Executive Summary

During May-July 2013, the University of New Hampshire Survey Center conducted a survey for New Hampshire's nine Regional Planning Commissions, as part of the *Granite State Future* and *New Hampshire Broadband Mapping and Planning* initiatives. Funded in part by a grant from the US Department of Housing and Urban Development, *Granite State Future* is intended to engage New Hampshire citizens in a public dialogue, at the local, regional and state levels, about what they want for the future of their communities and state. Results from the survey will inform updates to the Regional Master Plans in each of NH's nine planning regions. These regional plans, whose development has been required under State law (RSA 36:47) for over 40 years, are advisory documents designed to provide municipalities with data and strategies to support local decision-making as well as enhance regional cooperation.

With support from the National Telecommunications Information Administration of the US Department of Commerce and in conjunction with the University of New Hampshire and other partners, the New Hampshire Broadband Mapping and Planning Program (NHBMP) is a comprehensive, multi-year effort that seeks to understand where broadband is currently available in NH, how it can be made more widely available in the future, and how to encourage increased levels of broadband adoption and usage. Results from the survey will inform the broadband plans developed in each of NH's nine planning regions.

The specific areas of interest are New Hampshire resident's opinions on a range of issues facing communities around the State – transportation and broadband infrastructure, housing, economic development, natural resource management, energy and natural hazard mitigation. A survey of two thousand nine hundred and thirty-five (2,935) New Hampshire adults was conducted by telephone between May 9 and July 21, 2013. The response rate was 33% and the margin of sampling error for the survey is +/- 2.2%. (See Technical Report for a more detailed description of survey methods.) The following figures display survey results, detailed tabular results can be found in Appendix A, Appendix B contains the open-ended responses and Appendix C contains the survey instrument.

The intent of this report is to provide NH's regional planning commissions and other interested parties with a broad overview of the data collected. This report should serve as a concrete focus for engaging with these data and using them to design and implement strategies for regional planning. However, every summary statement made in this report will generate numerous questions from the reader about how this data element or piece of information applies to other specific strata of the population or planning domain. Many of these questions can readily be answered by the extensive cross tabulations that are provided for each survey question in Appendix A of this report. Some of the questions that will be generated by this report will require more extensive and sophisticated analyses of these data. Knowing this, it is our hope that New Hampshire Planning leaders will share these data with other academics and community organizations that will actively use these data to help New Hampshire discover more about their local population and about how better to target planning initiatives to meet the needs of those in specific communities.

Each section begins with a summary narrative that is written in the form of short, bulleted sentences that describe selected indicators on the data tables and charts. These narratives are not intended to explain or summarize every indicator in the accompanying data tables. This section was not meant to provide the reader with any conclusions.

It was intended to spark interest in the data and invite you to ask questions of this information and use the data cross tabs accompanying this report to understand better the planning concepts you are concerned about.

The charts and tables that follow display major findings of the survey. They are not intended to exhaustively present all the data in the survey. If no demographic differences were listed then responses were consistent across demographic categories. Not all findings are noted in this report; these are the highlights of the results. Additional results can be found in the detailed tables located in Appendix A.

Key Findings

- Responses from residents of the Rockingham region were largely similar to those of statewide residents. The big difference involved what type of neighborhood residents live in (more Rockingham residents live in a neighborhood close to the town center and less live in a rural location away from the town).
- Residents believe that environmental protection and natural resource protection should be the top priority for investing public dollars, and a majority believes that all environmental protection measures mentioned should be high priorities for policymakers.
- Residents view energy efficiency and energy choices as the second most important priority for investing public dollars. Residents are largely in favor of all the proposed energy efficiency and renewable energy projects, except for the idea of having public charging stations made for electric vehicles.
- Residents view safe and affordable housing as another important priority for investing public dollars. The development of single family housing and assisted living facilities were particularly favorable to residents while development of manufactured housing and apartments were the least favorable.
- Residents say that the top activity that their community should actively encourage is promoting local agriculture (91%). Majorities want to encourage many other activities as well, including protecting historic buildings and neighborhoods (90%), and promoting safe places to walk or bike (87%).
- Residents view quality schools as the most important thing to have in their community (94%). Other important aspects of a community include having small businesses and retail stores (83%), grocery stores (82%) nearby job opportunities (82%), and cultural and recreation facilities (82%).
- Residents view maintaining our bridges and highways to be the most important priority for transportation funding (70%). Residents were split on funding for other transportation initiatives, with a narrow majority favoring funding for the availability of bike paths (58%), and for senior and special needs transportation (54%).
- The vast majority of residents (94%) have internet access at home, and almost all of them (94%) consider their internet access adequate for their uses. Almost as many (87%) would not be willing to pay any additional money in exchange for faster internet speeds.

Demographics

Sex	Rock	State
Male	49%	49%
Female	51%	51%
Age of Respondent		
18 to 29	15%	19%
30 to 39	9%	15%
40 to 49	27%	20%

Work At Home	14%	12%

Housing

A plurality of residents (47%) describe where they live as a neighborhood close to a town center, followed by those in a development away from a town center (28%), rural location away from a town center (18%), and those downtown or a town center (6%).

- Rockingham residents are *more likely* to live in a neighborhood close to the town center than statewide residents. They are also *less likely* to live in a rural location away from the town center.
- Those aged 30 to 39 are *more likely* to live in a neighborhood close to the town center.
- Households earning less than \$60,000 are *more likely* to live in a rural location away from the town center.

Figure 1: How would you classify the neighborhood where you live? (q1)

When asked whether they would prefer to live in a small house but have a short commute to work or a large home with a longer commute, a majority (59%) said they would prefer the small home and short commute, 39% would prefer the large home and long commute and 2% did not know (**Figure 2**).

Meanwhile, a slight majority of residents (52%) would prefer to live in a strictly residential neighborhood while 47% would prefer a mixed residential/commercial neighborhood and 1% did not know (**Figure 3**).

- Younger people (18 to 39) are *more likely* to want a larger home with a longer commute.

Figure 2: Large Home with Long Commute or Small Home with Short Commute? (q7a)

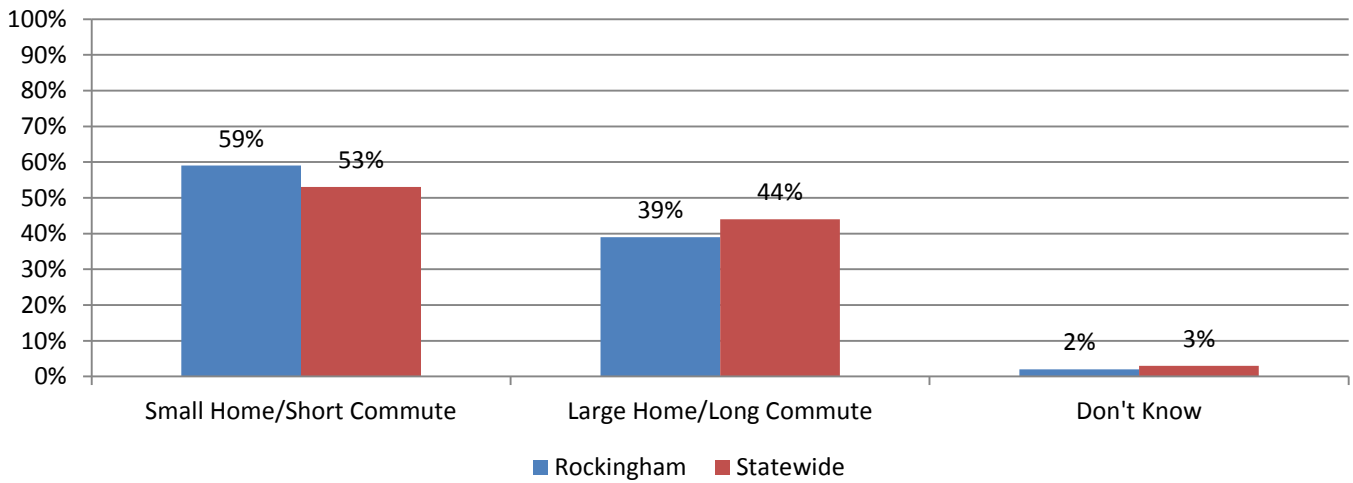

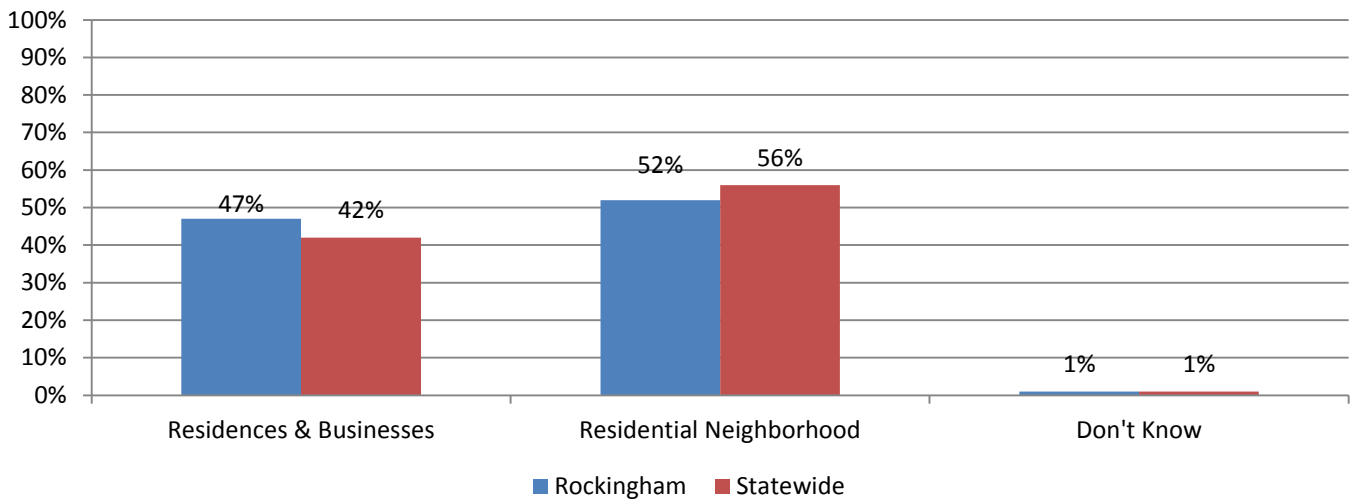

Figure 3: Mixed Neighborhood with Stores or Residential Only Neighborhood? (q7b)

The large majority (78%) who answered that they would like to live in a neighborhood with a mix of residences and businesses would prefer a smaller house with a short commute. A slight majority (56%) of those who chose a residential neighborhood where you have to drive to services also prefer a larger house with a longer commute.

