Executive Summary

During May-July 2013, the University of New Hampshire Survey Center conducted a survey for New Hampshire's nine Regional Planning Commissions, as part of the *Granite State Future* and *New Hampshire Broadband Mapping and Planning* initiatives. Funded in part by a grant from the US Department of Housing and Urban Development, *A Granite State Future* is intended to engage New Hampshire citizens in a public dialogue, at the local, regional and state levels, about what they want for the future of their communities and state. Results from the survey will inform updates to the Regional Master Plans in each of NH's nine planning regions. These regional plans, whose development has been required under State law (RSA 36:47) for over 40 years, are advisory documents designed to provide municipalities with data and strategies to support local decision-making as well as enhance regional cooperation.

With support from the National Telecommunications Information Administration of the US Department of Commerce and in conjunction with the University of New Hampshire and other partners, the New Hampshire Broadband Mapping and Planning Program (NHBMP) is a comprehensive, multi-year effort that seeks to understand where broadband is currently available in NH, how it can be made more widely available in the future, and how to encourage increased levels of broadband adoption and usage. Results from the survey will inform the broadband plans developed in each of NH's nine planning regions.

The specific areas of interest are New Hampshire resident's opinions on a range of issues facing communities around the State – transportation and broadband infrastructure, housing, economic development, natural resource management, energy and natural hazard mitigation. A survey of two thousand nine hundred and thirty-five (2,935) New Hampshire adults was conducted by telephone between May 9 and July 21, 2013. The response rate was 33% and the margin of sampling error for the survey is +/- 2.2%. (See Technical Report for a more detailed description of survey methods.) The following figures display survey results, detailed tabular results can be found in Appendix A, Appendix B contains the open-ended responses and Appendix C contains the survey instrument.

The intent of this report is to provide NH's regional planning commissions and other interested parties with a broad overview of the data collected. This report should serve as a concrete focus for engaging with these data and using them to design and implement strategies for regional planning. However, every summary statement made in this report will generate numerous questions from the reader about how this data element or piece of information applies to other specific strata of the population or planning domain. Many of these questions can readily be answered by the extensive cross tabulations that are provided for each survey question in Appendix A of this report. Some of the questions that will be generated by this report will require more extensive and sophisticated analyses of these data. Knowing this, it is our hope that New Hampshire Planning leaders will share these data with other academics and community organizations that will actively use these data to help New Hampshire discover more about their local population and about how better to target planning initiatives to meet the needs of those in specific communities.

Each section begins with a summary narrative that is written in the form of short, bulleted sentences that describe selected indicators on the data tables and charts. These narratives are not intended to explain or summarize every indicator in the accompanying data tables. This section was not meant to provide the reader with any conclusions. It was intended to spark interest in the data and invite you to ask questions of

this information and use the data cross tabs accompanying this report to understand better the planning concepts you are concerned about.

The charts and tables that follow display major findings of the survey. They are not intended to exhaustively present all the data in the survey. If no demographic differences were listed then responses were consistent across demographic categories. Not all findings are noted in this report; these are the highlights of the results. Additional results can be found in the detailed tables located in Appendix A.

Key Findings

- Responses from residents of the Upper Valley & Southwest Region were largely similar to those of statewide residents. The big differences involved what type of neighborhood residents live in (more Upper Valley & Southwest residents live in rural locations away from the town center), transportation investments (less likely to favor reducing congestion on major roads) and the type of internet connection that residents have (less likely to have cable internet, more likely to have DSL).
- Residents believe that environmental protection and natural resource protection should be the top priority for investing public dollars, and a majority believes that all environmental protection measures mentioned should be high priorities for policymakers.
- Residents view energy efficiency and energy choices as the second most important priority for investing public dollars. Residents are largely in favor of all the proposed energy efficiency and renewable energy projects, except for the idea of having public charging stations made for electric vehicles.
- Residents view safe and affordable housing as the third most important priority for investing public dollars. The development of single family housing and assisted living facilities were particularly favorable to residents while development of manufactured housing and apartments were the least favorable.
- Residents say that the top activity that their community should actively encourage is promoting local agriculture (93%). Majorities want to encourage many other activities as well, including protecting historic buildings and neighborhoods (88%) and promoting safe places to walk or bike (81%).
- Residents view quality schools as the most important thing to have in their community (94%). Other important aspects of a community include having nearby job opportunities (88%), farms, farm stands and forestry (86%), small businesses and retail stores (84%), and grocery stores (80%).
- Residents view maintaining our bridges and highways to be the most important priority for transportation funding (74%). Residents were split on funding for other transportation initiatives, with a narrow majority favoring funding for senior and special needs transportation (51%).
- The vast majority of residents (84%) have internet access at home, and almost all of them (88%) consider their internet access adequate for their uses. Almost as many (84%) would not be willing to pay any additional money in exchange for faster internet speeds.

Demographics

Sex	UV/SW	State
Male	50%	49%
Female	50%	51%
Age of Respondent		
18 to 29	18%	19%

Seacoast	1%	20%
Other State	16%	19%
Work At Home	13%	12%

Housing

A plurality of residents (41%) describe where they live as a rural location away from the town center, followed by those in a neighborhood close to a town center (32%), a development away from a town center (21%), and those downtown or in a town center (6%).

- Upper Valley & Southwest residents are *more likely* to live in a rural location away from the town center than statewide residents.
- Young people (18 to 29) are *more likely* to live in a neighborhood close to town center.
- Those aged 30 to 39 and older people (70 and older) are *more likely* to live in a development away from town center.
- Those aged 40 to 59 are *more likely* to live in a rural location away from town center.

Figure 1: How would you classify the neighborhood where you live? (q1)

When asked whether they would prefer to live in a small house but have a short commute to work or a large home with a longer commute, a plurality (49%) said they would prefer the large home and long commute, 46% would prefer the small home and short commute and 5% did not know (**Figure 2**).

Meanwhile, a slight majority of residents (53%) would prefer to live in a strictly residential neighborhood while 45% would prefer a mixed residential/commercial neighborhood and 2% did not know (**Figure 3**).

