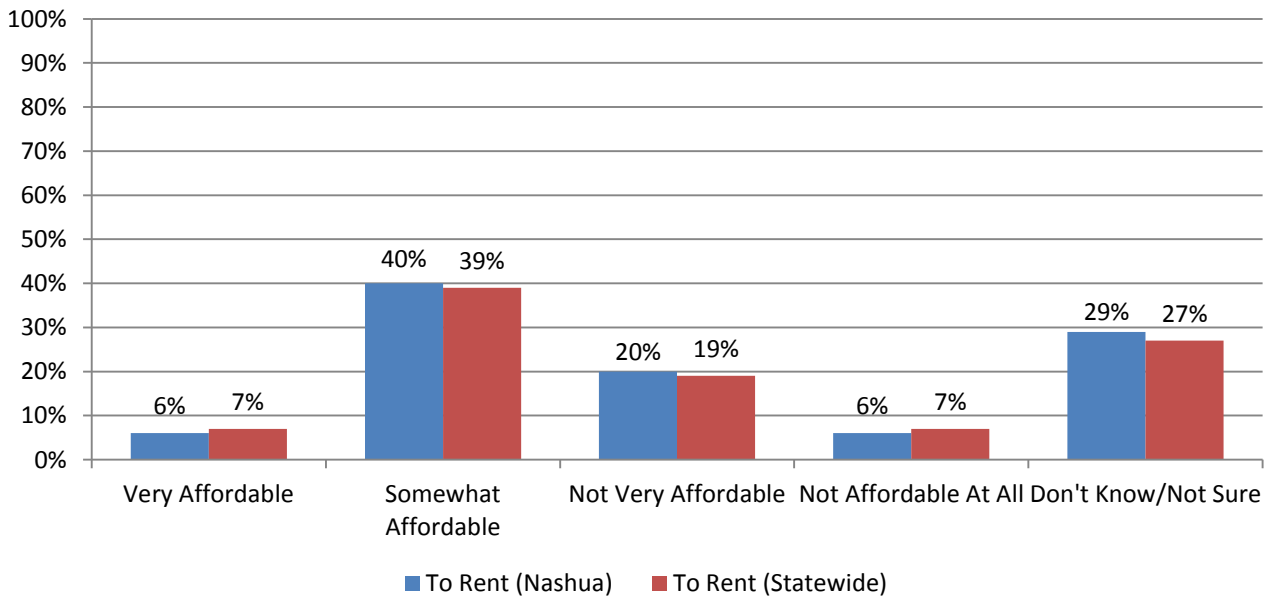

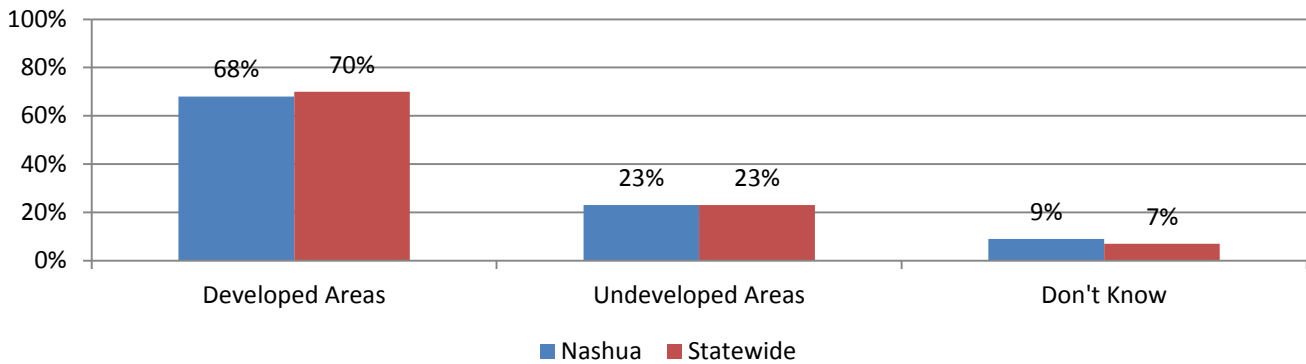

Figure 8b: How Affordable is Housing in Your Town? (q4 & q5)

Two-thirds (68%) of residents think that future development should occur in areas that are already developed while only 23% support development in undeveloped areas and 9% did not know.

- Young people (18 to 29) and those with technical school or some college education are *more likely* to support growth in developed areas. Those with a high school education or less and those who have lived in NH for five years or less are *more likely* to support growth in undeveloped areas.

Figure 9: Where should future development occur in your part of the state? (q8)

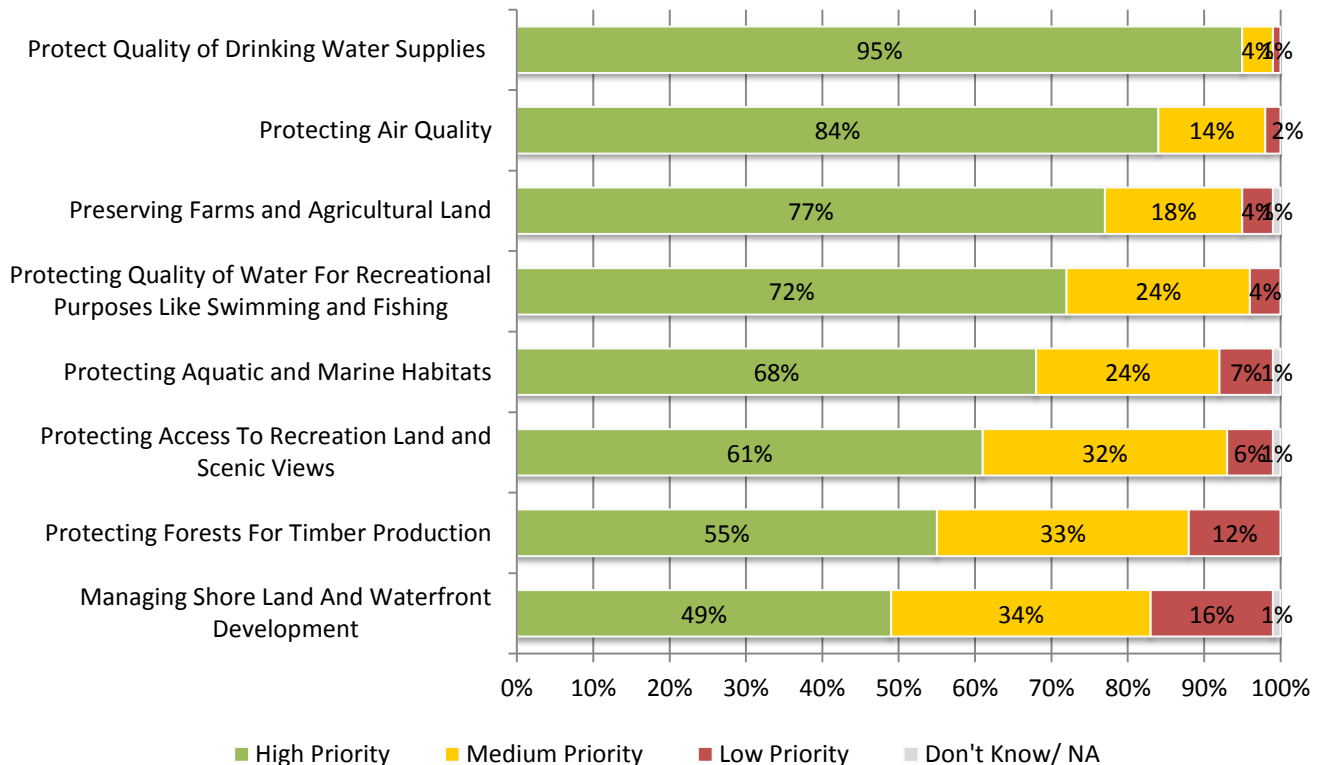

Environmental Protection

Nearly all residents (95%) view protecting water quality for drinking as a high priority for their community, followed by protecting air quality (84%), preserving farms and agricultural land (77%), protecting water quality for recreational purposes like swimming and fishing (72%), protecting aquatic and marine habitats (68%), protecting access to recreation land and scenic views (61%), protecting forests for timber production (55%), and managing shore land and waterfront development (49%).