Table 1: Living Preference – Home Size and Commute vs. Type of Neighborhood

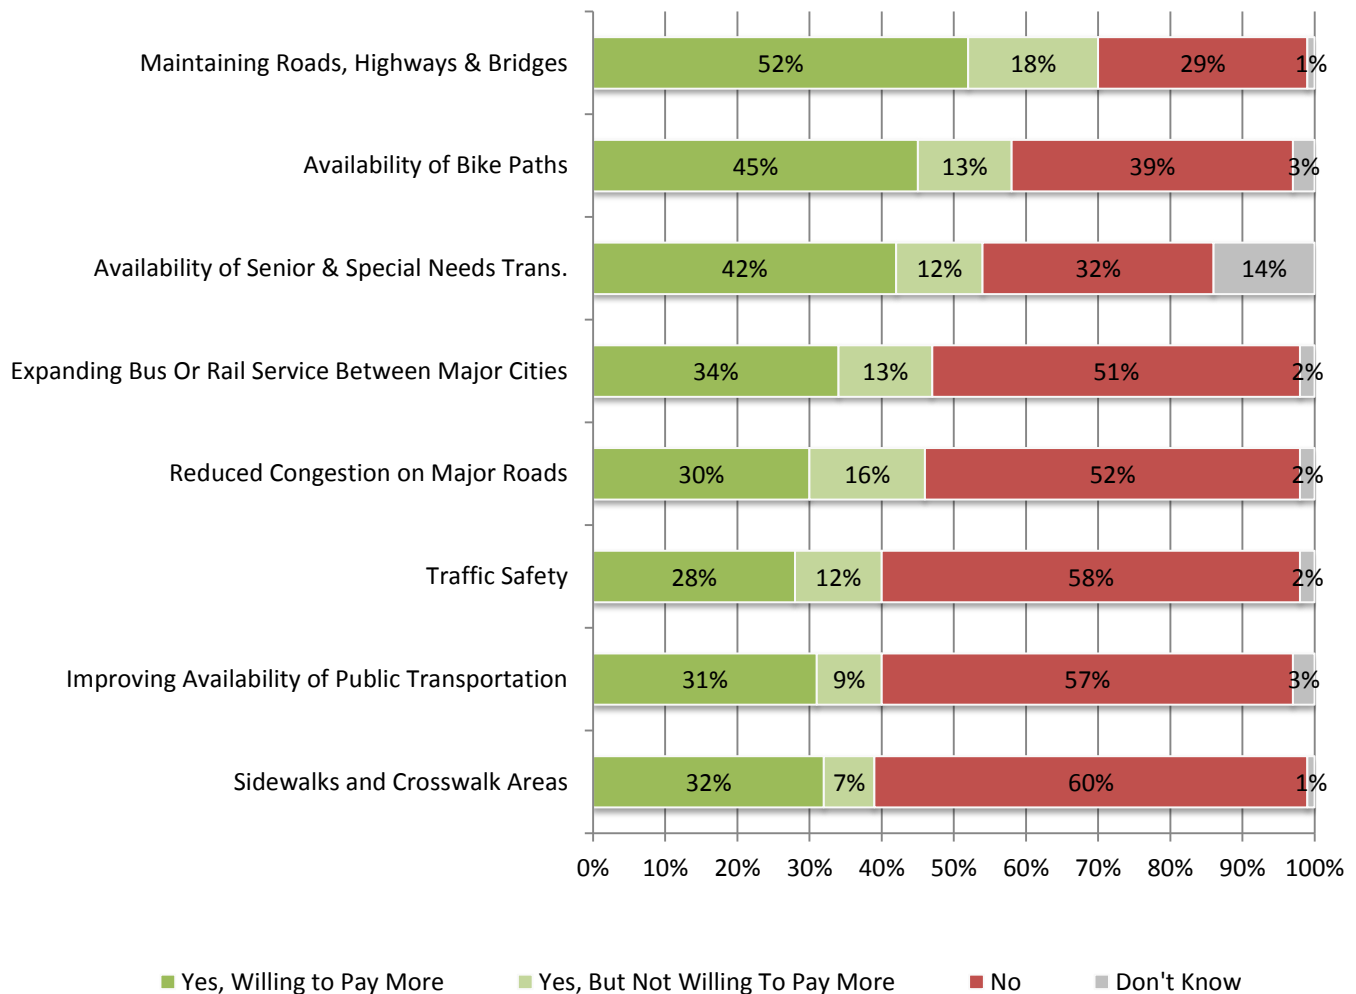

Q7A Would you choose to live in a small home with a small backyard, if it means you have a short trip to work, school or shopping, or would you choose to live in a large home with a large backyard, with a long trip to work school or shopping.	Q7B Would you choose to live in a neighborhood with a mix of residences and businesses where you can walk to stores, schools, and services, OR would you choose to live in a residential-only neighborhood where you needed to drive a car to get to stores, schools and services?		
	Mix of residences and businesses - walk	Residential neighborhood - drive	Total
Small home, small yard	78% (142)	44%(88)	60% (230)
Large home, large yard	22% (41)	56% (113)	40% (154)
Total	48% (183)	52% (201)	100%

Transportation

Seven in ten (70%) think that policy makers should invest more money in maintaining roads, highways and bridges (with 52% willing to pay more in taxes to do so), followed by improving availability of bike paths (58%), improving availability of senior and special needs transportation (54%), expanding bus or rail service between major cities (47%), reducing congestion on major roads (46%), traffic safety (40%), improving the availability of public transportation (40%), and sidewalks and crosswalk areas (39%).

- Those aged 60 to 69 are *more likely* to want investment in maintaining roads, highways and bridges. Those aged 40 to 49 are *less likely* to want investment here.
- Young people (18 to 29) are *more likely* to want investment in the availability of bike paths.

Figure 4: Should Policy Makers Invest More Money in Transportation (q2)

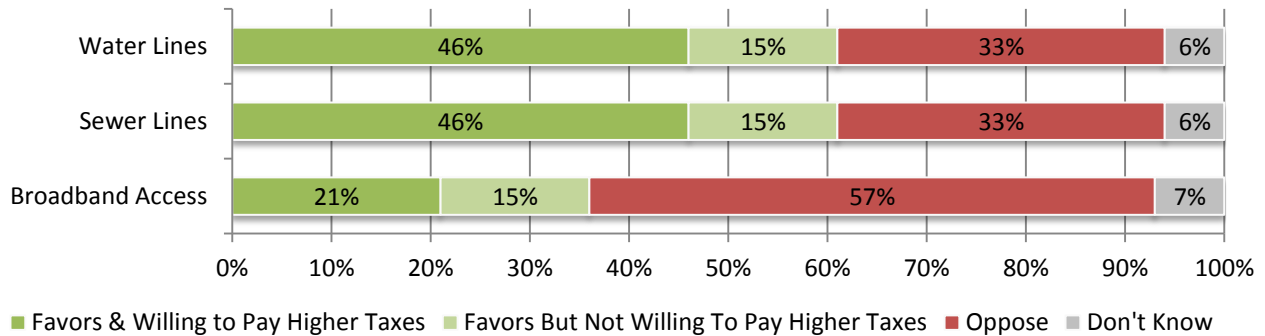

Community Development

A majority of residents (61%) favor using municipal funds to provide water lines and sewer to existing and potential development (although just 46% would be willing to pay more in taxes for them). Only 41% favored funds being used for broadband access.

- Young people (18 to 29) are *more likely* to favor municipal funds for water lines.

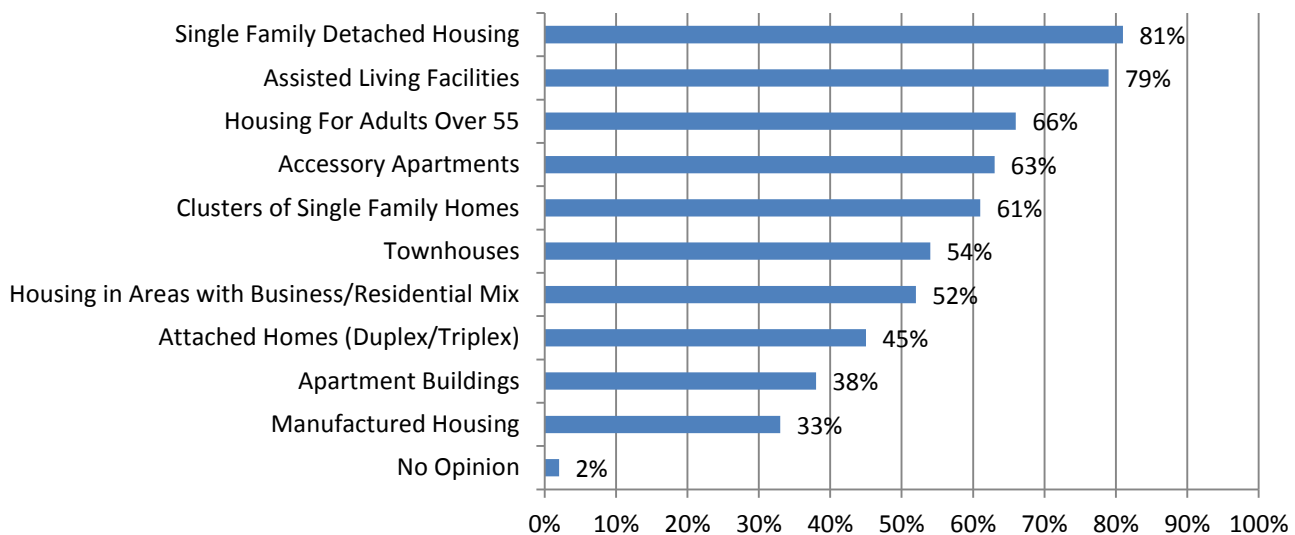

Figure 5: Favor or Oppose Using Municipal Funds to Provide Utilities for Development (q11)

More than four in five (81%) residents think that their town should encourage single family detached housing, followed by assisted living facilities (79%), housing for adults over 55 (66%), accessory apartments (63%), clusters of single family homes (61%), townhouses (54%), housing in areas with business/residential mix (52%), attached homes (45%), apartment buildings (38%), and manufactured housing (33%).

- Those aged 60 to 69 are *less likely* to want their town to encourage single family detached housing.
- Younger people (18 to 39), households earning between \$20,000 and \$39,999 and those with a high school education or less are more likely to encourage apartment buildings.
- Young people (18 to 29) and households earning between \$90,000 and \$160,000 are *more likely* to want their town to encourage townhouses.

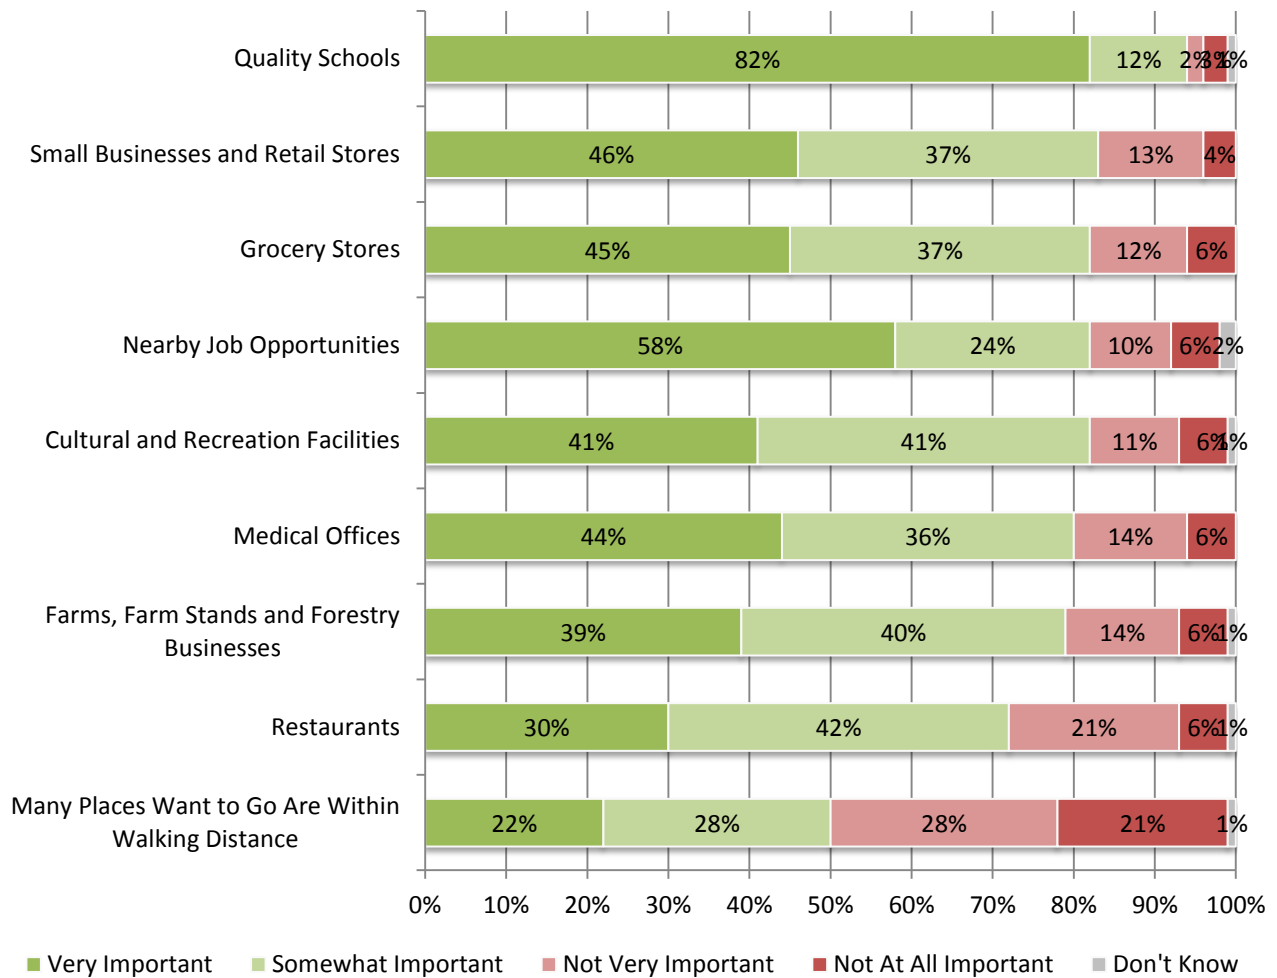

Figure 6: What kinds of housing should your town encourage? Check all that apply (q6)