- Young people (18 to 29), households with two or more children, part-time employees and residents of NH for 5 years or less are *more likely* to want a larger home with a longer commute.
- Older adults (60 and older), those who are retired and households earning between \$20,000 and \$39,999 are *more likely* to choose a smaller home with a shorter commute.
- Young people (18 to 29) and households earning less than \$40,000 or more than \$160,000 are *more likely* to want to live in a mixed residential/commercial neighborhood.

Figure 2: Large Home with Long Commute or Small Home with Short Commute? (q7a)

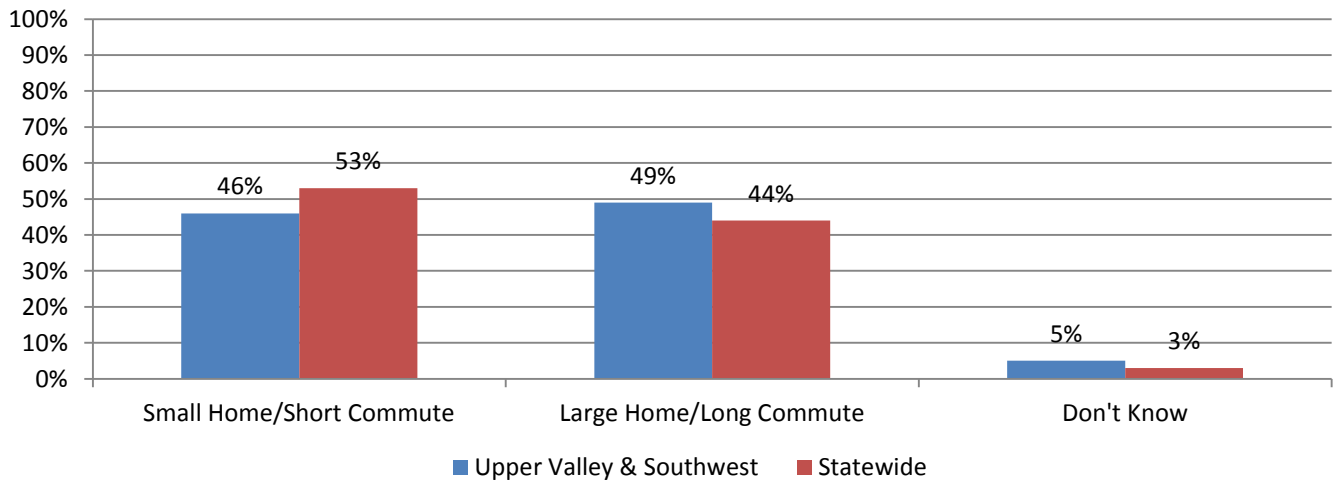

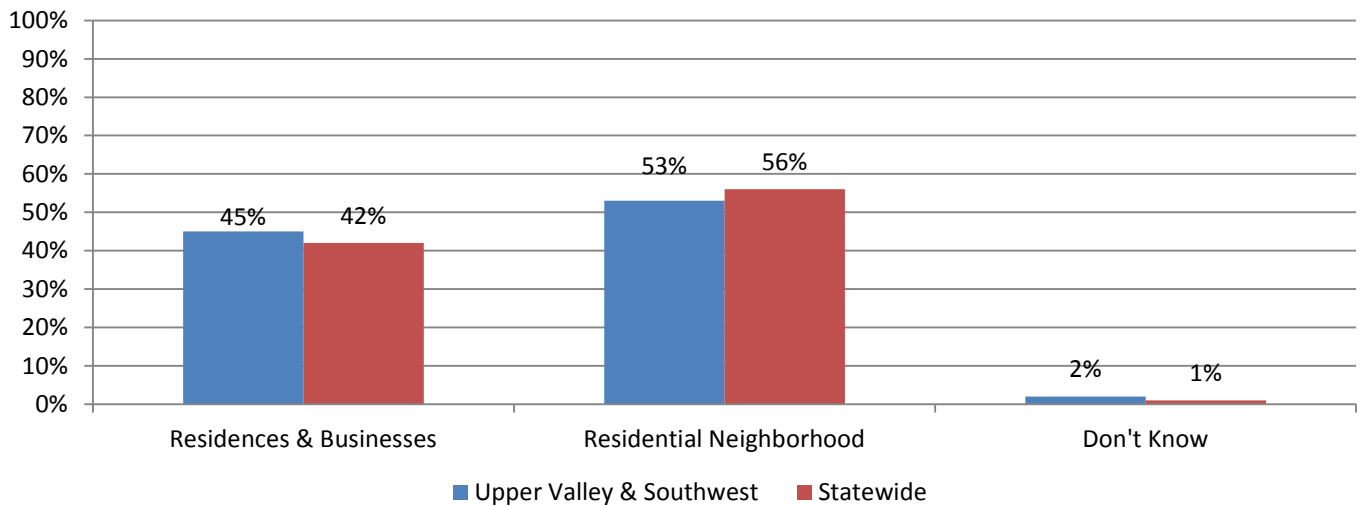

Figure 3: Mixed Neighborhood with Stores or Residential Only Neighborhood? (q7b)

Two-thirds (66%) of those who chose a residential neighborhood where you have to drive to services also prefer a larger house with a longer commute. Nearly as many (65%) who answered that they would like to live in a neighborhood with a mix of residences and businesses would prefer a smaller house with a short commute.