- Older people (70 or older), retired people, those with a high school education or less and those who have lived in NH for 6 to 10 years are more likely to think protecting water for recreational use is a high priority.
- Those aged 50 to 69 and those who work at home are *more likely* to think protecting aquatic and marine habitats is a high priority.
- Those aged 30 to 39 or 60 to 69, households earning less than \$40,000, and those who have lived in NH for 5 years or less are *more likely* to think protecting access to recreational land and scenic views is a high priority.
- Those who are not employed, those aged 30 to 39 or 70 or older, and those with a high school education or less are *more likely* to think protecting forests for timber production is a high priority.
- Older people (60 or older) and retired people are *more likely* to think managing shore land and waterfront development is a high priority.

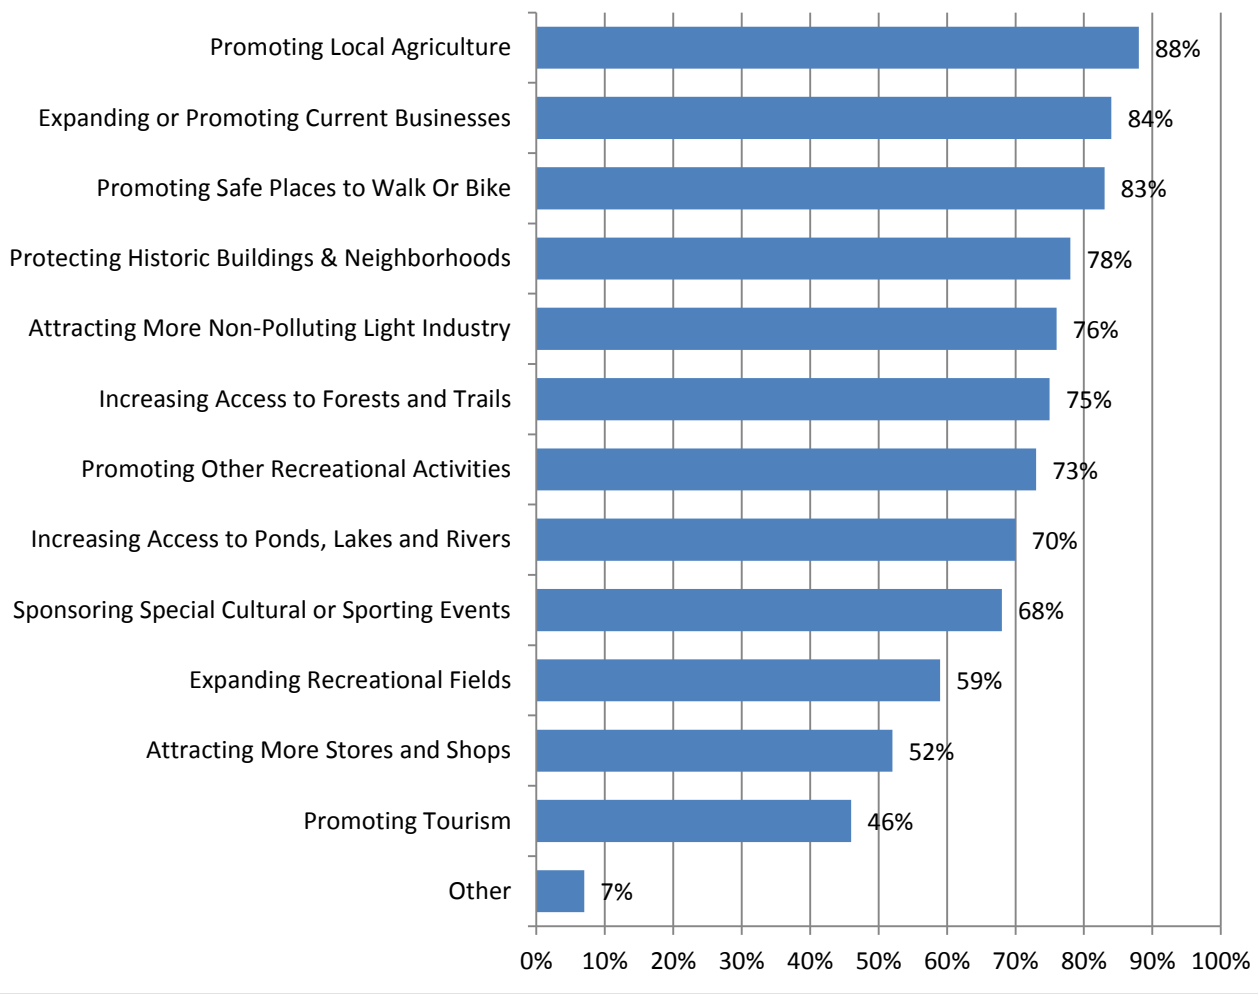

Figure 10: Priority Placed on These Community Issues (q9)

A large majority of residents (88%) say that promoting local agriculture should be actively encouraged in the community, followed by expanding or promoting current businesses (84%), promoting safe places to walk or bike (83%), protecting historic buildings & neighborhoods (78%), attracting more non-polluting light industry (76%), increasing access to forests and trails (75%), promoting other recreational activities (73%), increasing access to ponds, lakes and rivers (70%), sponsoring special cultural or sporting events (68%), expanding recreational fields (59%), attracting more stores and shops (52%) and promoting tourism (46%).

- Households earning less than \$40,000, those aged 60 to 69, non-white residents and part-time employees are *more likely* to say their community should actively encourage promoting tourism.
- Households with children and households earning between \$90,000 and \$160,000 and non-white residents are *more likely* to say their community should actively encourage expanding recreational fields.
- Young people (18 to 29), households earning less than \$40,000 and those who have been residents of NH for 10 years or less are *more likely* to say their community should attract more stores.

Figure 11: What should be actively encouraged in your community? Check all that apply (q12)

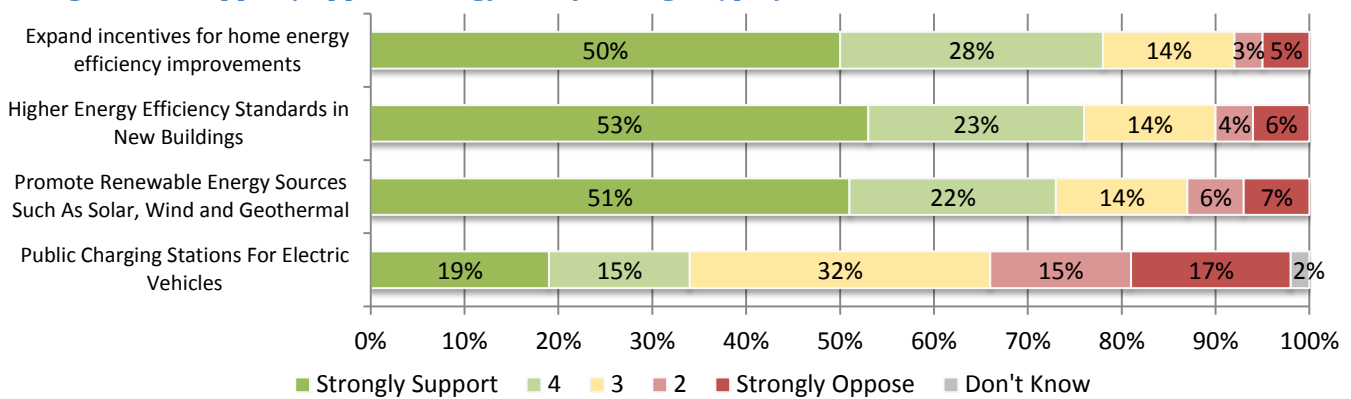

Energy Policies

Nearly four in five residents (78%) support expanding incentives for home energy efficiency improvements (with 50% who “strongly support”), followed by higher energy efficiency standards in new buildings (76%), and promoting renewable energy sources such as solar, wind and geothermal (73%). Meanwhile only 34% were in support of public charging stations for electric vehicles.