Nearly all (94%) residents find it important (82% “very important” and 12% “somewhat important”) that there are quality schools in their community, followed by small businesses and retail stores (83%), grocery stores (82%), having nearby job opportunities (82%), cultural recreation facilities (82%), medical offices (80%), farms, farm stands and forestry (79%), restaurants (72%) and that many places they want to go are within walking distance (50%).

- Young people (18 to 29) and NH residents of 5 years or less are *more likely* to think restaurants are very important.
- Those aged 30 to 39 and NH residents of 5 years or less are *more likely* to think cultural and recreation facilities are very important.

Figure 7: How Important Is It To Have In Your Community? (q3)

Only 6% of respondents find housing to be very affordable in their town, 46% find it somewhat affordable, 33% find it not very affordable, 10% find it not affordable at all and 6% don't know. When it comes to renting, only 5% find it very affordable, 35% find it somewhat affordable, 21% find it not very affordable, 8% find it not affordable at all and 30% don't know.

- Younger people (18 to 39) and NH residents of 6 to 10 years are *more likely* to think purchasing property is somewhat affordable.
- Young people (18 to 29) and NH residents of 5 years or less are *more likely* to think renting is somewhat affordable.

Figure 8: How Affordable is Housing in Your Town? (q4 & q5)

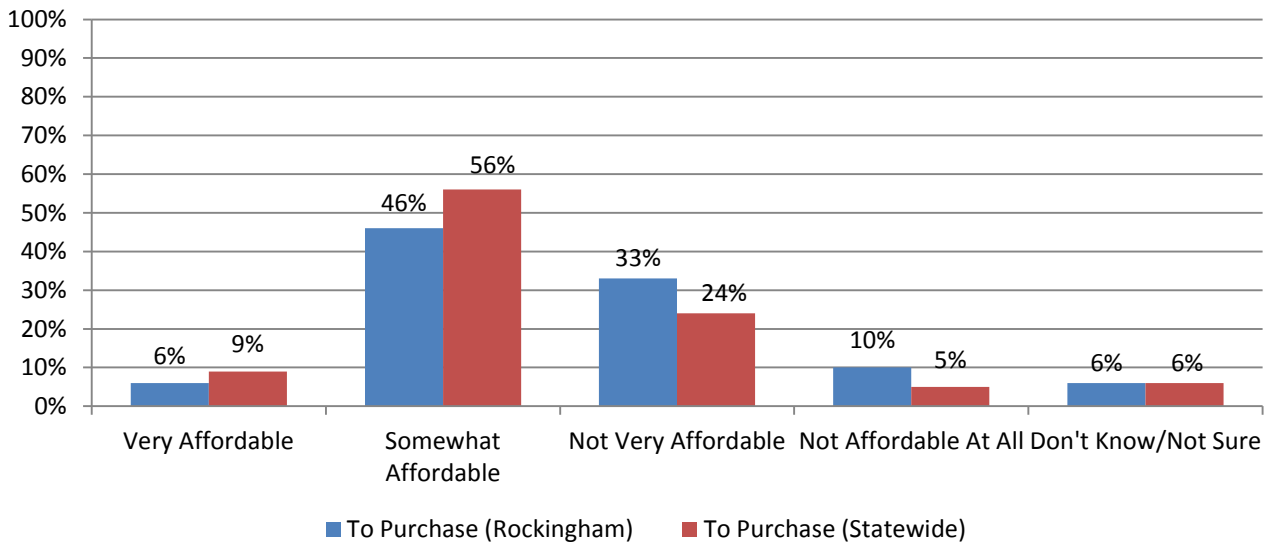

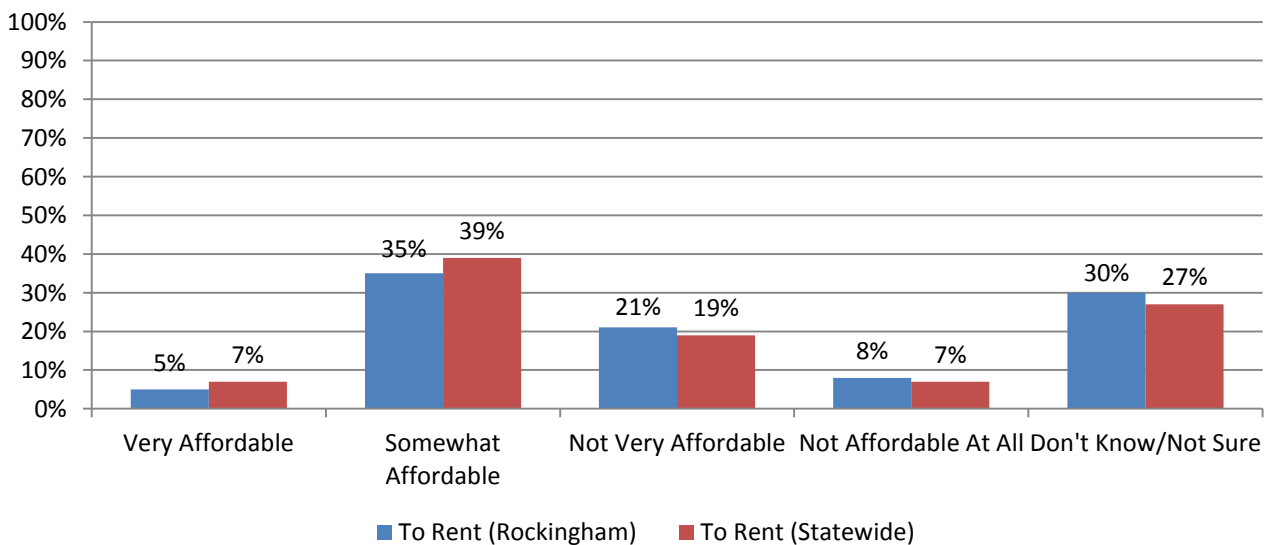

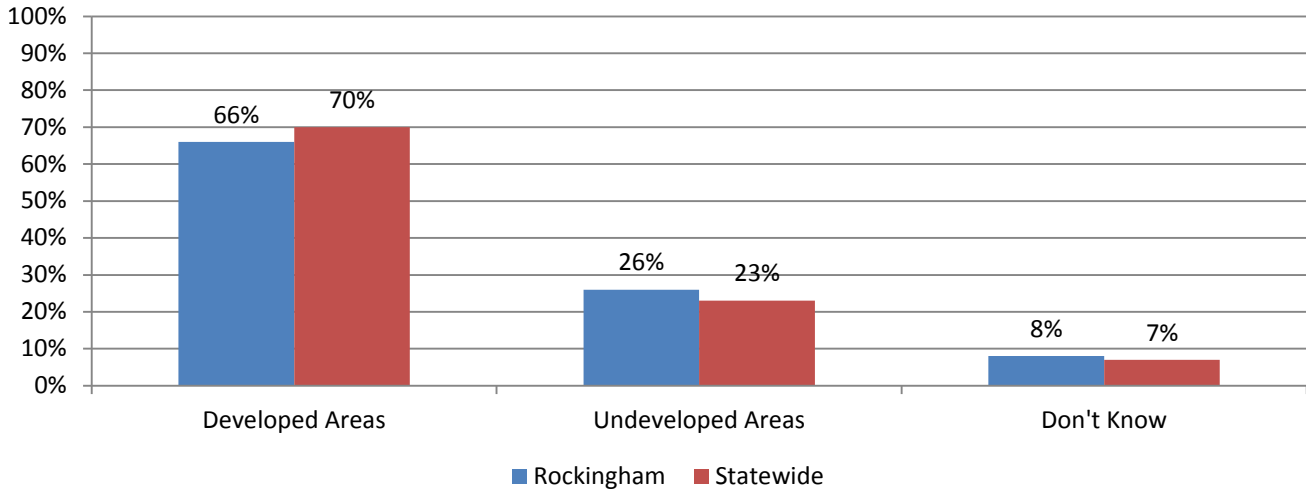

Figure 8b: How Affordable is Housing in Your Town? (q4 & q5)

Two out of three (66%) residents think that future development should occur in areas that are already developed while only 26% support development in undeveloped areas and 8% did not know.

- Households with two or more children and NH residents of 6 to 10 years are *more likely* to support growth in developed areas.

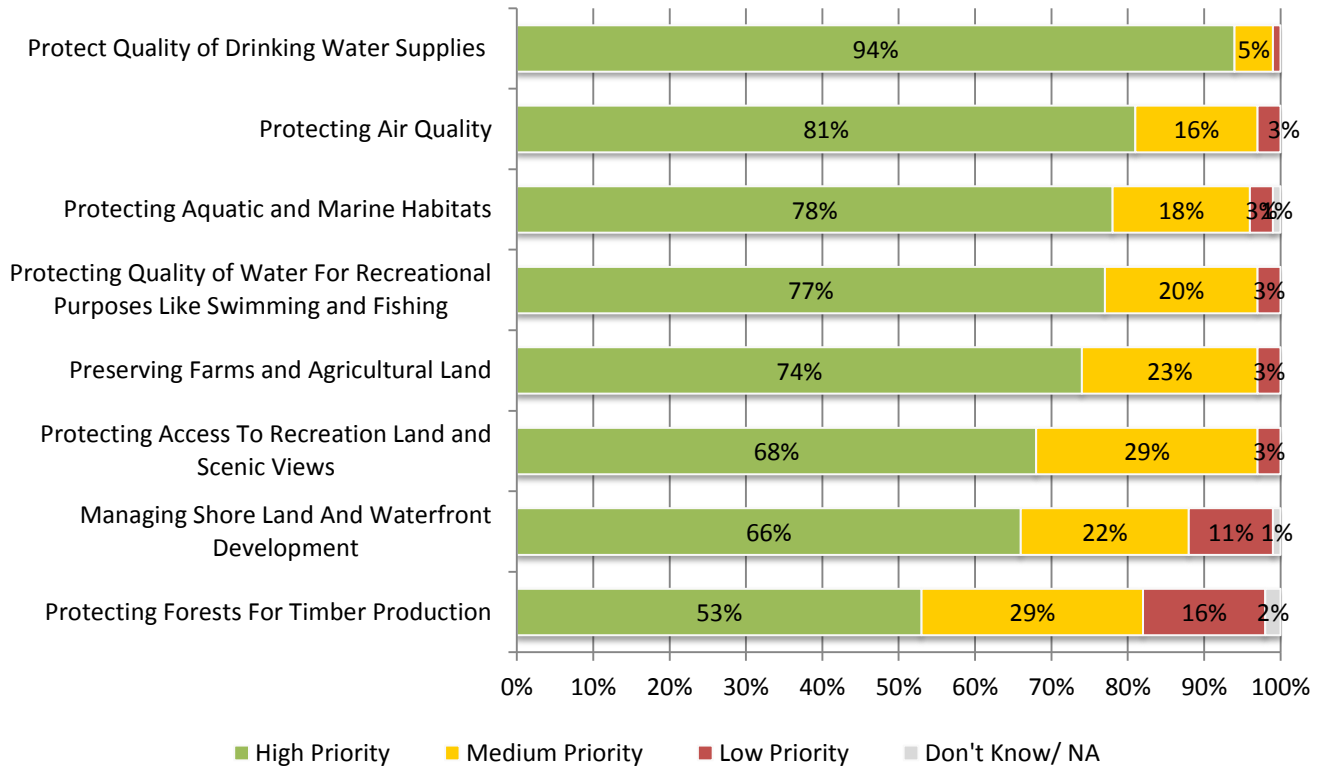

Figure 9: Where should future development occur in your part of the state? (q8)