Table 1: Living Preference – Home Size and Commute vs. Type of Neighborhood

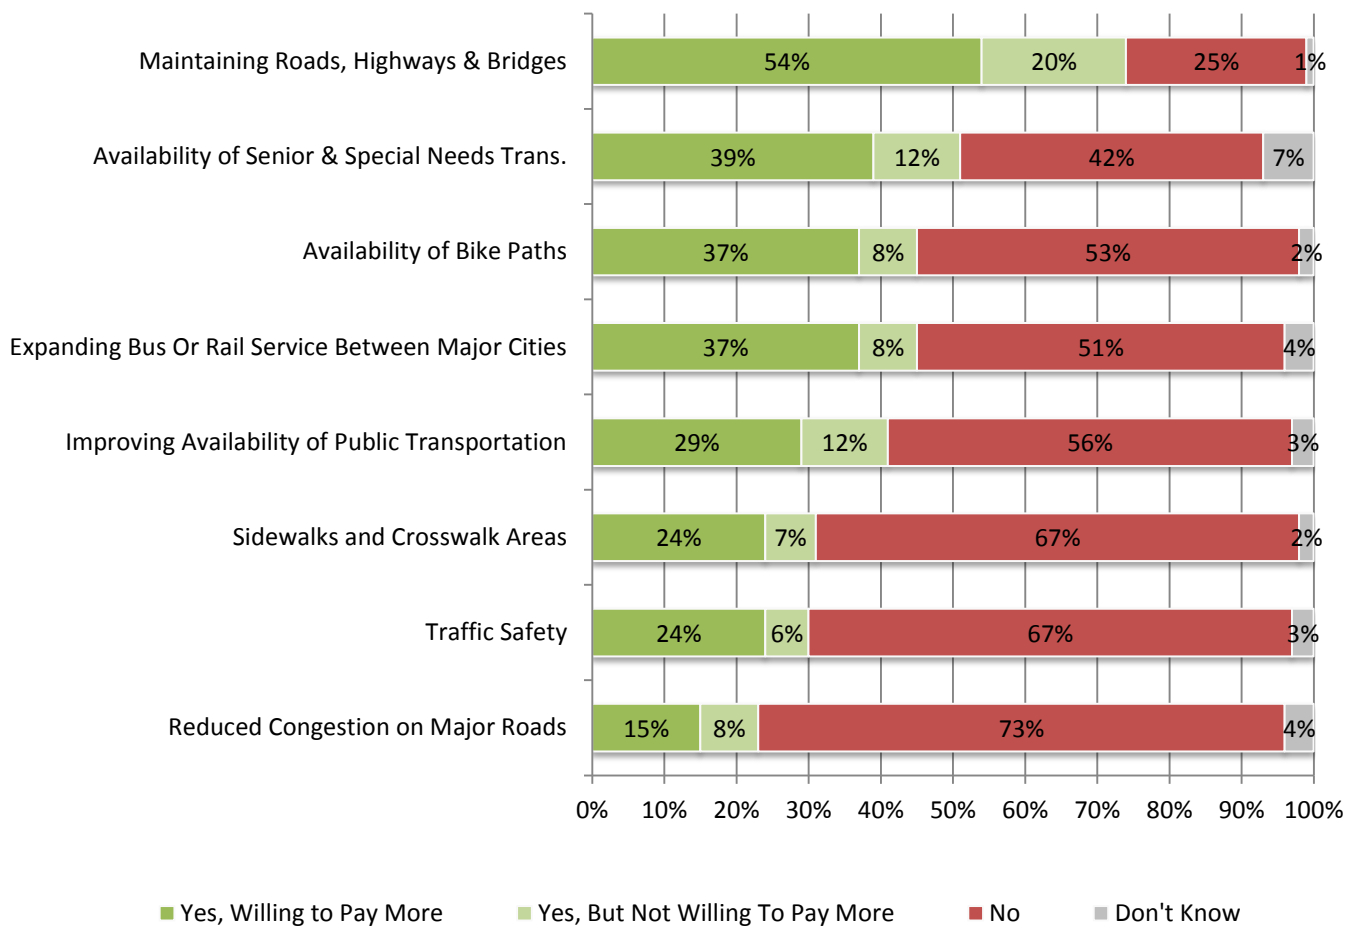

Q7A Would you choose to live in a small home with a small backyard, if it means you have a short trip to work, school or shopping, or would you choose to live in a large home with a large backyard, with a long trip to work school or shopping.	Q7B Would you choose to live in a neighborhood with a mix of residences and businesses where you can walk to stores, schools, and services, OR would you choose to live in a residential-only neighborhood where you needed to drive a car to get to stores, schools and services?		
	Mix of residences and businesses - walk	Residential neighborhood - drive	Total
Small home, small yard	65% (113)	34%(66)	48% (179)
Large home, large yard	35% (61)	66% (130)	52% (191)
Total	47% (174)	53% (196)	100.0%

Transportation

Nearly three-quarters (74%) of residents think that policy makers should invest more money in maintaining roads, highways and bridges (with 54% willing to pay more in taxes to do so), followed by improving availability of senior and special needs transportation (51%), improving the availability of bike paths (45%), expanding bus or rail service between major cities (45%), improving the availability of public transportation (41%), sidewalks and crosswalk areas (31%), traffic safety (30%), and reducing congestion on major roads (23%).

- Upper Valley & Southwest residents are *less likely* than statewide residents to want investment in reducing congestion on major roads.
- Younger people (18 to 39), households with children and residents of NH for 5 years or less are *more likely* to want investment in the availability of bike paths.
- Young people (18 to 29) are *more likely* to want investment in sidewalks and crosswalk areas, improving public transportation, and traffic safety.

Figure 4: Should Policy Makers Invest More Money in Transportation (q2)

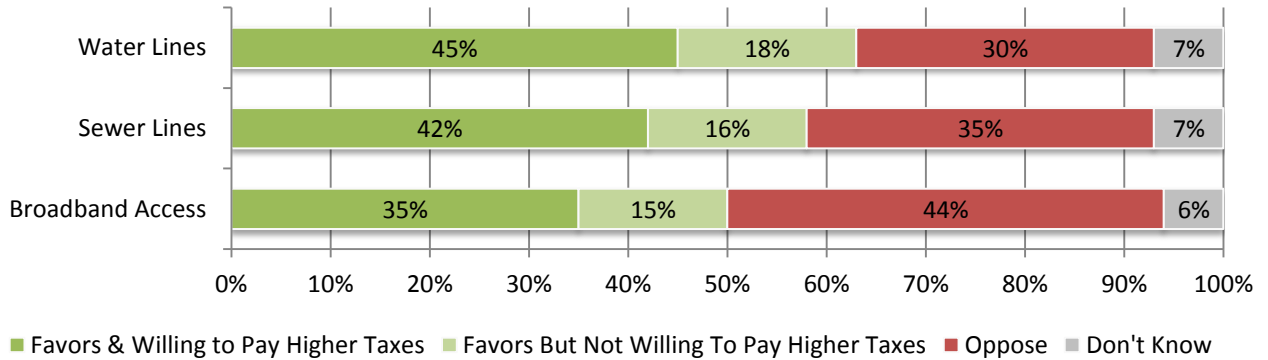

Community Development

The majority of (63%) residents favor using municipal funds to provide water lines to existing and potential development (although just 45% would be willing to pay more in taxes for it), followed by sewer lines (58%) and broadband access (50%).