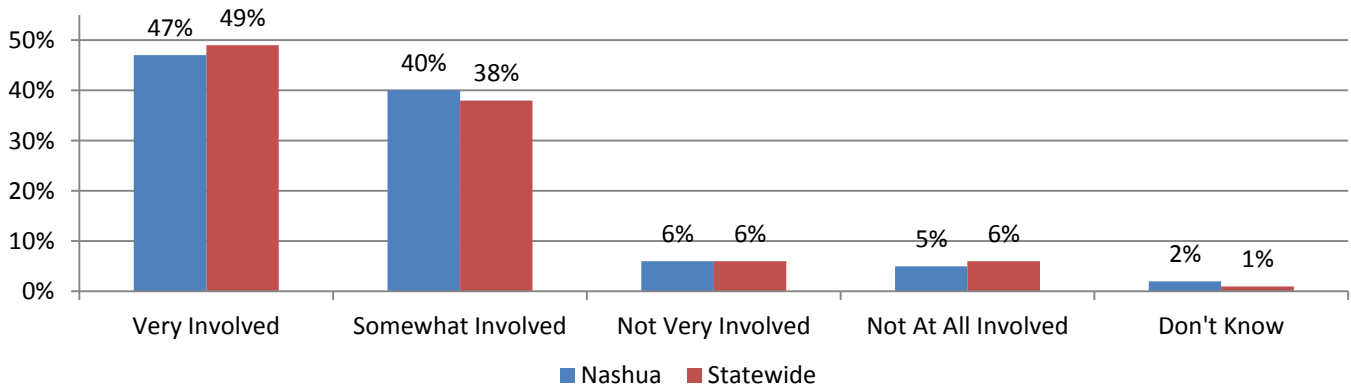

- Older people (60 or older), those with a high school education or less and those not employed and not looking are *more likely* to strongly support higher energy efficiency standards in new buildings.
- Those with a high school education or less, households earning less than \$40,000, non-white residents, those who have lived in NH for 5 years or less, and those who are not employed or self-employed are *more likely* to strongly support public charging stations for electric vehicles.
- Those with some college education or less, households earning less than \$40,000, non-white residents and those who are not employed or self-employed are *more likely* to strongly support promoting renewable energy sources.

Figure 12: Support/Oppose Energy Policy Changes (q13)

Almost half of residents (47%) think that local governments should be very involved in guidelines for renewable energy (such as large wind farms), 40% think they should be somewhat involved, 6% think they should be not very involved, 5% think they should be not at all involved and 2% don't know.

Figure 13: How Involved Should Local Governments Be In Guidelines For Renewable Energy? (q16)

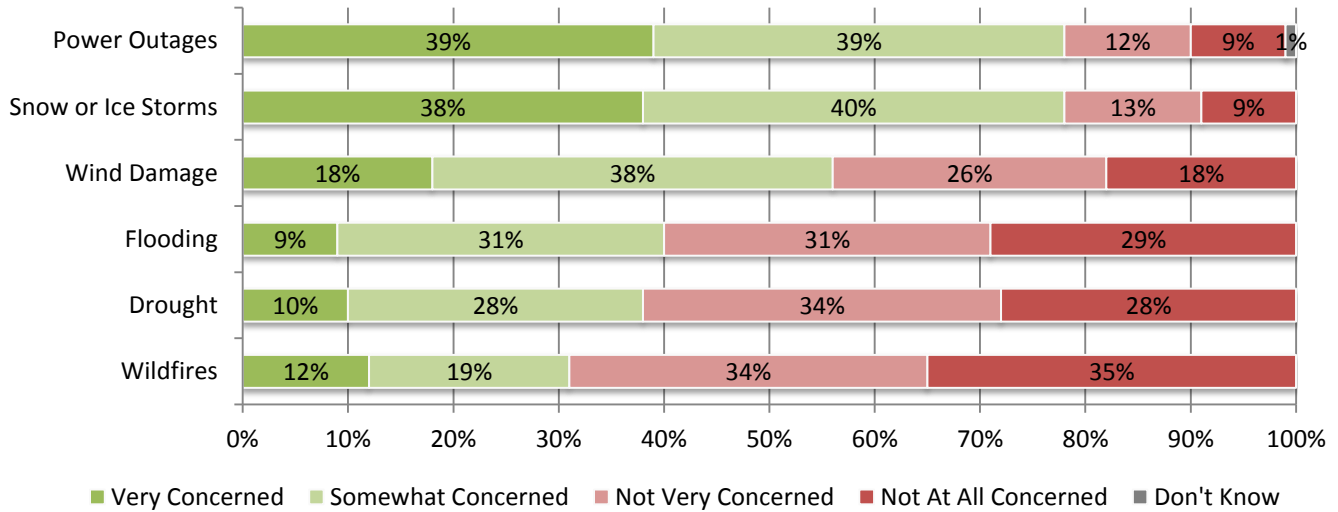

Emergency Preparedness

A large majority of residents (78%) are concerned (39% “very concerned” and 39% “somewhat concerned”) with power outages in their community followed by snow or ice storms (78%), wind damage (56%), flooding (38%), drought (38%) and wildfires (31%).

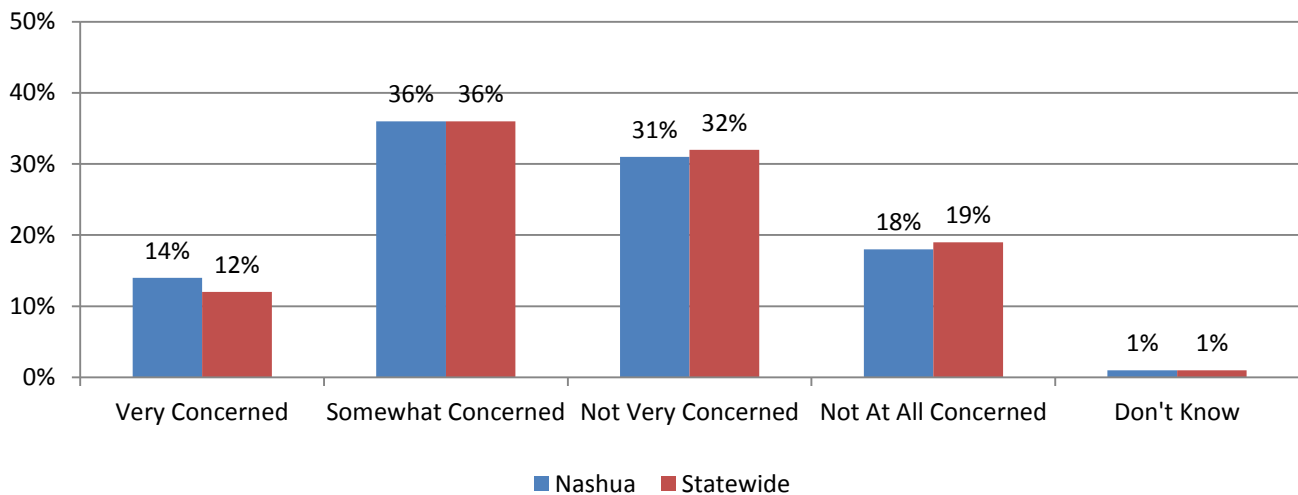

- Younger people (18 to 39) are *more likely* to be very concerned about snow or ice storms.
- Older people (70 and older) are *more likely* to be very concerned about flooding, droughts and wildfires.

Figure 14: How Concerned Are You About Weather Related Events In Your Community? (q14)

Only 14% of residents are very concerned about their community’s level of preparedness in weather-related situations, while 36% are somewhat concerned, 31% are not very concerned, 18% are not at all concerned and 1% don’t know.

Figure 15: Concerned about Your Community’s Level of Preparedness? (q15)