Environmental Protection

Nearly all residents (94%) view protecting water quality for drinking as a high priority for their community, followed by protecting air quality (81%), protecting aquatic and marine habitats (78%), protecting water quality for recreational purposes like swimming and fishing (77%), preserving farms and agricultural land (74%), protecting access to recreation land and scenic views (68%), managing shore land and waterfront development (66%), and protecting forests for timber production (53%).

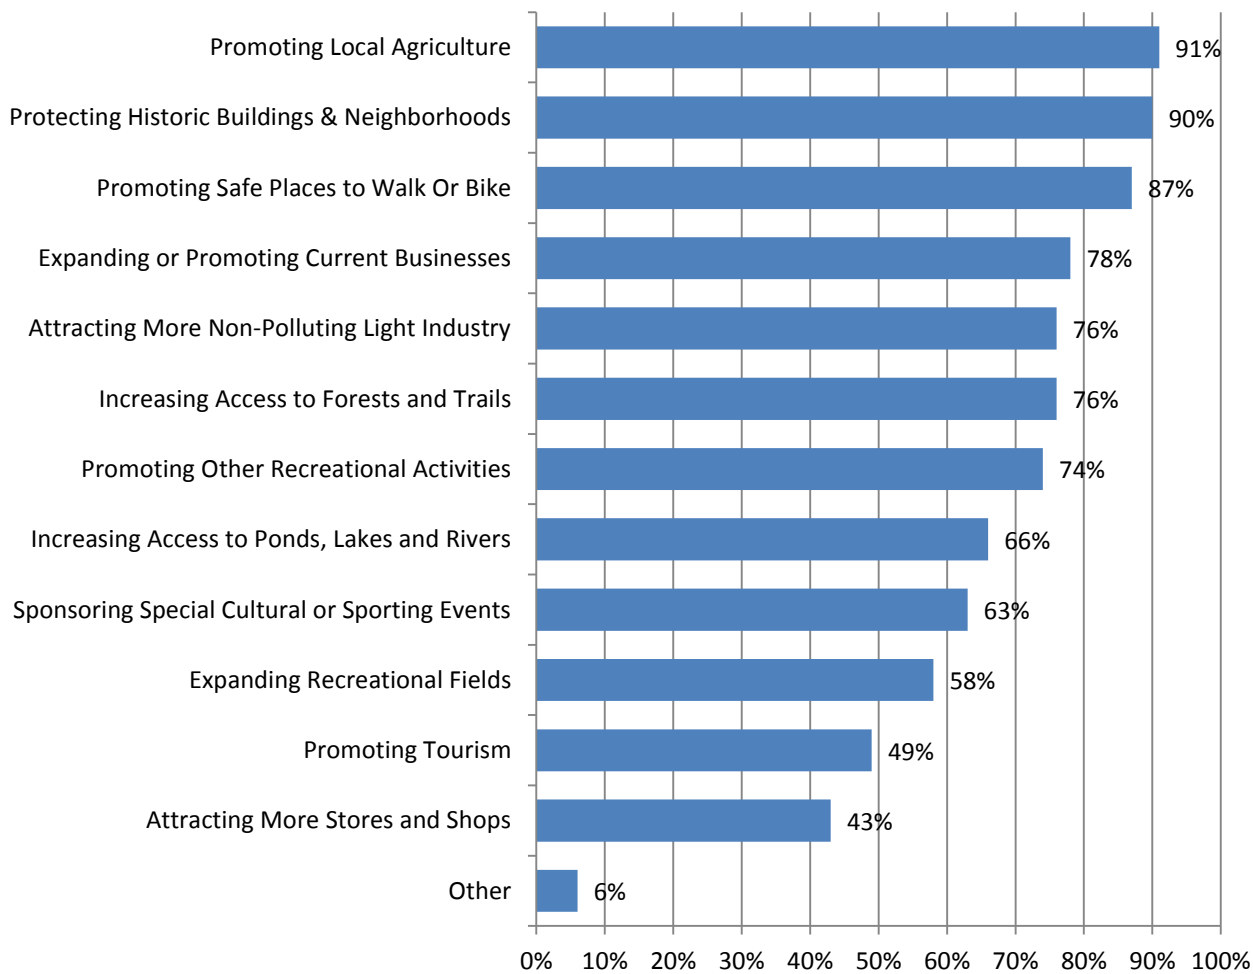

Figure 10: Priority Placed on These Community Issues (q9)

A large majority of residents (91%) say that promoting local agriculture should be actively encouraged in the community, followed by protecting historic buildings & neighborhoods (90%), promoting safe places to walk or bike (87%), expanding or promoting current businesses (78%), attracting more non-polluting light industry (76%), increasing access to forests and trails (76%), promoting other recreational activities (74%), increasing access to ponds, lakes and rivers (66%), sponsoring special cultural or sporting events (63%), expanding recreational fields (58%), promoting tourism (49%), and attracting more stores and shops (43%).

- Young people (18 to 29) are *more likely* to say their community should actively encourage attracting more stores and shops, attracting more non-polluting light industry, promoting other recreational activities, increasing access to ponds, lakes and rivers, increasing access to forests and trails and promoting safe places to walk or bike.
- Older people (70 or older) are *less likely* to say their community should actively encourage attracting more stores and shops, attracting more non-polluting light industry, expanding or promoting current businesses, promoting local agriculture, sponsoring special cultural or sporting events, promoting other recreational activities, increasing access to ponds, lakes and rivers, and expanding recreational fields,

Figure 11: What should be actively encouraged in your community? Check all that apply (q12)

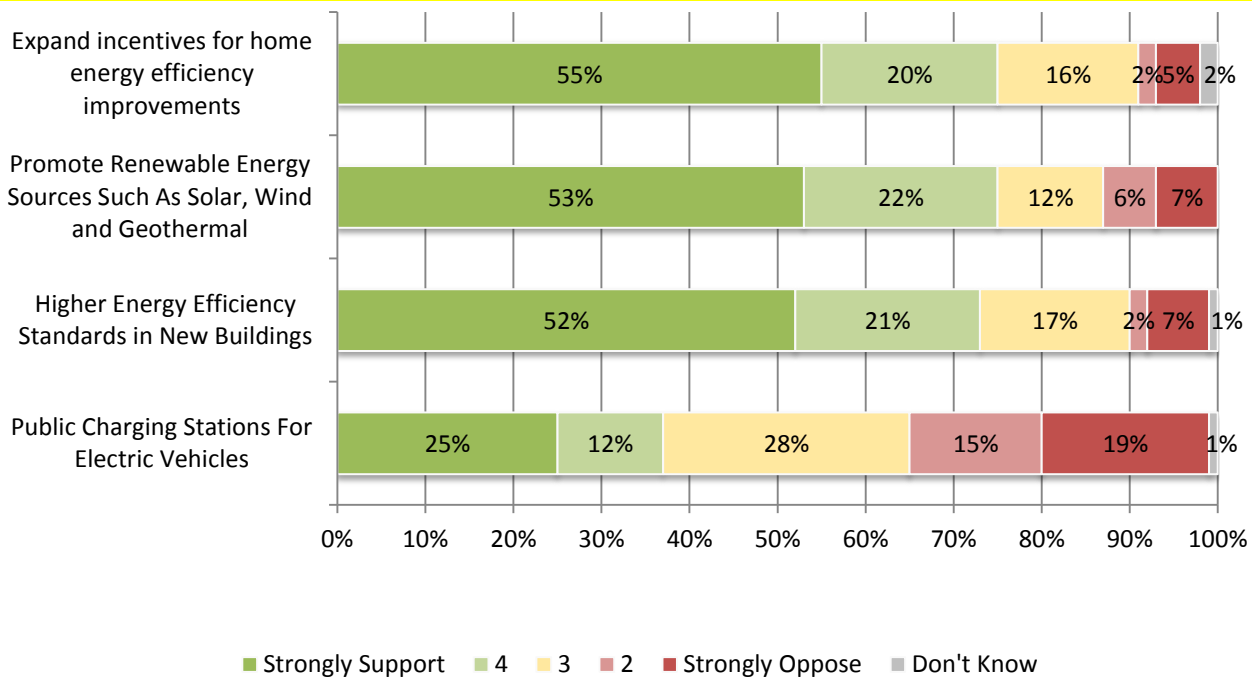

Energy Policies

Three in four residents (75%) support expanding incentives for home energy efficiency improvements (with 55% who “strongly support”), followed by higher energy efficiency standards in new buildings (75%), and promoting renewable energy sources such as solar, wind and geothermal (73%). Meanwhile only 37% were in support of public charging stations for electric vehicles.

- Households earning between \$40,000 and \$90,000 and those who work at home are *more likely* to strongly support incentives for home energy efficient improvements.
- Households earning less than \$60,000 are *more likely* to strongly support promoting renewable energy sources.

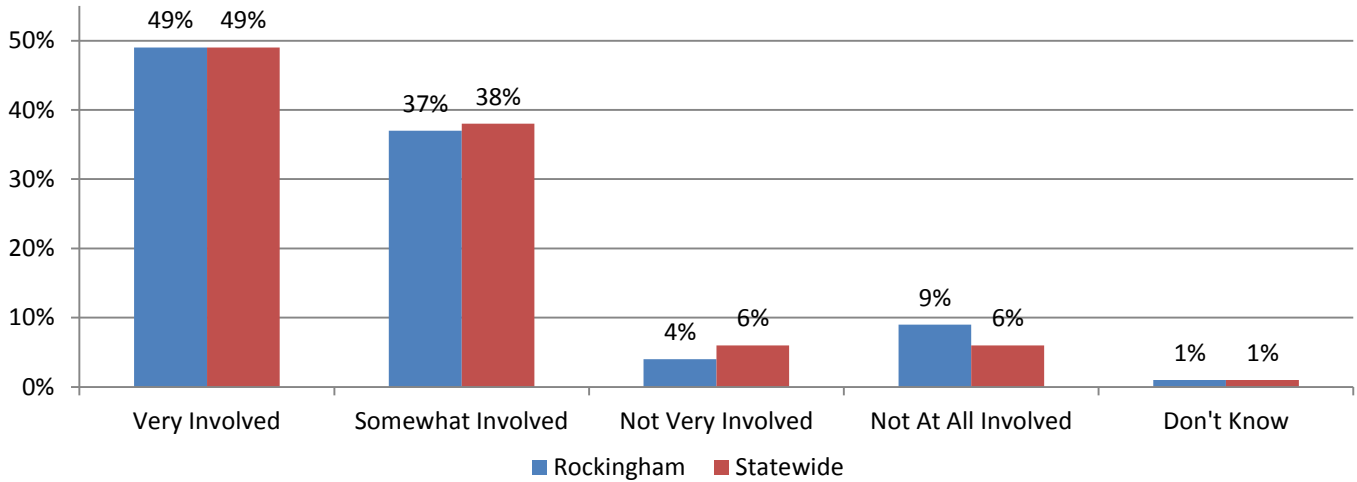

Figure 12: Support/Oppose Energy Policy Changes (q13)

Almost half of residents (49%) think that local governments should be very involved in guidelines for renewable energy (such as large wind farms), 37% think they should be somewhat involved, 4% think they shouldn't be very involved, 9% think they should be not at all involved and 1% don't know.