- Younger people (18 to 39), households earning between \$20,000 and \$39,999, households with two or more children and are *more likely* to favor funding for water lines and sewer lines.

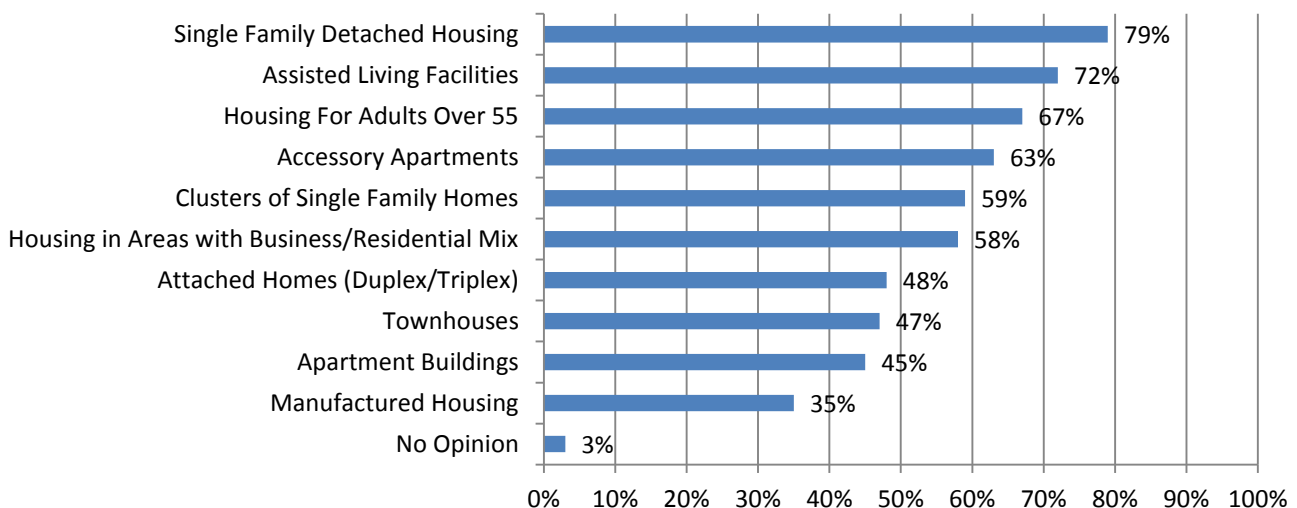

Figure 5: Favor or Oppose Using Municipal Funds to Provide Utilities for Development (q11)

Four in five residents (79%) residents think that their town should encourage single family detached housing, followed by assisted living facilities (72%), housing for adults over 55 (67%), accessory apartments (63%), clusters of single family homes (59%), housing in areas with business/residential mix (58%), attached homes (48%), townhouses (47%), apartment buildings (45%), and manufactured housing (35%).

- Those aged 30 to 39, households with children, and households earning less than \$20,000 or more than \$160,000 are more likely to want their town to encourage townhouses.
- Younger people (18 to 49), the self-employed and unemployed are more likely to want their town to encourage housing in areas with a mix of residences and businesses.