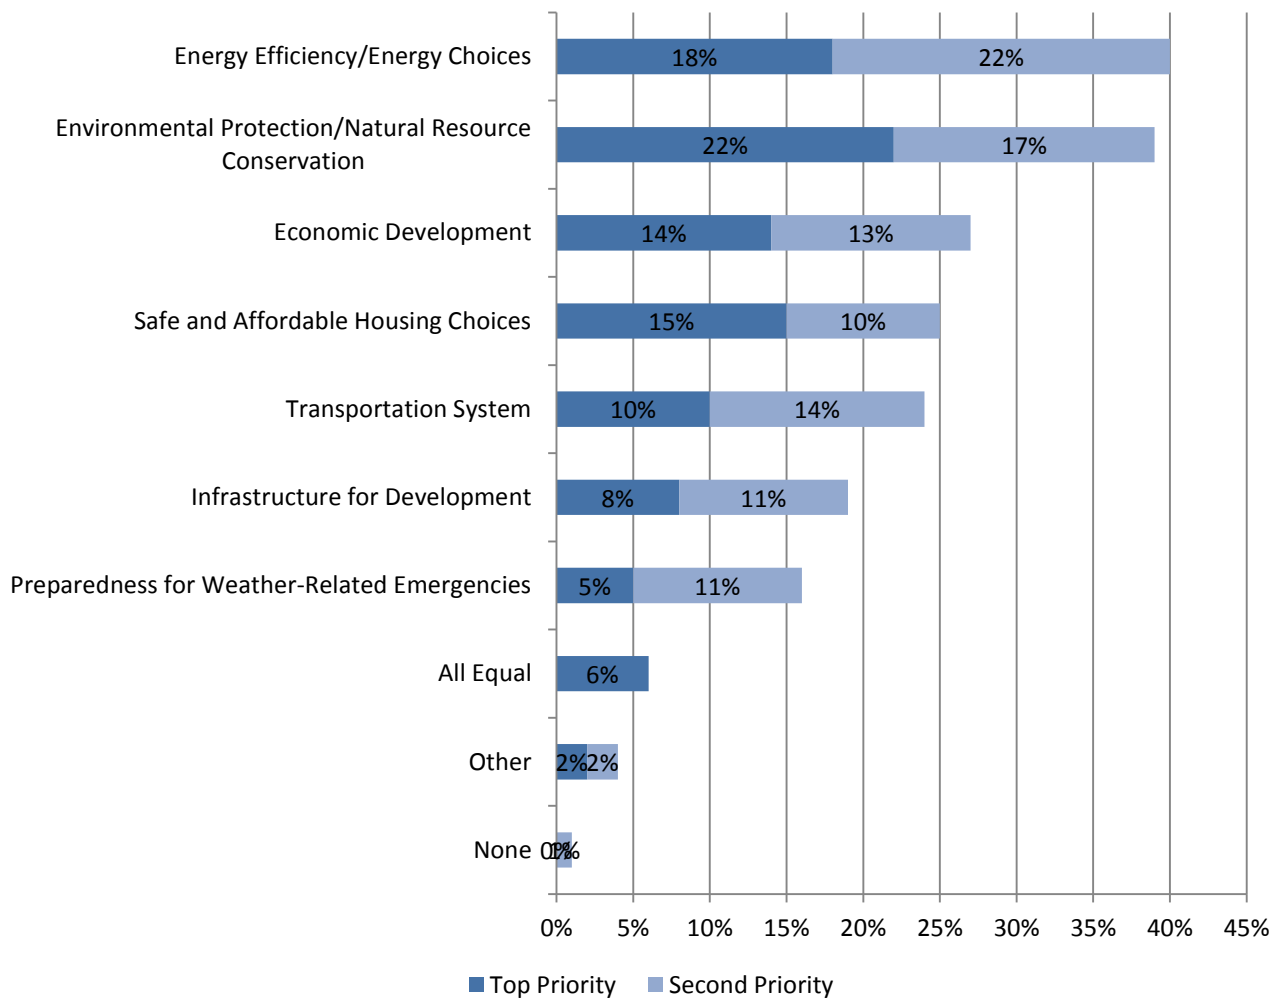

Priorities for Investing Public Dollars

Residents' top priority for investing public dollars is environmental protection (22%), followed by energy efficiency (18%), safe and affordable housing (15%), economic development (14%), transportation system (10%), infrastructure for development (8%), preparedness for weather-related or other emergencies (5%), all priorities are equal (6%), and something else (2%).

When the top two responses are combined energy efficiency (40%) and environmental protection (39%) are the two most cited priorities.

Figure 16: Priorities for Investing Public Dollars (q17)

Broadband

Nearly all (96%) residents have internet access in their home, while just 4% do not (**Figure 11**). For those who do not have internet access at home, a plurality (32%) says that they don't have it because it is too expensive, followed by they don't need it (25%), they have access at another place like their job (20%), they don't have an adequate computer (12%), and they don't know how to use it (2%). There were also 9% who cited another reason (**Figure 12**).

- Those who are 70 or older, those with a high school education or less and households earning less than \$20,000 are *less likely* to have internet access at home.
- There were 5% of statewide respondents who said the most important reason why they didn't have access was because it is not available where they live. No Nashua region resident chose this response.

Figure 17: Do You Have Internet Access At Home?