- Residents of NH for 5 years or less, the self-employed and those not employed are *more likely* to think that local communities should be very involved in guidelines for energy standards.

Figure 13: How Involved Should Local Governments Be In Guidelines For Renewable Energy? (q16)

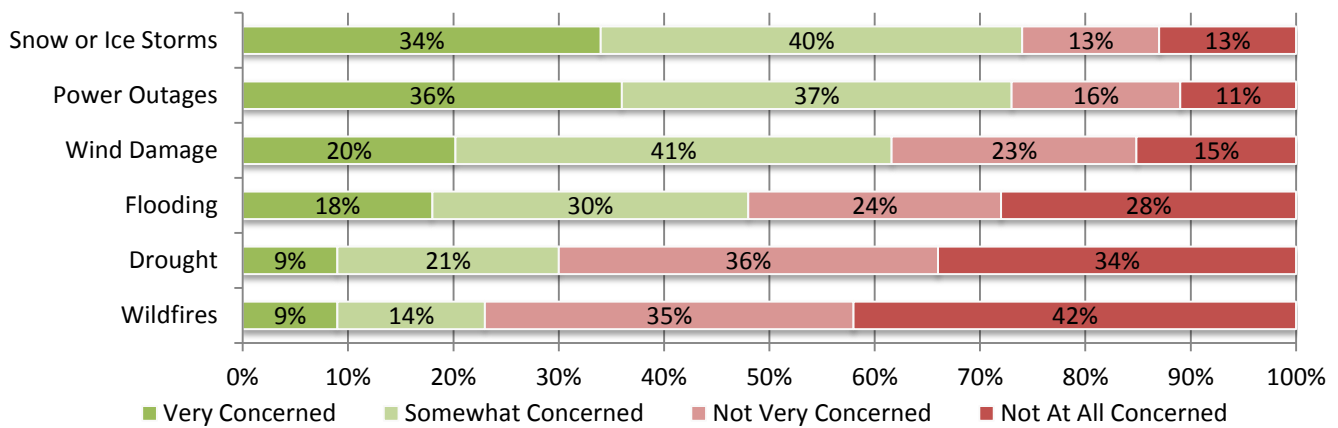

Emergency Preparedness

Nearly three-quarters of residents (74%) are concerned (34% “very concerned” and 40% “somewhat concerned”) with snow or ice storms in their community followed by power outages (73%), wind damage (61%), flooding (48%), drought (30%), and wildfires (23%).

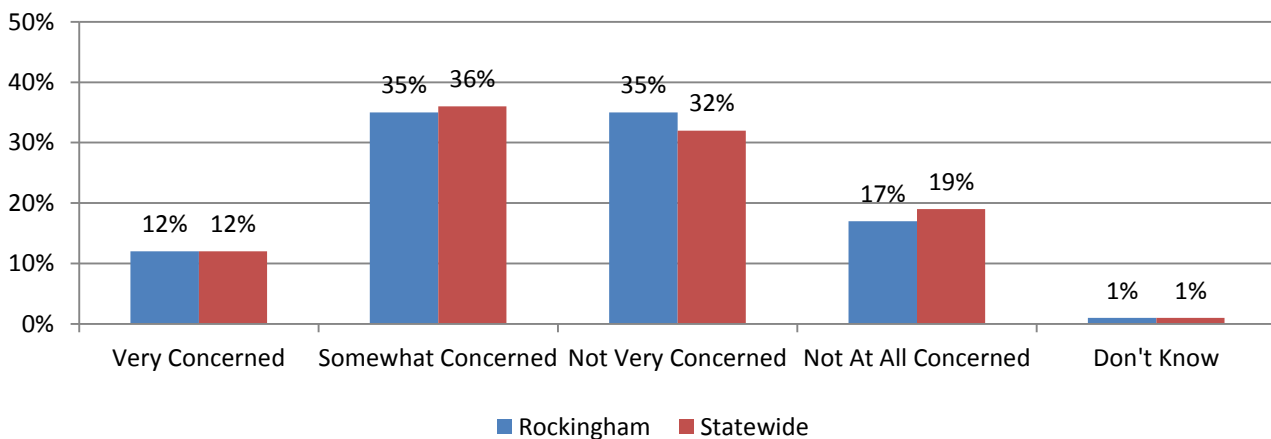

- Households earning less than \$40,000 and older people (50 to 59, 70 and older) are *more likely* to be very concerned about drought.
- Older people (70 and older) and households earning less than \$40,000 are *more likely* to be very concerned about wildfires.
- Young people (18 to 29), households earning less than \$20,000 and more than \$160,000 are *more likely* to be very concerned about power outages.

Figure 14: How Concerned Are You About Weather Related Events In Your Community? (q14)

Only 12% of residents are very concerned about their community’s level of preparedness in weather-related situations, while 35% are somewhat concerned, 35% are not very concerned, 17% are not at all concerned and 1% said they don’t know.

Figure 15: Concerned about Your Community's Level of Preparedness? (q15)

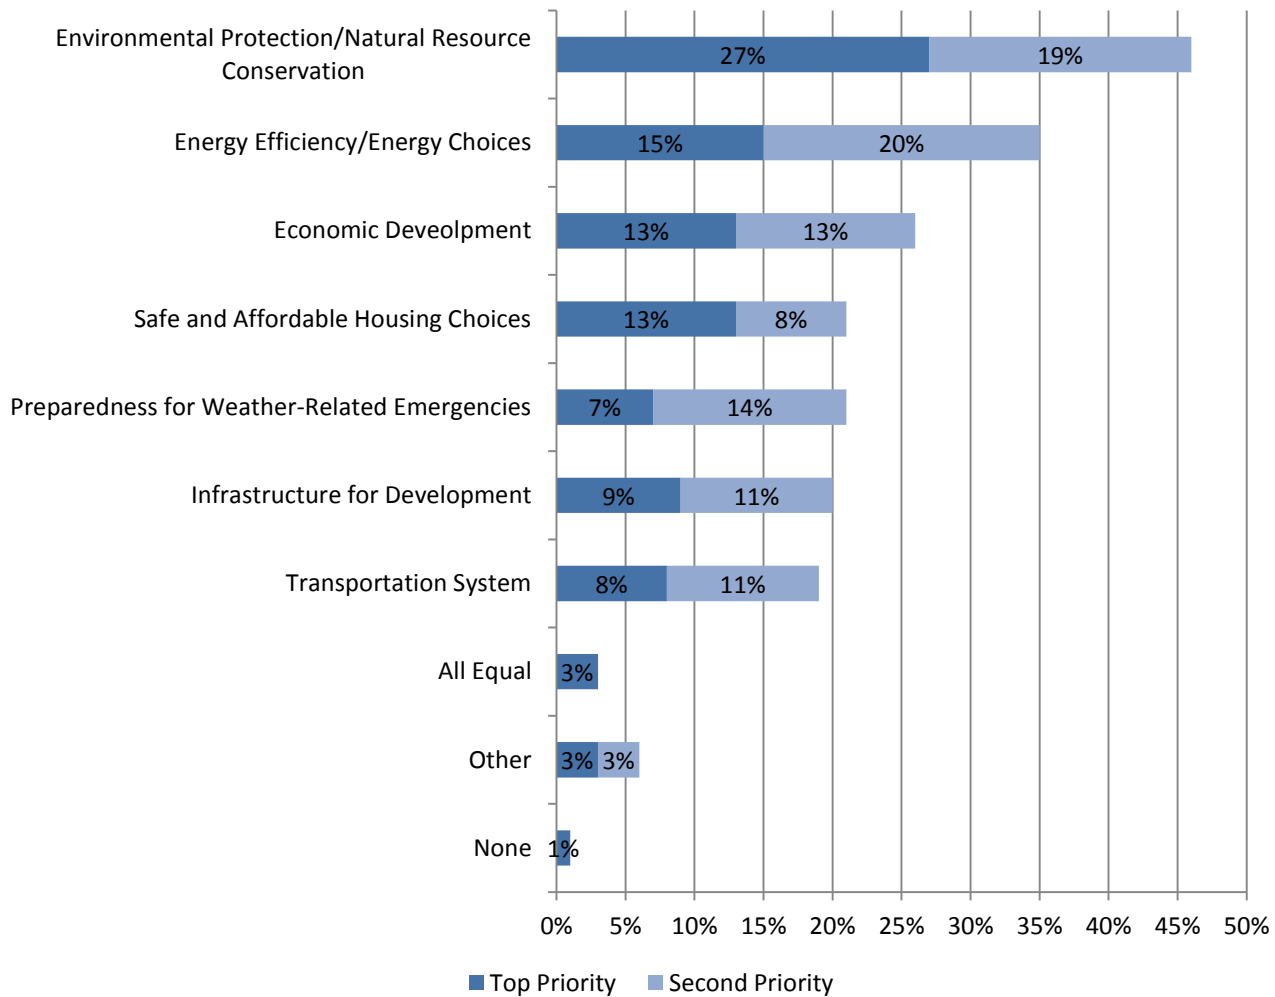

Priorities for Investing Public Dollars

Residents' top priority for investing public dollars is environmental protection (27%), followed by energy efficiency (15%), safe and affordable housing (13%), economic development (13%), infrastructure for development (9%), transportation system (8%), preparedness for weather-related or other emergencies (7%), all priorities are equal (3%), something else (3%) and none of the above (1%).

When the top two responses are combined environmental protection (46%) and energy efficiency (35%) are the two most cited priorities.

Figure 16: Priorities for Investing Public Dollars (q17)

Broadband

Nearly all (94%) residents have internet access in their home, while just 6% do not (**Figure 11**). For those who do not have internet access at home, 21% say that they don't have it because they don't need it, followed by they don't know how to use it (21%), it is too expensive (15%), they don't have an adequate computer (9%), and they have access at another place like their job (5%), There were also 28% who cited another reason (**Figure 12**).

- Those with a tech school or some college education, households earning between \$20,000 and \$59,999 and those who are not employed and not looking are *less likely* to have internet access at home.

Figure 17: Do You Have Internet Access At Home?