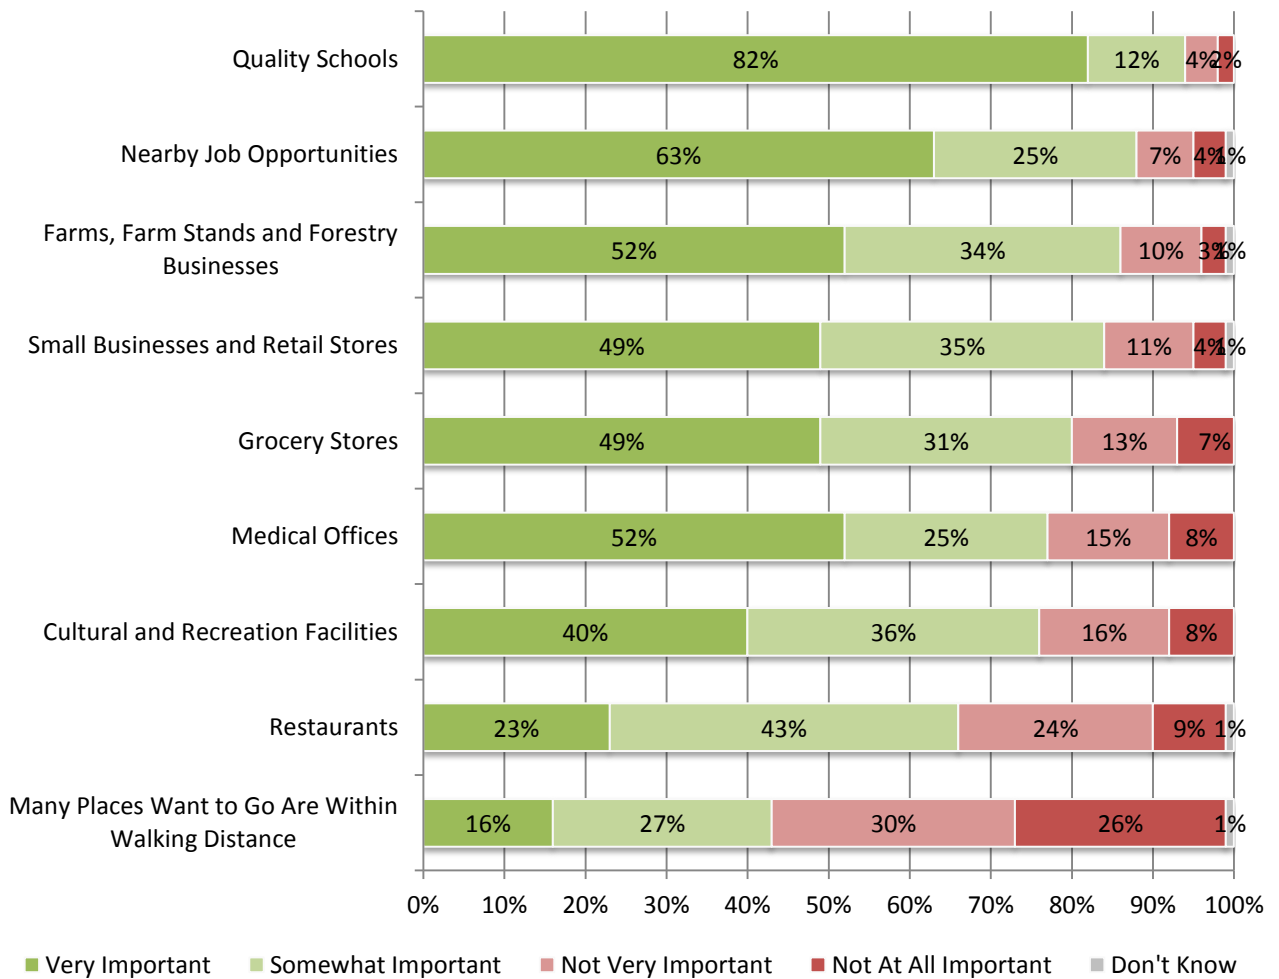

Figure 6: What kinds of housing should your town encourage? Check all that apply (q6)

Nearly all (94%) residents find it important (82% “very important” and 12% “somewhat important”) that there are quality schools in their community, followed by having nearby job opportunities (88%), farms, farm stands and forestry businesses (86%), small businesses and retail stores (84%), grocery stores (80%), medical offices (77%), cultural recreation facilities (76%), restaurants (66%) and that many places they want to go are within walking distance (43%).

- Young people (18 to 29), households earning less than \$40,000, and those with a high school education or less are *more likely* to think it is very important to have medical offices.
- Those aged 30 to 39, households earning between \$60,000 and \$90,000 and households with children are *more likely* to think it is very important to have restaurants.
- Those aged 30 to 49, the self-employed and households earning between \$20,000 and \$39,999 or \$60,000 and \$90,000 are *more likely* to think that small businesses and retail stores are very important.
- Those aged 40 to 49 and the self-employed are *more likely* to think that farm, farm stands and forestry businesses are very important.

Figure 7: How Important Is It To Have In Your Community? (q3)

Only 8% of respondents find housing to be very affordable in their town, 55% find it somewhat affordable, 24% find it not very affordable, 7% find it not affordable at all and 5% don't know. When it comes to renting, only 6% find it very affordable, 43% find it somewhat affordable, 22% find it not very affordable, 7% find it not affordable at all and 22% don't know.

- Older people (60 to 69) and households earning more than \$160,000 are *more likely* to think that purchasing housing is somewhat affordable.
- Young people (18 to 29), households earning between \$60,000 and \$90,000 and those who are not employed are *more likely* to think that rent is somewhat affordable.

Figure 8: How Affordable is Housing in Your Town? (q4 & q5)