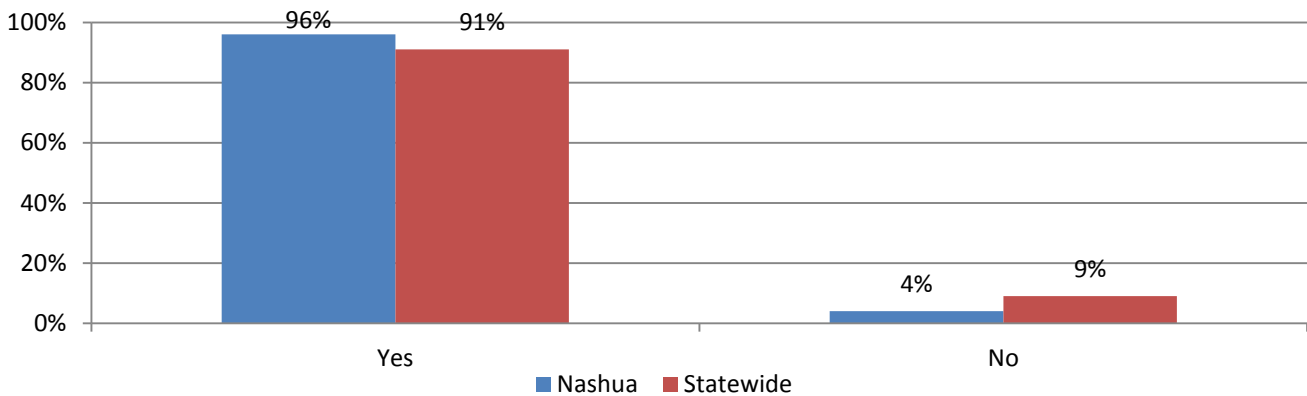

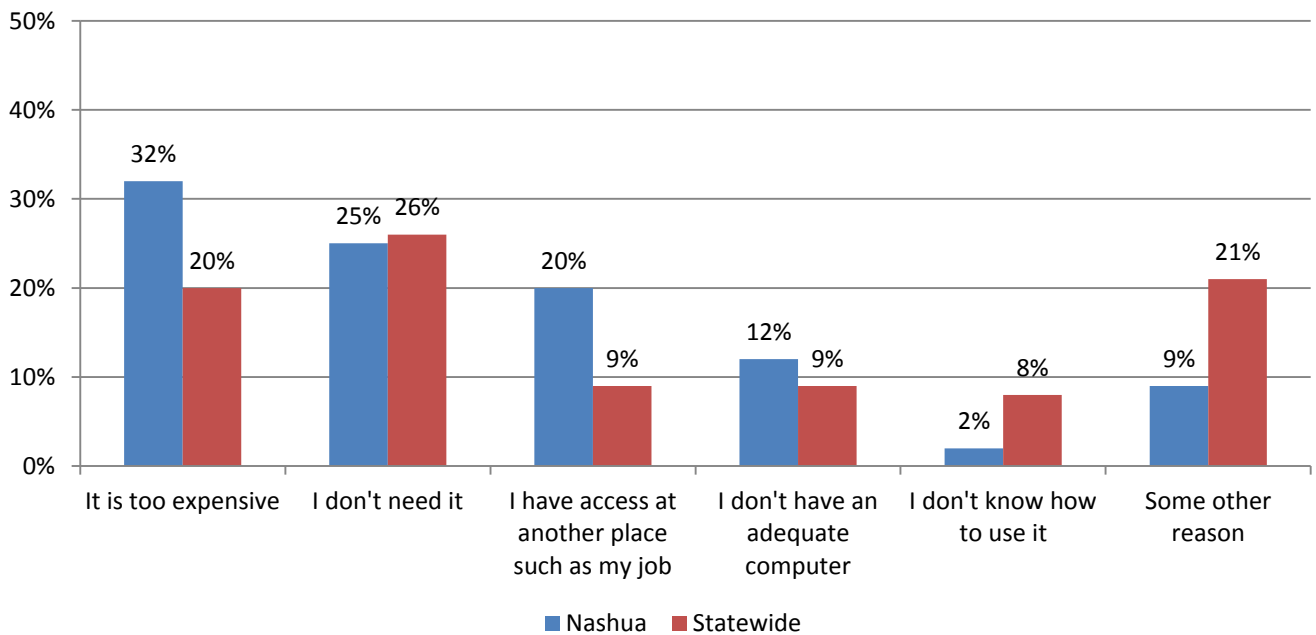

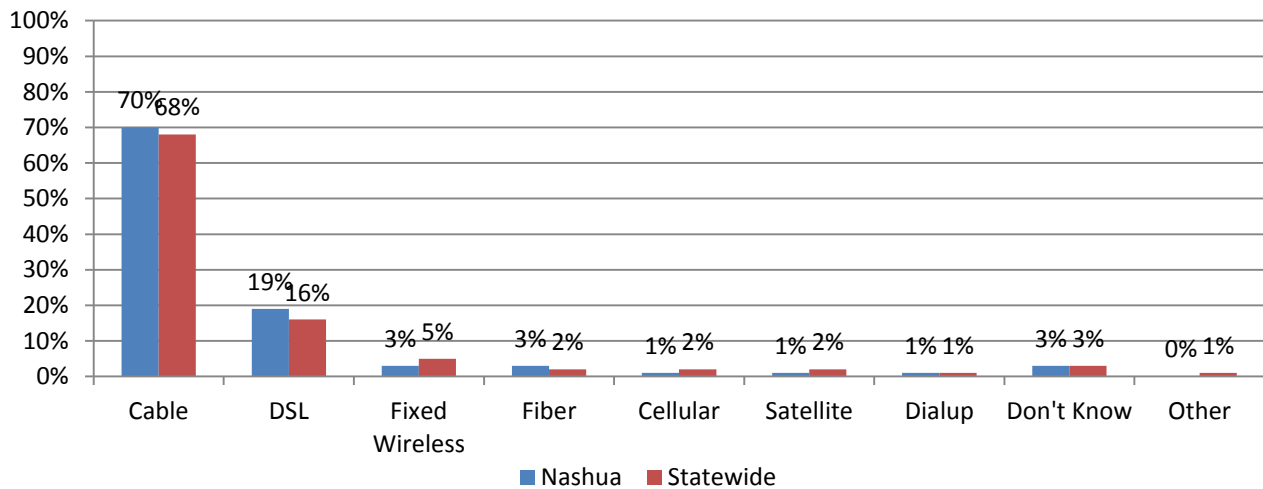

Figure 18: Most important reason why you don't have internet access at home?

Seven in ten residents (70%) have a cable internet connection, followed by those with DSL (19%), fixed wireless (3%), fiber (3%), cellular (1%), satellite (1%), and dialup (1%). There were also less than 1% who said they have had another type of connection and 3% didn't know.

- Households earning less than \$60,000 and those with a high school education or less are *less likely* to have cable internet.

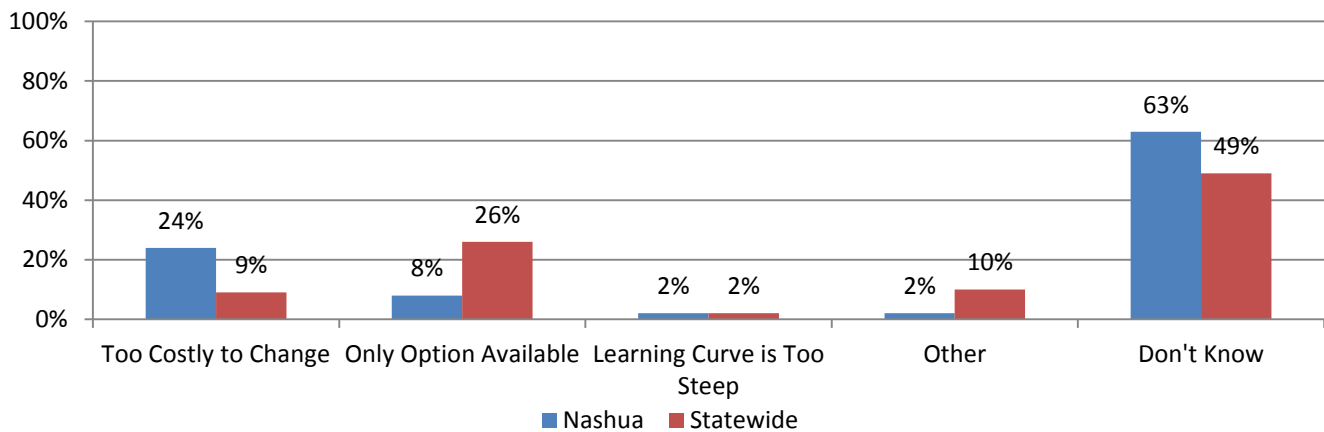

Figure 19: What type of internet connection do you have at home?

For those who do have a dialup or satellite connection, most (63%) say that they don't know why, followed by it being too costly to change (24%), it being the only option available (8%), and the learning curve being too steep (2%). There were also 2% who said that they had another reason.

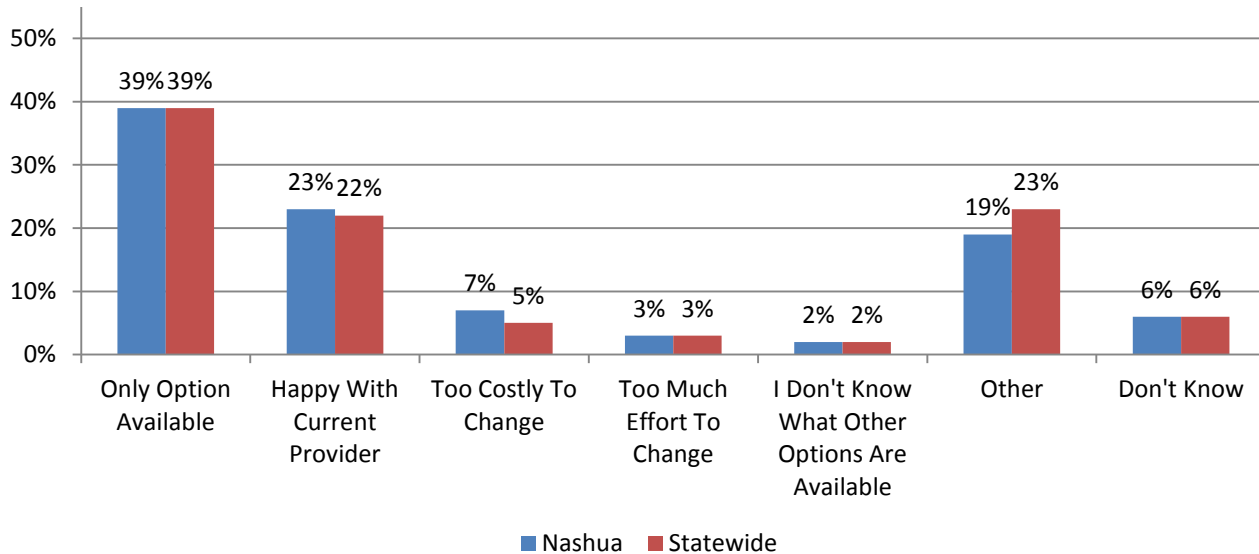

- Nashua region residents were *more likely* to say that it is too costly to change from dialup or satellite or they did not know why they had it.
- There were 2% of statewide residents that said it was too much effort to change or they don't know other options. There were no Nashua residents to choose either response.

Figure 20: If you are on dialup or satellite, why?

For those who don't have satellite or dialup, a plurality (39%) of residents say that they have their current internet provider because it is the only option available, followed by being happy with their current provider (23%), it being too costly to change (7%), it being too much effort to change (3%), and they don't know what other options are available (2%). There were also 19% who had another reason and 6% who didn't know.

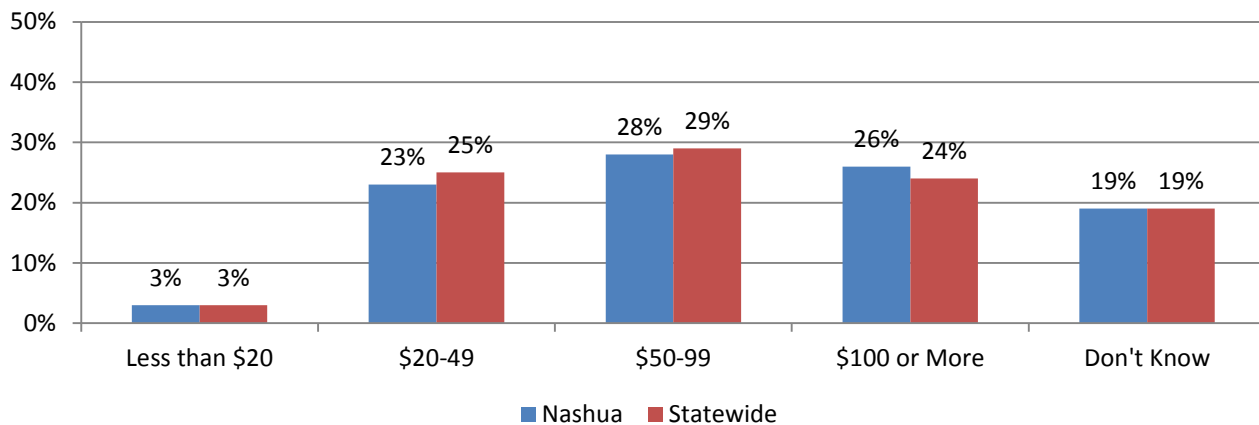

Figure 21: Why Are You Using Your Current Provider?