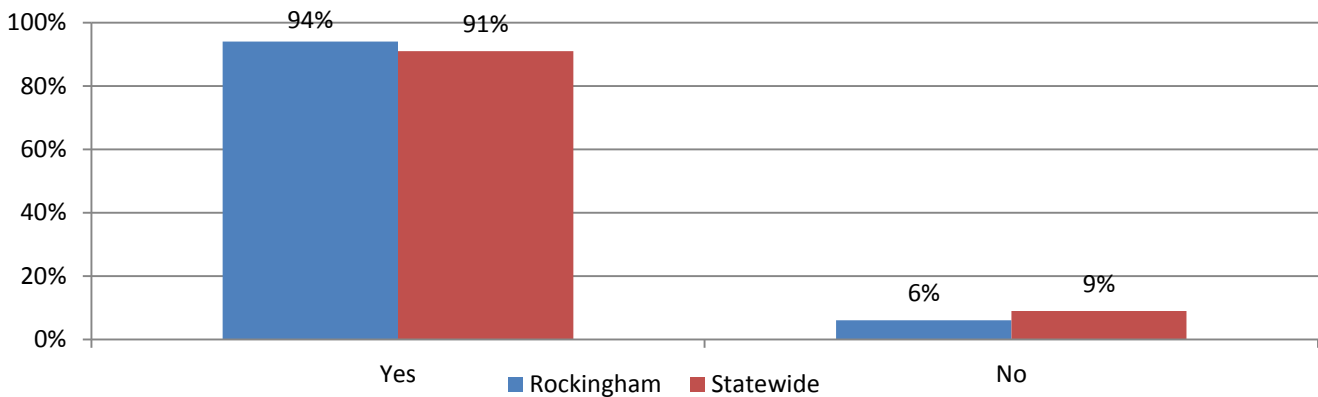

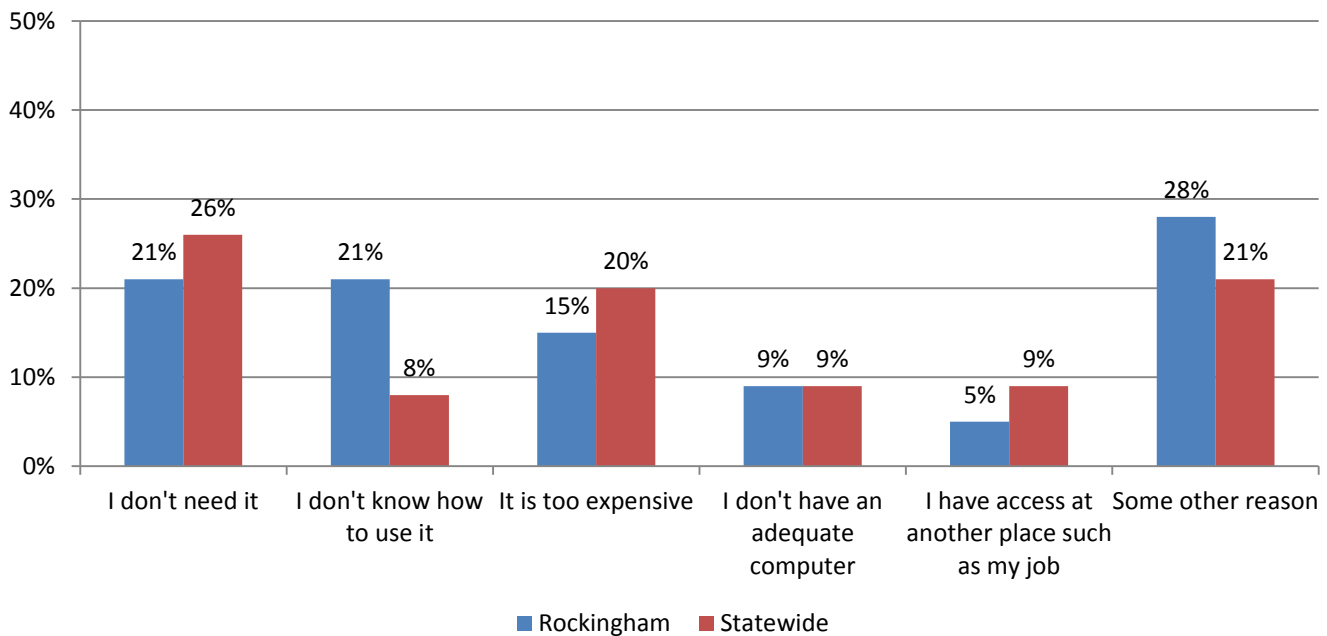

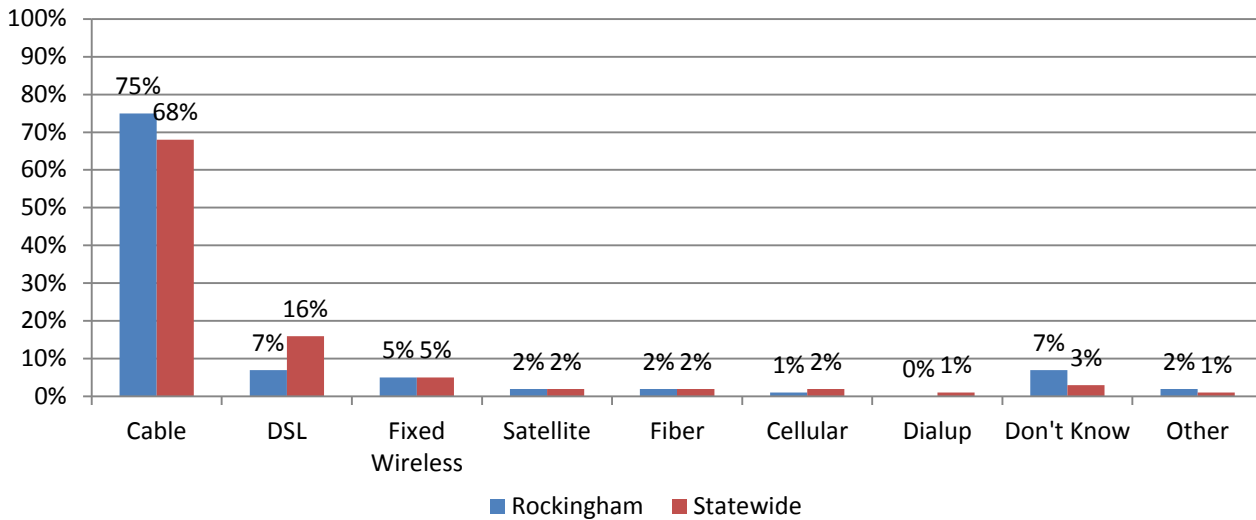

Figure 18: Most important reason why you don't have internet access at home?

Three-fourths of residents (75%) have a cable internet connection, followed by those with DSL (7%), fixed wireless (5%), satellite (2%), fiber (2%), cellular (1%), and dialup (1%). There were also less than 1% who said they had dialup, 2% who have another type of connection and 7% didn't know.

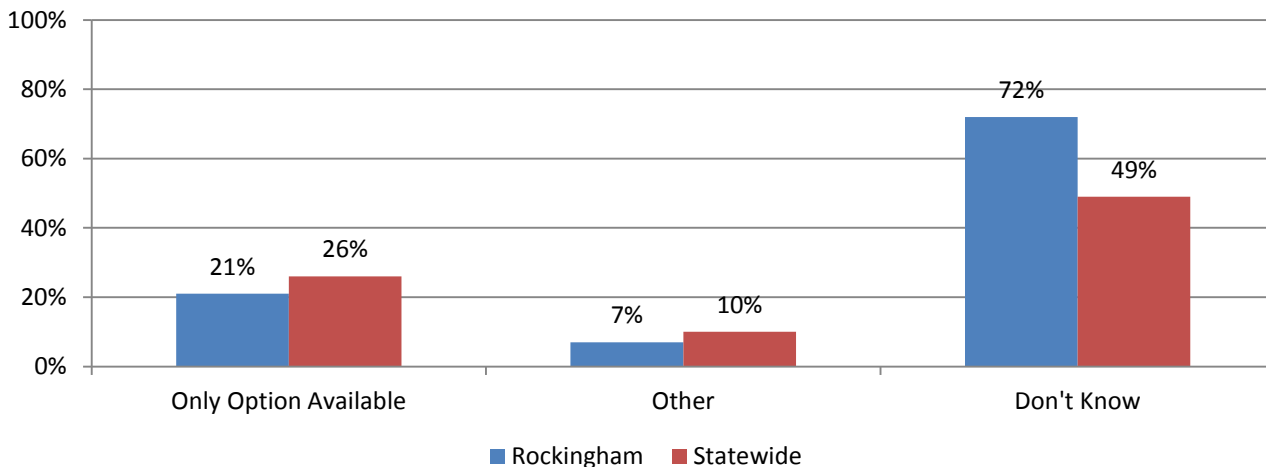

Figure 19: What type of internet connection do you have at home?

For those who do have a dialup or satellite connection, most (72%) say that they don't know why, 24% said it is the only option available and there were also 12% who said that they had another reason.

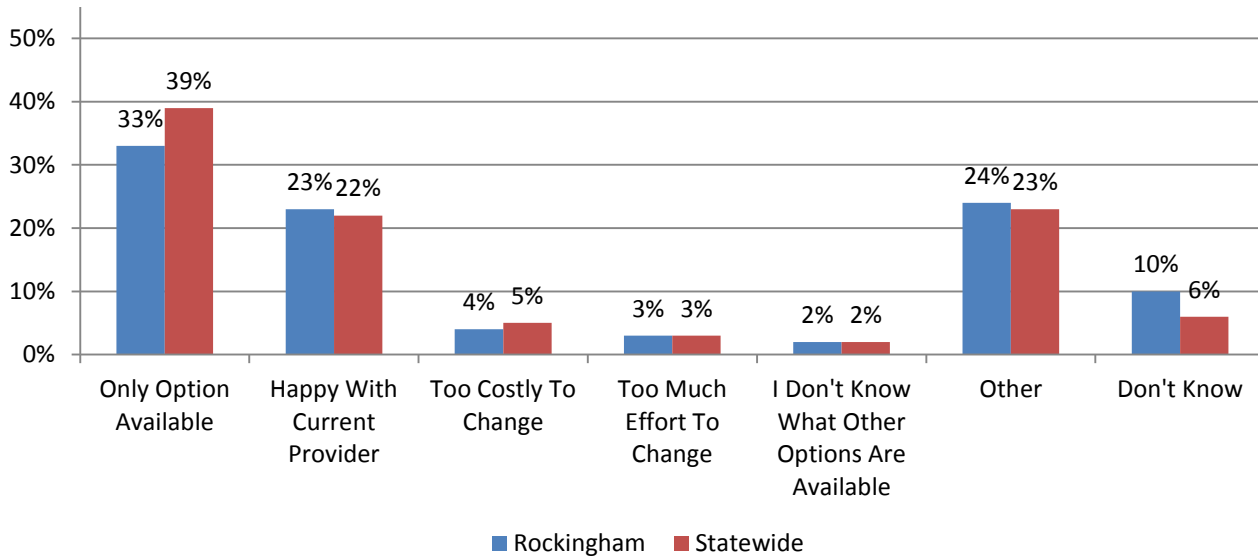

- Rockingham residents were *more likely* to say that they did not know why they have dialup or satellite internet.

Figure 20: If you are on dialup or satellite, why?