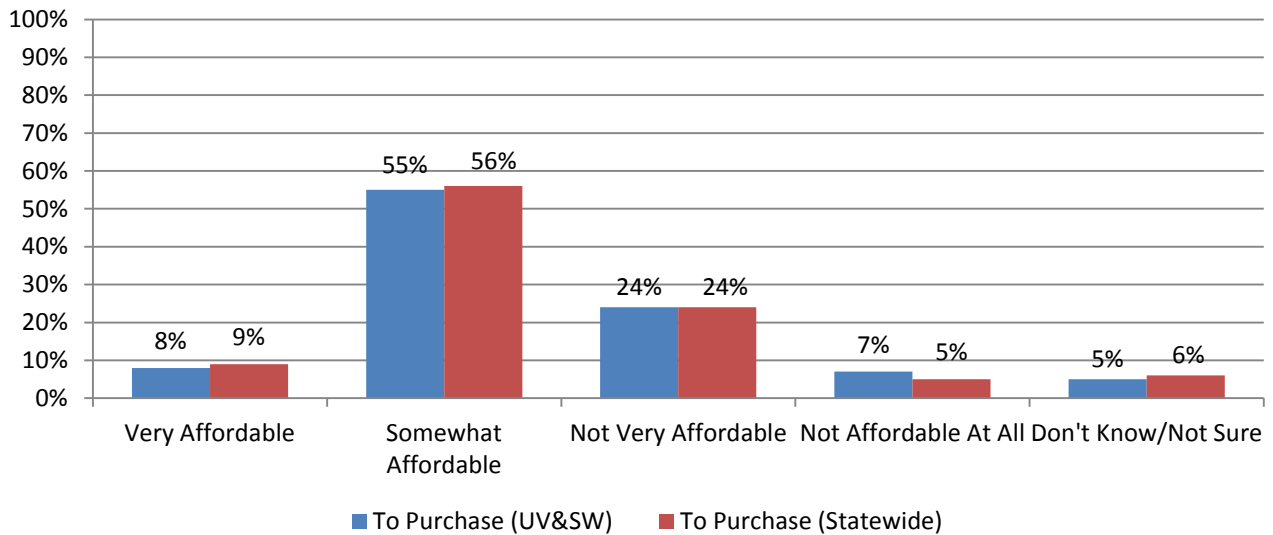

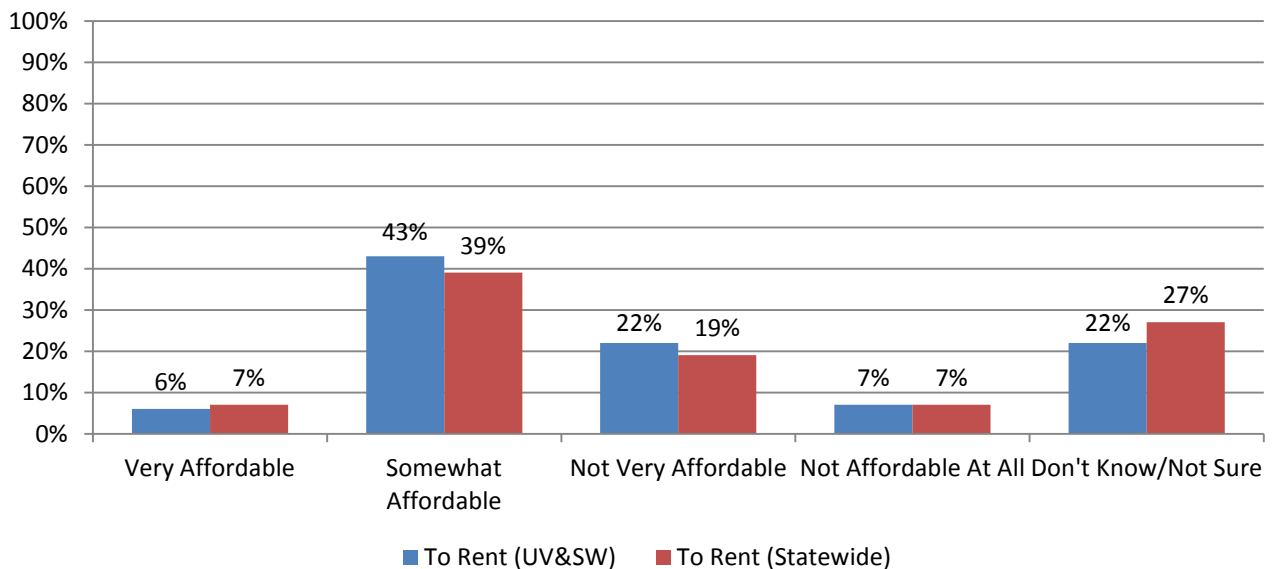

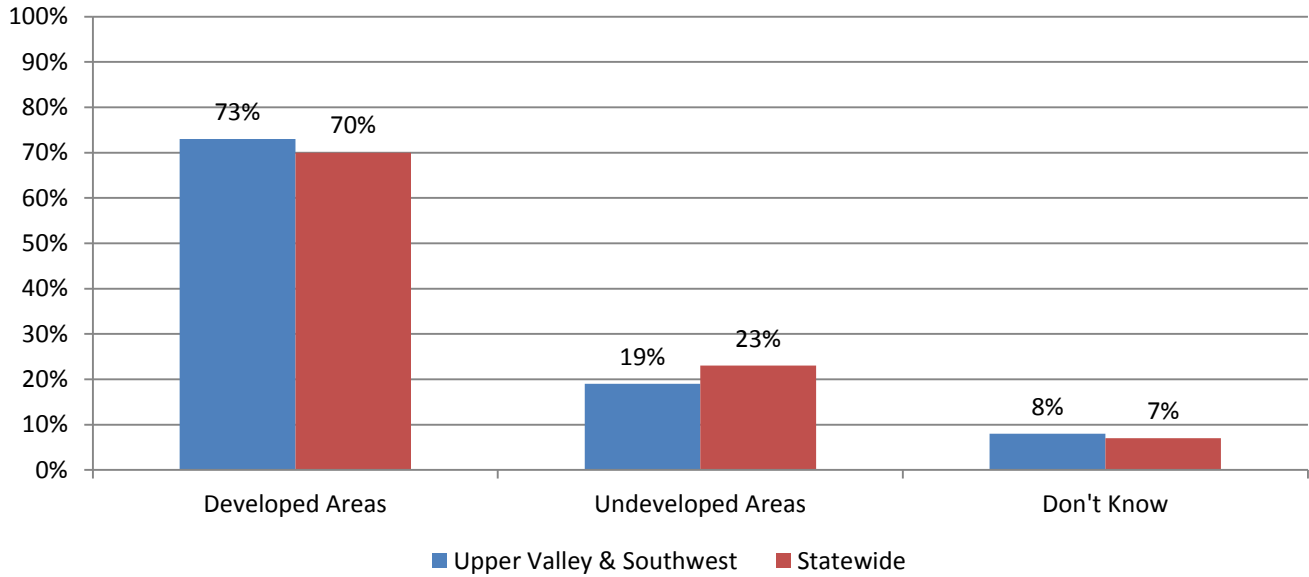

Figure 8b: How Affordable is Housing in Your Town? (q4 & q5)

A large majority of residents (73%) think that future development should occur in areas that are already developed while only 19% support development in undeveloped areas and 8% did not know.

Figure 9: Where should future development occur in your part of the state? (q8)