Only 3% of residents say that their monthly internet bill is less than \$20, while 23% pay \$20-49 per month, 28% pay \$50-99 per month, 26% pay \$100 or more per month and 19% did not know.

- Older people (60 and older) are *more likely* to pay \$100 or more per month.

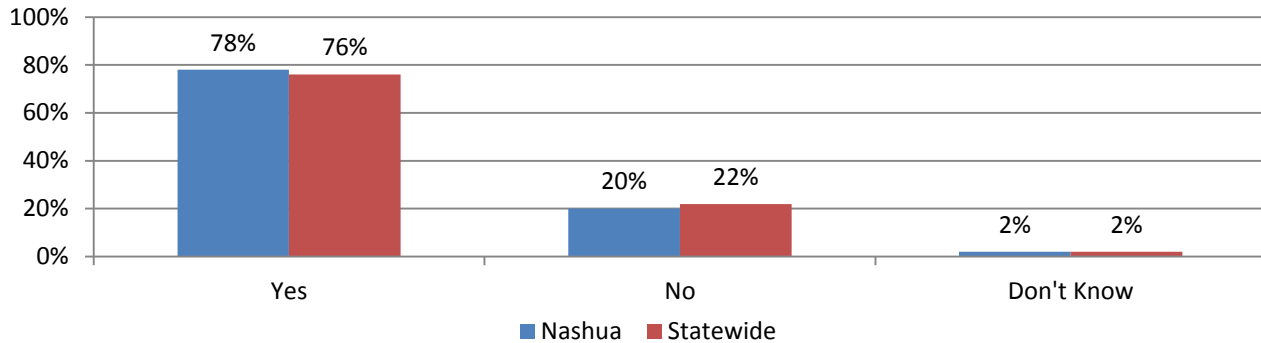

Figure 22: What is your monthly internet bill?

More than three-quarters (78%) currently pay for a bundled internet service, 20% don't have a bundled service and 2% did not know.

- Households earning between \$20,000 and \$59,999 are *less likely* to pay for bundled service.

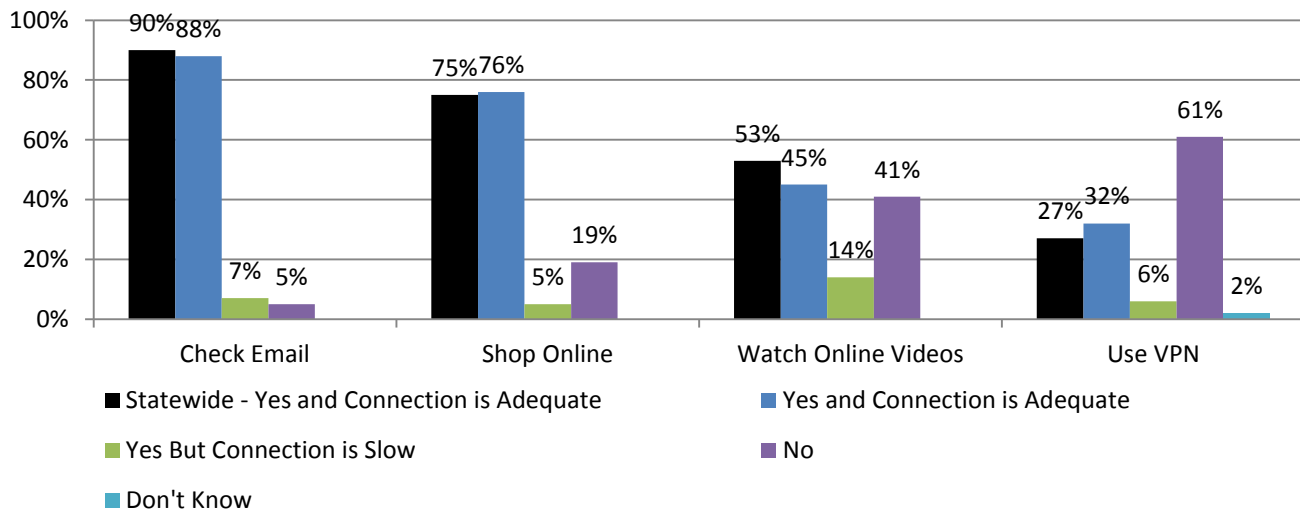

Figure 23: Do you pay for a bundled service?

Almost all (88%) residents use their home internet to check email and their connection is adequate to do so, 76% shop online with an adequate connection, 45% watch online videos and have an adequate connection and 32% use VPN and have an adequate connection to do so.

- Older people (70 or older), those with some college education or less, the retired and the unemployed are *less likely* to shop online.
- Older people (50 or older) and those who are retired are *less likely* to watch on-line video. Conversely, younger people (18 to 39) are *more likely* to watch on-line video.
- Households earning more than \$160,000 are *more likely* to use a VPN at home. Older people (70 or older) are *less likely* to use a VPN.

Figure 24: What Do You Use The Internet At Home For

Nearly all (90%) residents state that their internet connection is adequate for their uses, 9% say their connection is not adequate and 1% don't know (**Figure 19**). A large majority (83%) of residents would not be willing to pay more for faster internet speeds; 14% would be willing to pay 25% more per month, 1% would be willing to pay 50% more per month and 3% don't know (**Figure 20**).

Figure 25: Do you consider your internet connection adequate for your uses?