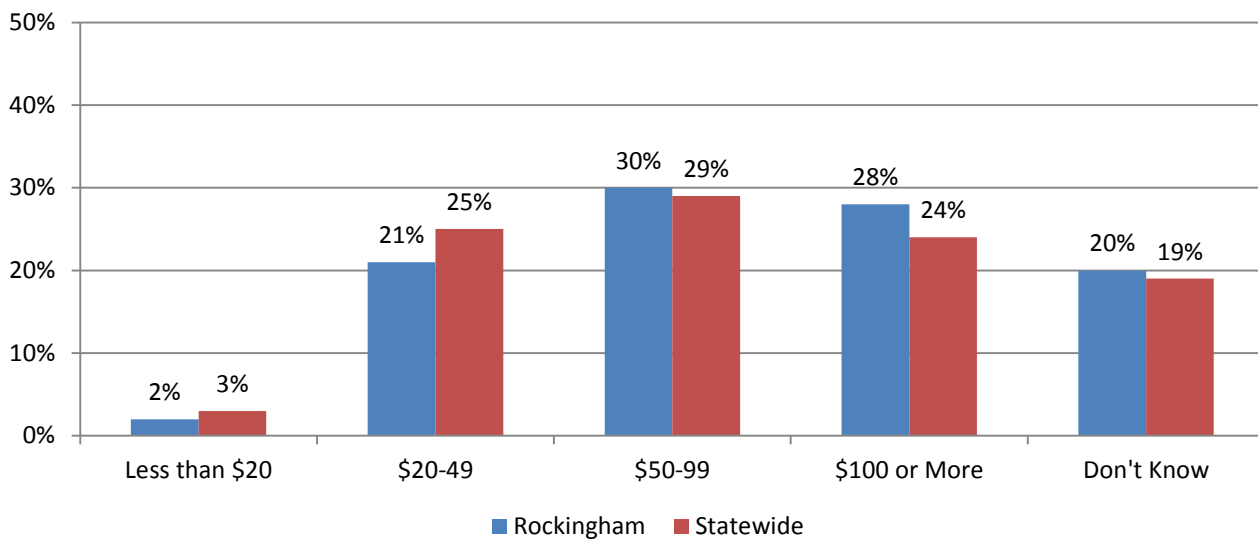

For those who don't have satellite or dialup, one third (33%) say that they have their current internet provider because it is the only option available, followed by being happy with their current provider (23%), it being too costly to change (4%), it being too much effort to change (3%), and they don't know what other options are available (2%). There were also 24% who had another reason and 10% who didn't know.

Figure 21: Why Are You Using Your Current Provider?

Only 2% of residents say that their monthly internet bill is less than \$20, while 21% pay \$20-49 per month, 30% pay \$50-99 per month, 28% pay \$100 or more per month and 20% did not know.

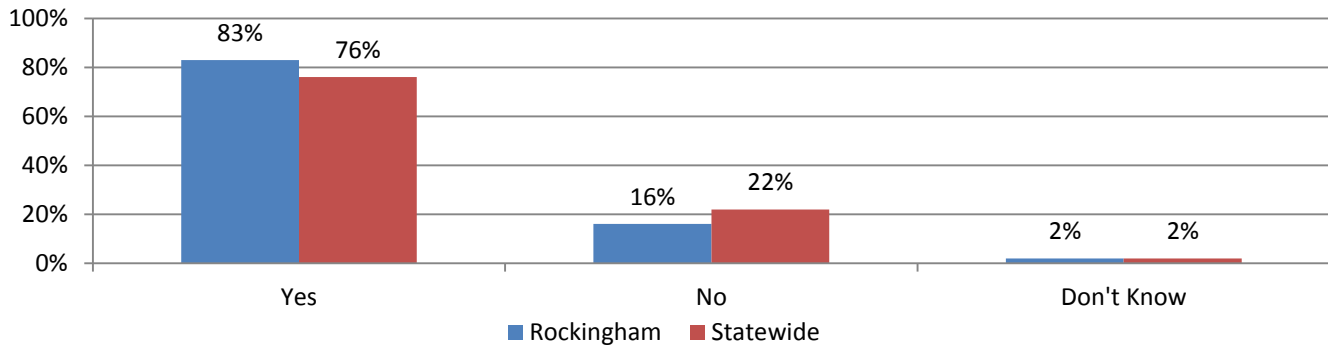

Figure 22: What is your monthly internet bill?

Most residents (83%) currently pay for a bundled internet service, while 16% don't have a bundled service and 2% did not know.

- Those with a high school education or less and households earning less than \$20,000 are *less likely* to pay for bundled service.

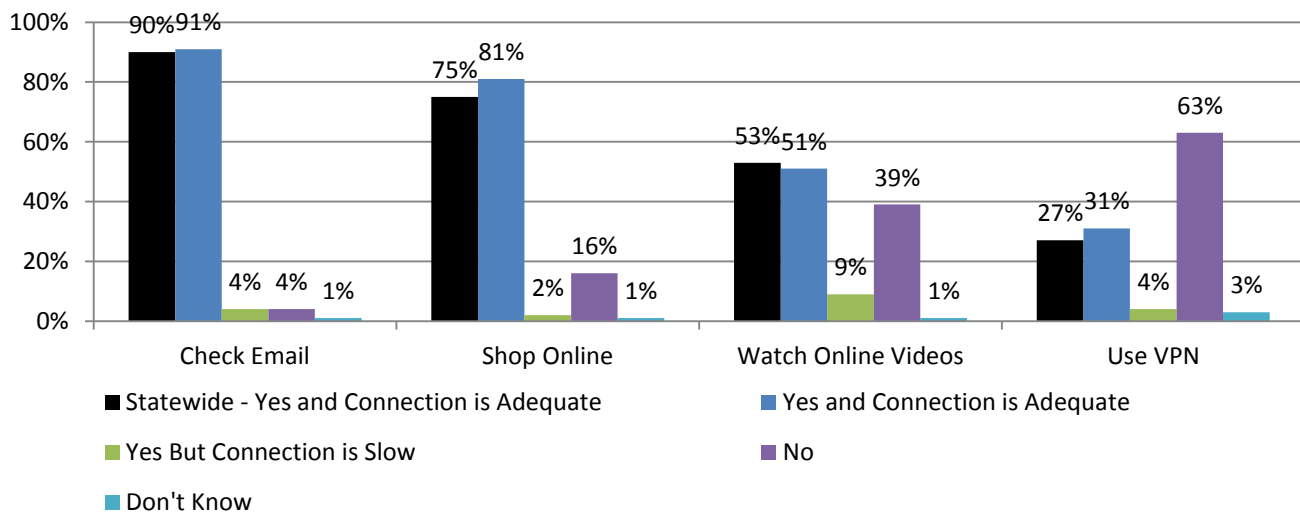

Figure 23: Do you pay for a bundled service?

Almost all (91%) residents use their home internet to check email and their connection is adequate to do so, 81% shop online with an adequate connection, 53% watch online videos and have an adequate connection and 27% use VPN and have an adequate connection to do so.

- Older people (60 or older), and retired people are *less likely* to shop online.
- Older people (60 or older) and those who are retired are *less likely* to watch on-line video. Conversely, younger people (18 to 39) and full-time employees are *more likely* to watch on-line video.
- Households earning more than \$90,000 are *more likely* to use a VPN at home. Older people (60 or older) households earning less than \$90,000 and non-college graduates are *less likely* to use a VPN.

Figure 24: What Do You Use The Internet At Home For

Nearly all (94%) residents state that their internet connection is adequate for their uses, followed by 4% who say their connection is not adequate and 2% who don't know (**Figure 19**). A large majority (87%) of residents would not be willing to pay more for faster internet speeds; 8% would be willing to pay 25% more per month, 3% would be willing to pay 50% more per month and 2% don't know (**Figure 20**).

Figure 25: Do you consider your internet connection adequate for your uses?

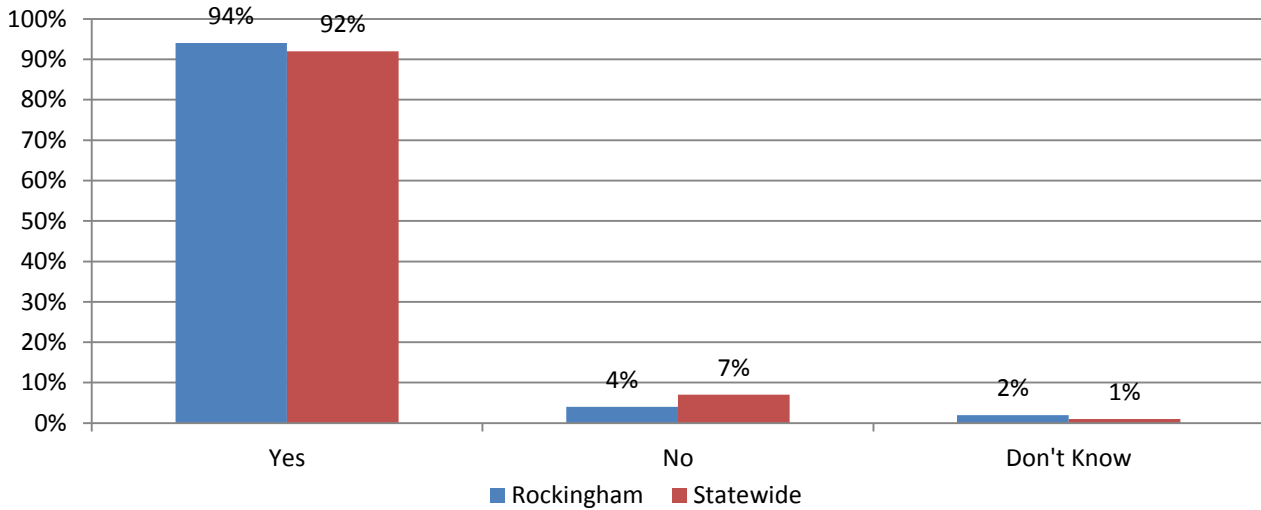

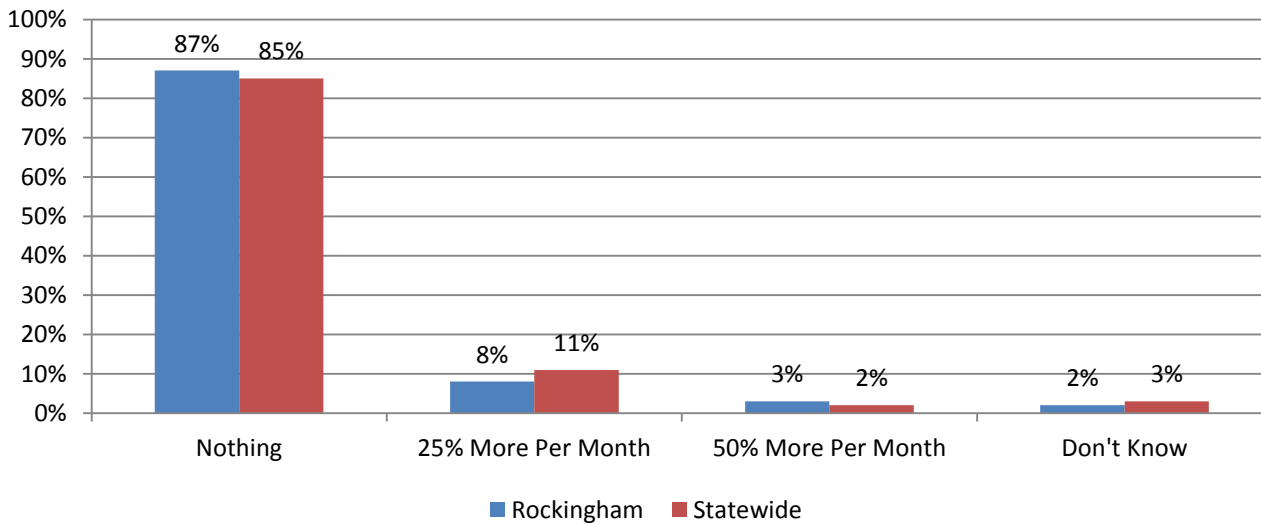

Figure 26: How much more (if any) would you be willing to pay for faster internet speeds?

Technical Report

How the Sample Was Selected

The New Hampshire Regional Planning Commissions A Granite State Future (GSF) Survey was a telephone survey of randomly selected adults in the state of New Hampshire. This survey was conducted using a procedure called Random Digit Dialing (RDD), of both landline and cellular telephone.

A sample of households in the area was selected by a procedure known as random digit dialing. The way this works is as follows. First, with the aid of a computer, one of the three digit telephone exchanges that are currently used in the state (e.g., 772) is randomly selected. The computer then randomly selects one of the "working blocks"--the first two of the last four numbers in a telephone number (e.g., 64)--and attaches it to the randomly selected exchange. Finally, the computer program then generates a two digit random number between 00 and 99 (e.g., 57) which is attached to the previously selected prefix (772), and the previously selected working block (64) resulting in a complete telephone number, i.e., 772 6457. This procedure is then repeated numerous times by the computer to generate more random numbers, so that we have a sufficient quantity to conduct the survey. The end result is that each household in the area in which there is a telephone has an equally likely chance of being selected into the sample. This procedure is done for both land line and cellular exchanges.