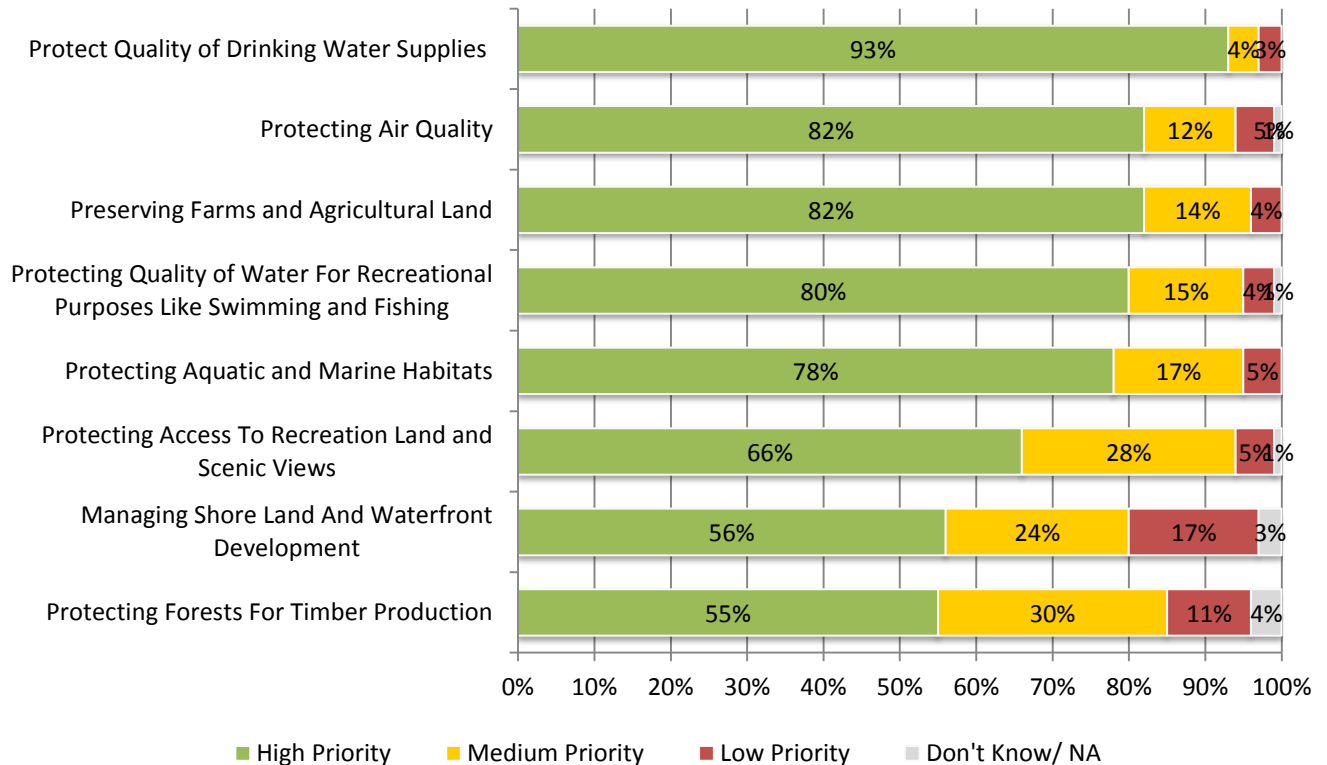

Environmental Protection

Nearly all residents (93%) view protecting water quality for drinking as a high priority for their community, followed by protecting air quality (82%), preserving farms and agricultural land (82%), protecting water quality for recreational purposes like swimming and fishing (80%), protecting aquatic and marine habitats (78%), protecting access to recreation land and scenic views (66%), managing shore land and waterfront development (56%), and protecting forests for timber production (55%).

- Young people (18 to 29) are *more likely* to say protecting water quality for recreation is a high priority.
- Older people (60 and older) and households earning between \$60,000 and \$90,000 are *more likely* to say protecting forests for timber production is a high priority.
- Those aged 50 to 69 are *more likely* to say managing shore land and waterfront development is a high priority.

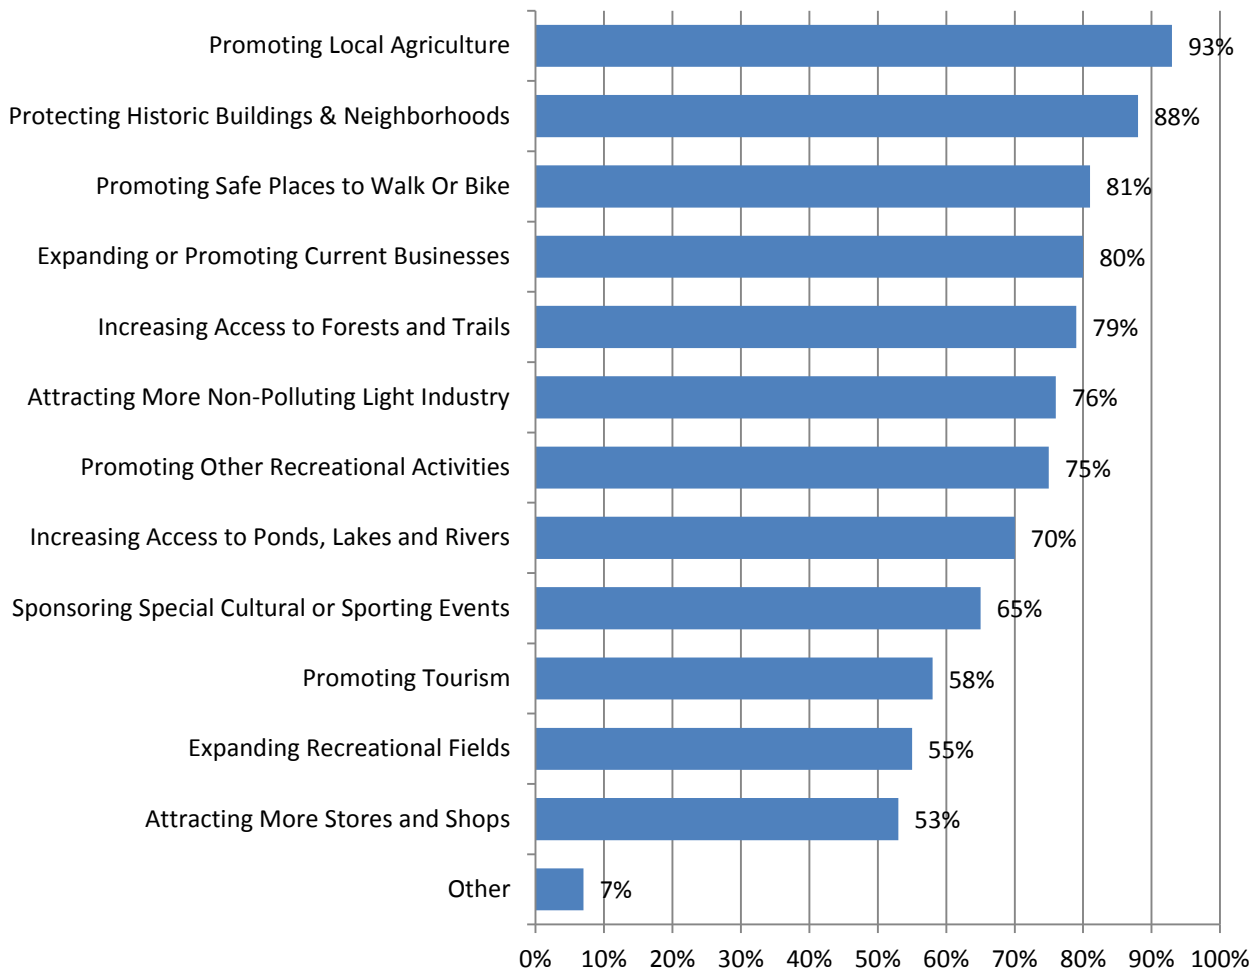

Figure 10: Priority Placed on These Community Issues (q9)

A large majority of residents (93%) say that promoting local agriculture should be actively encouraged in the community, followed by protecting historic buildings & neighborhoods (88%), promoting safe places to walk or bike (81%), expanding or promoting current businesses (80%), increasing access to forests and trails (79%), attracting more non-polluting light industry (76%), promoting other recreational activities (75%), increasing access to ponds, lakes and rivers (70%), sponsoring special cultural or sporting events (65%), promoting tourism (58%), expanding recreational fields (55%), and attracting more stores and shops (53%).