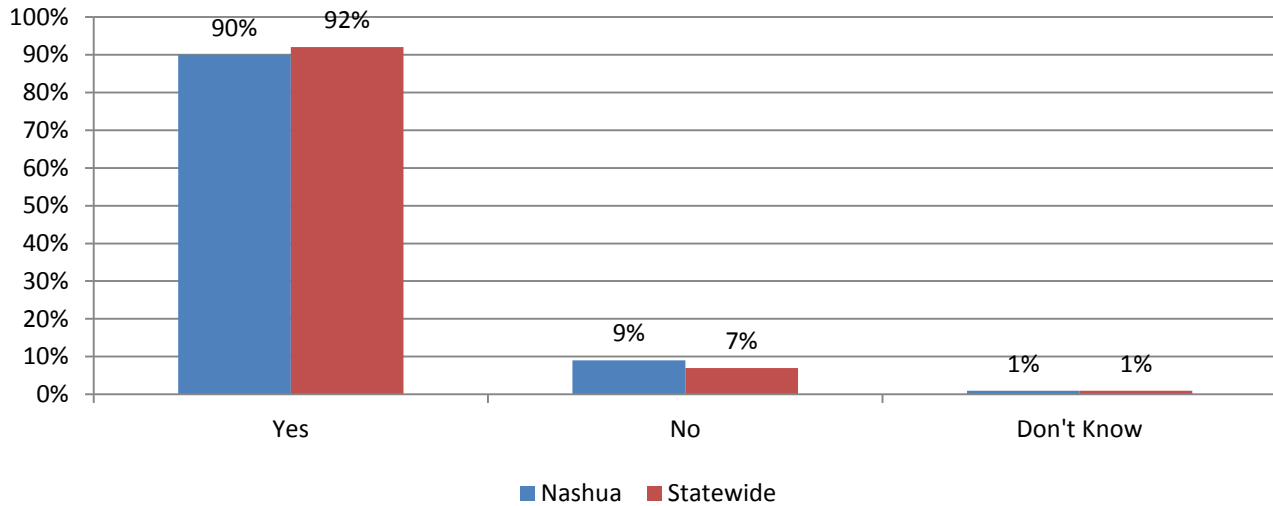

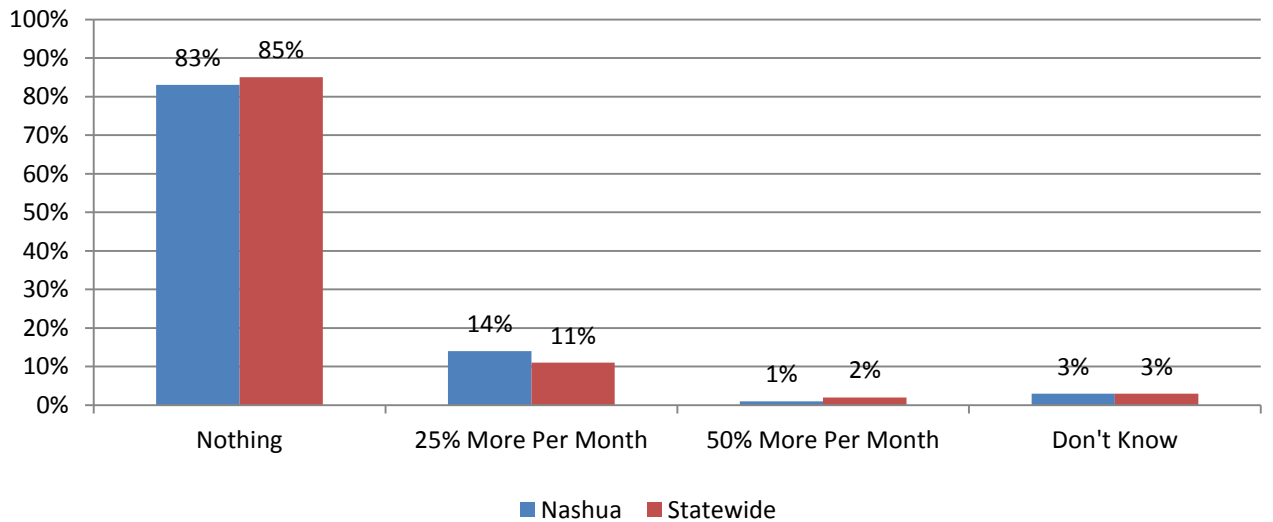

Figure 26: How much more (if any) would you be willing to pay for faster internet speeds?

Technical Report

How the Sample Was Selected

The New Hampshire Regional Planning Commissions A Granite State Future (GSF) Survey was a telephone survey of randomly selected adults in the state of New Hampshire. This survey was conducted using a procedure called Random Digit Dialing (RDD), of both landline and cellular telephone.

A sample of households in the area was selected by a procedure known as random digit dialing. The way this works is as follows. First, with the aid of a computer, one of the three digit telephone exchanges that are currently used in the state (e.g., 772) is randomly selected. The computer then randomly selects one of the "working blocks"--the first two of the last four numbers in a telephone number (e.g., 64)--and attaches it to the randomly selected exchange. Finally, the computer program then generates a two digit random number between 00 and 99 (e.g., 57) which is attached to the previously selected prefix (772), and the previously selected working block (64) resulting in a complete telephone number, i.e., 772 6457. This procedure is then repeated numerous times by the computer to generate more random numbers, so that we have a sufficient quantity to conduct the survey. The end result is that each household in the area in which there is a telephone has an equally likely chance of being selected into the sample. This procedure is done for both land line and cellular exchanges.

The random sample used in the GSF survey was purchased from Scientific Telephone Samples (STS), Foothill Ranch, CA. STS screens each selected telephone number to eliminate non-working numbers, disconnected numbers, and business numbers to improve the efficiency of the sample, reducing the amount of time interviewers spend calling non-usable numbers.

Each of these randomly generated telephone numbers is called by one of our interviewers from a centrally supervised facility at the UNH Survey Center. If the number called is found not to be a residential one, it is discarded and another random number is called. (Approximately forty-five percent of the numbers were discarded because they are found to be businesses, institutions, or not assigned.) If it is a residential number, the interviewer then randomly selects a member of the household by asking to speak with the adult currently living in the household who has had the most recent birthday. This selection process ensures that every adult (18 years of age or older) in the household has an equally likely chance of being included in the survey. No substitutions are allowed. If, for example, the randomly selected adult is not at home when the household is first contacted, the interviewer cannot substitute by selecting someone else who just happens to be there at the time. Instead, he or she must make an appointment to call back when the randomly selected adult is at home. In this way, respondent selection bias is minimized.

When the Interviewing Was Done

New Hampshire adults in the GSF survey were interviewed between May 9 and July 6, 2013. Each selected respondent was called by a professional UNH Survey Center interviewer from a centrally supervised facility at the UNH Survey Center. Telephone calls during the field period were made between 9:00 AM and 9:00 PM.

Response Rates

Interviews were completed with 2,935 randomly selected adults in New Hampshire from a sample of 25,114 randomly selected telephone numbers. Using American Association for Public Opinion (AAPOR) Response Rate 4, the response rate for the Granite State Future survey was 33% percent. The formula to calculate standard AAPOR response rate is:

$$\frac{I}{(I + P) + (R + NC + O) + e(UH + UO)}$$

I=Complete Interviews, **P**=Partial Interviews, **R**=Refusal and break off, **NC**=Non-Contact, **O**=Other, **e**=estimated portion of cases of unknown eligibility that are eligible, **UH**=Unknown household, **UO**=Unknown other.

Weighting of Data

The data have been weighted to account for known biases of telephone surveys. The data in the Granite State Future survey are weighted by the number of adults and telephone lines (landlines and cell phones) within households to equalize the chances that any one adult would be selected for inclusion. The data are also weighted by respondent sex, regional planning commission, and age of respondent.

Sampling Error

The Granite State Future survey, like all surveys, is subject to sampling error due to the fact that all residents in the area were not interviewed. For those questions asked of five hundred (500) or so respondents, the error is +/- 4.4%. For those questions where fewer than 500 persons responded, the sampling error can be calculated as follows:

$$Sampling\ Error = \pm 1.96 \sqrt{\frac{P(1 - P)}{N}}$$

Where P is the percentage of responses in the answer category being evaluated and N is the total number of persons answering the particular question.

For example, suppose you had the following distribution of answers to the question, "Should the state spend more money on road repair even if that means higher taxes?" Assume 1,000 respondents answered the question as follows:

YES	47%
NO	48%
DON'T KNOW	5%

The sampling error for the "YES" percentage of 47% would be

$$\pm 1.96 \sqrt{\frac{47(53)}{1000}} = \pm 3.1\%$$

for the "NO" percentage of 48% it would be

$$\pm 1.96 \sqrt{\frac{48(52)}{1000}} = \pm 3.1\%$$

and for the "DON'T KNOW" percentage of 5% it would be

$$\pm 1.96 \sqrt{\frac{5(95)}{1000}} = \pm 1.4\%$$

In this case we would expect the true population figures to be within the following ranges:

YES	43.9% - 50.1% (i.e., 47% ±3.1%)
NO	44.9% - 51.1% (i.e., 48% ±3.1%)
DON'T KNOW	3.6% - 6.4% (i.e., 5% ±1.4%)

Appendix A: Detailed Tabular Results

Q1: "How would you classify the neighborhood where you live? Would you say you live in a downtown or town center ... a neighborhood close to your town center ... a neighborhood away from your town center ... or in a rural location away from other development?"

Appendix B: Open-Ended Responses

Q1 "How would you classify the neighborhood where you live? Would you say you live in a downtown or town center ... a neighborhood close to your town center ... a neighborhood away from your town center ... or in a rural location away from other development?" (Other Responses)

Town	Description
Nashua	Hard to say, I live on top of a hill, next to church

Q12 "Which of the following things should be actively encouraged in your community?" (Other Responses)

- Adolescent entertainment/recreation- specifically for more like 13/14-20 year olds
- All levels of government, state and local get out of charity business
- All of the above
- All of the above
- better housing subsidies to prevent bad neighborhoods
- Biking and walking need to be safer ... with traffic and potholes
- Boating access for the public
- continuation & strengthening of planning /zoning board in Nashua
- Don't charge local plumbers to operate
- He is worried about the side effects. He thinks the choices are great but there are many side effects. He is worried about the costs of all these things.
- Horseback riding
- I don't think the municipality should promote anything
- I'm for anything that's cultural and we have enough development
- Indoor recreation facilities for children
- less noise pollution
- lower taxes
- More communication from the local government.
- More discussion about priorities
- More horseback riding trails, and legalize gambling in NH
- Place even more emphasis on culture and historic
- Possibly adult education
- Promote ATV recreation
- Promoting Arts
- Prostitution and marijuana
- Restricting the development of humongous facilities that would create more town infrastructure and crime
- Safer environment for the kids, both in school and in regular life
- Sidewalks and street lamps
- the arts and music
- To do these w/o impinging on ind.'s right
- Transportation
- transportation for the elderly
- Use of solar energy
- yes to cultural events, no to sporting events

Q17 “We have discussed many issues facing New Hampshire communities. Which of the following do you think should be the TOP priority for investment of public dollars?” (Other Responses)