The random sample used in the GSF survey was purchased from Scientific Telephone Samples (STS), Foothill Ranch, CA. STS screens each selected telephone number to eliminate non-working numbers, disconnected numbers, and business numbers to improve the efficiency of the sample, reducing the amount of time interviewers spend calling non-usable numbers.

Each of these randomly generated telephone numbers is called by one of our interviewers from a centrally supervised facility at the UNH Survey Center. If the number called is found not to be a residential one, it is discarded and another random number is called. (Approximately forty-five percent of the numbers were discarded because they are found to be businesses, institutions, or not assigned.) If it is a residential number, the interviewer then randomly selects a member of the household by asking to speak with the adult currently living in the household who has had the most recent birthday. This selection process ensures that every adult (18 years of age or older) in the household has an equally likely chance of being included in the survey. No substitutions are allowed. If, for example, the randomly selected adult is not at home when the household is first contacted, the interviewer cannot substitute by selecting someone else who just happens to be there at the time. Instead, he or she must make an appointment to call back when the randomly selected adult is at home. In this way, respondent selection bias is minimized.

When the Interviewing Was Done

New Hampshire adults in the GSF survey were interviewed between May 9 and July 6, 2013. Each selected respondent was called by a professional UNH Survey Center interviewer from a centrally supervised facility at the UNH Survey Center. Telephone calls during the field period were made between 9:00 AM and 9:00 PM.

Response Rates

Interviews were completed with 2,935 randomly selected adults in New Hampshire from a sample of 25,114 randomly selected telephone numbers. Using American Association for Public Opinion (AAPOR) Response Rate 4, the response rate for the Granite State Future survey was 33% percent. The formula to calculate standard AAPOR response rate is:

$$\frac{I}{(I + P) + (R + NC + O) + e(UH + UO)}$$

I=Complete Interviews, **P**=Partial Interviews, **R**=Refusal and break off, **NC**=Non-Contact, **O**=Other, **e**=estimated portion of cases of unknown eligibility that are eligible, **UH**=Unknown household, **UO**=Unknown other.

Weighting of Data

The data have been weighted to account for known biases of telephone surveys. The data in the Granite State Future survey are weighted by the number of adults and telephone lines (landlines and cell phones) within households to equalize the chances that any one adult would be selected for inclusion. The data are also weighted by respondent sex, regional planning commission, and age of respondent.

Sampling Error

The Granite State Future survey, like all surveys, is subject to sampling error due to the fact that all residents in the area were not interviewed. For those questions asked of five hundred (500) or so respondents, the error is +/- 4.4%. For those questions where fewer than 500 persons responded, the sampling error can be calculated as follows:

$$Sampling\ Error = \pm 1.96 \sqrt{\frac{P(1 - P)}{N}}$$

Where P is the percentage of responses in the answer category being evaluated and N is the total number of persons answering the particular question.

For example, suppose you had the following distribution of answers to the question, "Should the state spend more money on road repair even if that means higher taxes?" Assume 1,000 respondents answered the question as follows:

YES	47%
NO	48%
DON'T KNOW	5%

The sampling error for the "YES" percentage of 47% would be

$$\pm 1.96 \sqrt{\frac{47(53)}{1000}} = \pm 3.1\%$$

for the "NO" percentage of 48% it would be

$$\pm 1.96 \sqrt{\frac{48(52)}{1000}} = \pm 3.1\%$$

and for the "DON'T KNOW" percentage of 5% it would be

$$\pm 1.96 \sqrt{\frac{5(95)}{1000}} = \pm 1.4\%$$

In this case we would expect the true population figures to be within the following ranges:

YES	43.9% - 50.1% (i.e., 47% ±3.1%)
NO	44.9% - 51.1% (i.e., 48% ±3.1%)
DON'T KNOW	3.6% - 6.4% (i.e., 5% ±1.4%)

Appendix A: Detailed Tabular Results

Q1: "How would you classify the neighborhood where you live? Would you say you live in a downtown or town center ... a neighborhood close to your town center ... a neighborhood away from your town center ... or in a rural location away from other development?"

	Downtown or Town Center	Neighborhood Close to Town Center	Development Away from Town Center	Rural Location Away from Development	Other	Number Responding
All NH Residents	7%	37%	27%	28%	1%	2934
All Rockingham RPC Residents	6%	47%	28%	18%	0%	402
Sex						
Male	7%	40%	31%	21%	0%	195
Female	6%	53%	26%	15%	1%	207
Age of Respondent						
18 to 29	0%	38%	37%	25%	0%	55
30 to 39	5%	58%	23%	14%	0%	35

Appendix B: Open-Ended Responses

Q1 "How would you classify the neighborhood where you live? Would you say you live in a downtown or town center ... a neighborhood close to your town center ... a neighborhood away from your town center ... or in a rural location away from other development?" (Other Responses)

Town	Description
Newfields	On historic road on a lot of land, near other houses
Rye	Small seaside town, no real town center
Portsmouth	Within walking distance of town center

Q12 "Which of the following things should be actively encouraged in your community?" (Other Responses)

- A hotel or something
- Casinos--advocate that
- Charging people to go into places so they have more respect to keep them clean
- Commercial development
- Dirtbikes and Fourwheeler trails
- Dog parks
- Encourage the growth of sidewalks
- Encouraging high tech industry
- Environmental care, sustainability
- For a rural area , our police dept. is way too big
- I'd like to see some senior housing at an affordable rate
- Increase activities/opportunities for kids ex. skate parks, bowling alleys...etc.
- More affordable housing for the elderly
- more mitigation
- More teenagers and seniors as far as recreation, places for them to go, a teen center and a senior center
- Natural gas expansion
- promote the casino moving into Salem
- Promoting integration of the economy and the protection of the environment so the quality of life does not deteriorate
- promoting small business
- protection from mosquitos
- Said she has everything. believes everyone should live in Kingston
- Senior recreational programs
- teaching teachers to be better teachers, give tax breaks to homeschoolers, improve community psychological evaluations
- The Performing Arts.
- wind power

Q17 “We have discussed many issues facing New Hampshire communities. Which of the following do you think should be the TOP priority for investment of public dollars?” (Other Responses)

- Agriculture and farming...specifically organic farming
- all the rest are equal but number one is most important to her
- Education
- Education
- Education
- education
- education
- employment opportunities
- Healthcare
- Healthcare
- I would like to see a natural gas line along U.S. Rte. 1-It is in Seabrook currently, but is not as far North as Hampton Falls
- Mosquito spraying
- police protection and fire protection
- Police station. Drug issues in our neighborhood and substance abuse
- recreation
- Road and Highway Infrastructure
- Roads in New Hampshire , Energy efficiency and cost
- schools
- Schools
- support local small businesses
- take care of the stuff that they have to take care of first
- The government I want involved in 2 things: education and basic healthcare. Keep the kids educated and healthy
- train systems
- Transportation system/ railways

Net2 “Which of the following is the most important reason why you don’t have internet access at home?” (Other Responses)

- Computer crashed
- doesn’t know how to use it
- I just don’t use it.
- It's just not picking up signal right now.
- too old and has no idea how to use it
- Would use internet/computer only very occasionally

Net 3A “If you are on dialup or satellite, why?” (Other Responses)

- better than cable
- Cable company won’t put a cable up here for us because there’s not enough people to make it worth their while

Net4 “Who is your current provider? “ (Other Responses)

- AOL (2)
- AT&T (1)
- Bayring (1)
- Cable (1)
- Comcast (282)
- Dish Network (1)
- Earthlink (1)
- Exceed (1)
- Fairpoint (31)
- Fios (2)
- Granite State (2)
- GSI Net (1)
- Metrocast (2)
- Northern Telephone (1)
- Verizon (1)
- Wivalley (1)
- Xfinity (8)
- Yahoo (1)

Net5 “Why are you using your current provider?” (Other Responses)

Provider	Reason
aol	my daughter set it up
Comcast	Best choices at the time
Comcast	Best service
Comcast	Bundle
Comcast	Bundled package—would use another provider if they provided the same services
Comcast	Bundled service and convenience
Comcast	Business
Comcast	Cheapest
Comcast	Cause it works
Comcast	Fast service
Comcast	Gave us a good deal, and door sale- and good rate
Comcast	Like Verizon but don't serve here
Comcast	Most popular
Comcast	My parents picked it
Comcast	Only service that provides bundled
Comcast	Package deal
Comcast	Package plan
Comcast	Provided through work—boarding school
Comcast	Quickest service
Comcast	Using neighbors wifi free
Comcast	Wanted the bundled rate
Comcast	Adverstisement
Comcast	Because of the bundling and because everyone else is using it
Comcast	Best deal at the time
Comcast	Bundled service
Comcast	Can't use dish and its only other provider
Comcast	Cheapest at the time
Comcast	Comcast is only good one around, it's a bit of a monopoly
Comcast	Ease of it
Comcast	Ease of use
Comcast	Easiest choice for around here
Comcast	Fast
Comcast	Faster than other choices
Comcast	Fastest and also used for cable and phone
Comcast	Fastest one he can get
Comcast	For the deal
Comcast	Good deal (bundle)
Comcast	Got a deal with bundle
Comcast	Have package, internet tv and cable

Comcast	Husband chose it
Comcast	I get a bundled service
Comcast	I was able to have my internet, tv and phone on one provider. Package deal
Comcast	Initial offer
Comcast	It's fast and less expensive
Comcast	Level of service... and not a lot of choices
Comcast	Most readily available and easiest to have
Comcast	No particular reason
Comcast	Not personal choice, her house is connected to another house and use the same internet provider
Comcast	Of three different options available, it is the most affordable
Comcast	Other options not as good
Comcast	Package deal
Comcast	Speedy and efficient
Comcast	The bundle, and it's easier to stay there than go to anyone else
Comcast	They are the fastest
Comcast	They offered the deal so we went with that
Comcast	Suits needs, desired services
Comcast	Availability
Comcast	I don't know I want to get rid of them
Comcast	Speed and cost
Comcast	The logical decision, no other decision for the most part
Comcast	They have a package
Comcast	No problem with them
Earth Link	I get a discount
Fairpoint	Because verizon fios doesn't allow you to use them and they have directTV cable and satellite.
Fairpoint	cheap cost
Fairpoint	cheap price
Fairpoint	Convenience
Fairpoint	I hate Comcast, I think they're greedy and a monopoly
fairpoint	it was easy
Fairpoint	It's a bundle
Fairpoint	My husband gets sick of yelling at Comcast
Fairpoint	Cheapest option
fairpoint	she works for them
Fairpoint	Very limited options in Southern NH, Comcast or Fairpoint
Fios	I think the cable co. is a monopoly; I like the cable co. less & I like the ph. co.
Verizon	bundling with phone service
Verizon	cost
Verizon	Husband signed up on
Xfinity	package deal

xfinity	to save paper
Xfinity	We had to change from direct tv
Xfinity	You can't live without a computer today
Yahoo	Not sure

Appendix C: Survey Instrument

Survey Instrument

INTRO:

“Good evening / afternoon. My name is _____ and I’m calling on behalf of New Hampshire’s Regional Planning Commissions from the University of New Hampshire Survey Center. This month, the University is conducting a confidential study of public opinion in New Hampshire, and we'd really appreciate your help and cooperation.”

SEAS

“Before we begin, do you live in New Hampshire all year round or are you on vacation?”

- 1 LIVE IN NH YEAR ROUND
- 2 SEASONAL, JUST VACATIONING → “Thank you very much, we are only interviewing year round residents.”