- 1. Maintain infrastructure (roads) 2. quality schools
- developing schools and economy
- Education
- Education
- Education
- education
- Education and more education for the second priority
- education and social services
- Education, a good education, moral standard for education
- efficiency of government - learn to spend efficiently
- historic prevention
- Making sure that education has the funding, (and not just money) and everything that the system needs
- More oversight on government spending.
- pedestrian travel, bikeways
- Preserving the lifestyle we've already established. we don't need more development
- Promoting community from economic to things going on in the town and things to do like events and music.
- public safety and education
- reduce taxes
- reducing taxes
- Safety

Net2 “Which of the following is the most important reason why you don’t have internet access at home?” (Other Responses)

- Don't have a computer, don't need it.
- I don't have a computer
- Not interested and too many ads on the internet

Net 3A “If you are on dialup or satellite, why?” (Other Responses)

- infrequent internet use, no need for hi speed

Net4 “Who is your current provider? “ (Other Responses)

- AOL (1)
- Charter (22)
- Comcast (255)
- Direct TV (1)
- Dish Network (1)
- Fairpoint (47)
- Fiberoptic (1)
- IDT (1)
- Juno (1)
- Link (1)
- PDF (1)
- TDS (8)
- Time Warner (1)
- Verizon (9)
- Webcable (1)
- Xfinity (6)
- Zero Point (1)

Net5 “Why are you using your current provider?” (Other Responses)

Provider	Reason
Charter	best price
Charter	Cheaper than others
Charter	it's faster than dial-up
Charter	speed
Charter	The speed and the economics of it
Charter	would like to get rid of them
Comcast	Work related
Comcast	Because it's popular. I don't even know. I'm happy with them but it's expensive.
Comcast	best deal
Comcast	best option at the moment
Comcast	Best option, but there aren't many choices
Comcast	best reception
Comcast	best speed to price
Comcast	Bundle package
Comcast	cost and convenience
Comcast	its all inclusive
Comcast	not good satellite coverage
Comcast	so I can get internet
Comcast	too lazy to change to something else
Comcast	Used them for 15 years
Comcast	we got locked into it a few years back
Comcast	We have been with Comcast for a long time
Comcast	What my parents pay for
Comcast	"We just switched from another provider that wasn't working, we're hoping this one works out well."
Comcast	All in one bill
Comcast	because thats what she has
Comcast	Because they hate fairpoint
Comcast	best choice at the moment
Comcast	Cause I want cable and a bundle service
Comcast	Comcast was our TV provider so we used them for computer too. More cost feasible.
Comcast	Fairpoint sucks
Comcast	faster than other options
Comcast	havent found better one
Comcast	husband worked for them
Comcast	I don't know other products.
Comcast	I have my comcast bundle package tv internet phone
Comcast	I like the bundled service and its convenience.
Comcast	It's bundled with the cable TV.

Comcast	It's combined
Comcast	Looking for cable
Comcast	most convenient & it's fast
Comcast	Only bundled service
Comcast	provides bundle
Comcast	Really good deal for phone and internet and cable
Comcast	The quickness and the price
Comcast	They had a good promotion, verizon and direct TV wasn't reliable
Comcast	they have the fastest speed & had them since < called Comcast
Comcast	We have a package deal with them
Comcast	We've always had it
Comcast	what my parents decide to use
Comcast	when started , no other choice
Comcast	Work pays for it
Direct TV	the most cost effective
Fairpoint	convenient
Fairpoint	Always Have
Fairpoint	bundle makes it cheap
Fairpoint	Cheapest
Fairpoint	Its affordable
Fairpoint	it's the phone line and internet, her parents chose it, and they used to have Verizon and it became Fairpoint
Fairpoint	price is cheap
fairpoint	she works for them
Fairpoint	THE phone company in NH
Fairpoint	they have the fiber
PDF	Local and Cheap
Verizon	better than fairpoint
Verizon	Cheapest and versatility
Verizon	I have a cell phone with them
Verizon	keeping up with current events
xfinity	Best and fastest internet.

Appendix C: Survey Instrument

Survey Instrument

INTRO:

“Good evening / afternoon. My name is _____ and I’m calling on behalf of New Hampshire’s Regional Planning Commissions from the University of New Hampshire Survey Center. This month, the University is conducting a confidential study of public opinion in New Hampshire, and we'd really appreciate your help and cooperation.”

SEAS

“Before we begin, do you live in New Hampshire all year round or are you on vacation?”

- 1 LIVE IN NH YEAR ROUND
- 2 SEASONAL, JUST VACATIONING → “Thank you very much, we are only interviewing year round residents.”
- 3 NOT A NH RESIDENT → “Thank you very much, we are only interviewing year round residents.”
- * 99 REFUSED → TERMINATE

TOWN

“In what town or city do you live?” ENTER NUMBER OF TOWN FROM SHEET.

- 997 OTHER – TYPE IN _____
- 998 DK - DO NOT PROBE
- * 999 NA / REFUSED

CELL1

“First, to confirm, have I reached you on your cell phone or a land line?”

- 1 CELL PHONE → SKIPTO CELL2
- 2 LAND LINE → SKIPTO BIR1
- 99 REFUSED → TERMINATE

CELL2

“Are you currently driving a car or doing any activity that requires your full attention?”

- 1 IF YES: “Can I call back at a later time?” MAKE APPOINTMENT
- 2 NO → SKIPTO AGE18
- 99 NA / REFUSED → TERMINATE

AGE18

"And are you 18 years old or older?"

- 1 YES → SKIP TO SEX
- 2 NO → "Thank you very much, we are only interviewing adults 18 years old or older."
- * 99 REFUSAL → "Thank you very much, we are only interviewing adults 18 years old or older."

BIR1

"In order to determine who to interview, could you tell me, of the adults aged 18 or older who currently live in your household -- including yourself -- who had the most recent birthday? I don't mean who is the youngest, but rather, who had the most recent birthday?"

- 1 INFORMANT → SKIP TO SEX
- 2 SOMEONE ELSE (SPECIFY): _____ → SKIP TO INT2
- 3 DON'T KNOW ALL BIRTHDAYS, ONLY SOME → CONTINUE WITH BIR2 BELOW
- 4 DON'T KNOW ANY BIRTHDAYS OTHER THAN OWN → SKIP TO SEX
- * 99 REFUSED -- ENTER NON-RESPONSE INFORMATION

BIR2

"Of the ones that you do know, who had the most recent birthday?"

- 1 INFORMANT _____ → SKIP TO SEX
- 2 SOMEONE ELSE (SPECIFY): _____ → GO TO INT2
- 3 PERSON NOT AVAILABLE → MAKE APPOINTMENT
- * 99 REFUSED

INT2

ASK TO SPEAK TO THAT PERSON

"Hello, this is _____ calling on behalf of New Hampshire's Regional Planning Commissions from the University of New Hampshire. This month the University is conducting a confidential study of public opinion in New Hampshire, and we'd really appreciate your help and cooperation. You have been identified as the adult in your household who had the most recent birthday. Is this correct?"

- 1 YES → SKIPTO SEX
- 2 APPOINTMENT
- * 99 REFUSAL → TERMINATE

SEX

"Thank you very much for helping us with this important study. Before we begin I want to assure you that all of your answers are strictly confidential. They will be combined with answers from other people from across the state. Your telephone number was randomly selected from all families in New Hampshire. This call may be monitored for quality assurance."

"Participation is voluntary. If you decide to participate, you may decline to answer any question or end the interview at any time."

IF ASKED: "This survey will take about 20 minutes to complete."

RECORD SEX OF RESPONDENT

- 1 MALE
- 2 FEMALE

* 99 NA

Q:Q1

"How would you classify the neighborhood where you live? Would you say you live in a downtown or town center ... a neighborhood close to your town center ... a neighborhood away from your town center ... or in a rural location away from other development?"

- 1 DOWNTOWN OR TOWN CENTER
- 2 NEIGHBORHOOD CLOSE TO TOWN CENTER
- 3 DEVELOPMENT AWAY FROM TOWN CENTER
- 4 RURAL LOCATION AWAY FROM OTHER DEVELOPMENT
- 5 OTHER -- SPECIFY

- 98 DON'T KNOW/NOT SURE
- 99 NA/REFUSED

Q:Q2

"I am going to read you a list of aspects of the transportation system in your community. Based on what you see now in your community, do you think policy makers should invest more money on each the following aspects of the transportation system in the next 5 years.

ROTATE Q2A – Q2H

Q:Q2A

"Reducing congestion levels on major roads at rush hour ..."

IF YES – "Are you willing to pay increased fees or taxes?"

- 1 YES, WILLING TO PAY MORE
- 2 YES, NOT WILLING
- 3 NO

98 DON'T KNOW
99 NA/REFUSED