- Younger people (18 to 39) and those with technical school or some college education are *more likely* to say their community should increase access to forests and trails.
- Younger people (18 to 39) and residents of NH for 10 years or less are *more likely* to say their community should attract more stores and shops.

Figure 11: What should be actively encouraged in your community? Check all that apply (q12)

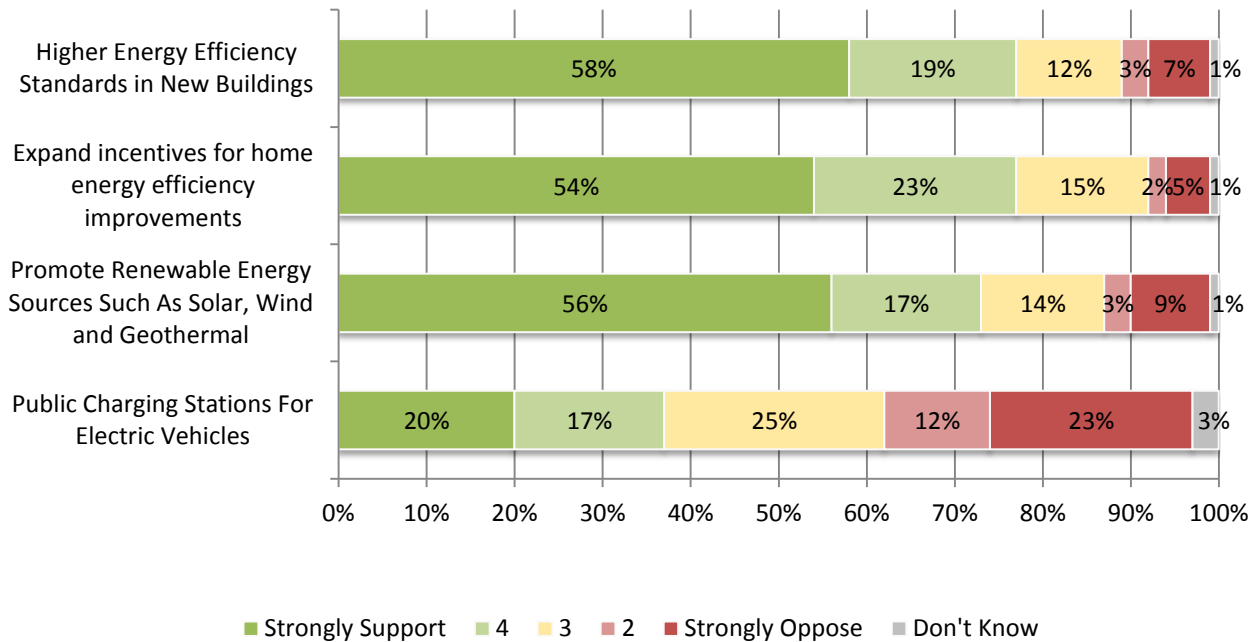

Energy Policies

A large majority (77%) support higher energy efficiency standards in new buildings (with 58% who “strongly support”), followed by expanding incentives for home energy efficiency improvements (77%), and promoting renewable energy sources such as solar, wind and geothermal (73%). Meanwhile only 37% were in support of public charging stations for electric vehicles.

- Households with two or more children and those aged 30 to 39 are *more likely* to strongly support higher energy efficiency standards in new buildings.
- Young people (18 to 29), part-time employees, households earning less than \$20,000 or between \$40,000 and \$90,000, and households with two or more children are *more likely* to strongly support promoting renewable energy sources.

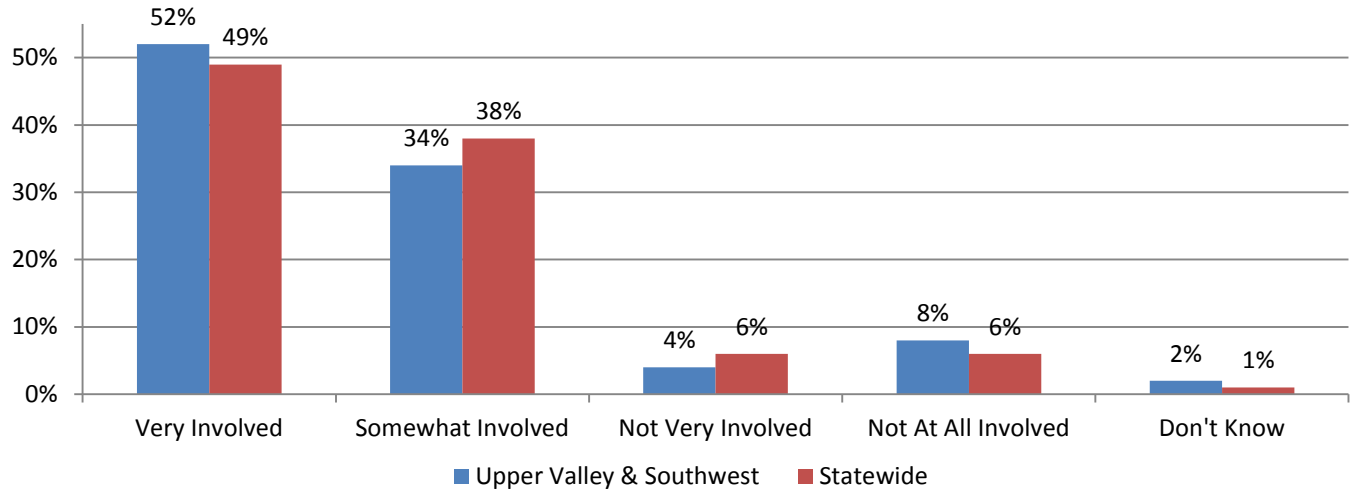

Figure 12: Support/Oppose Energy Policy Changes (q13)

More than half of residents (52%) think that local governments should be very involved in guidelines for renewable energy (such as large wind farms), 34% think they should be somewhat involved, 4% think they should be not very involved, 8% think they should be not at all involved and 2% don't know.

- Those aged 30 to 39 or 50 to 59 and households earning less than \$20,000 or between \$60,000 and \$90,000 are *more likely* to want their community to be very involved with energy guidelines.

Figure 13: How Involved Should Local Governments Be In Guidelines For Renewable Energy? (q16)

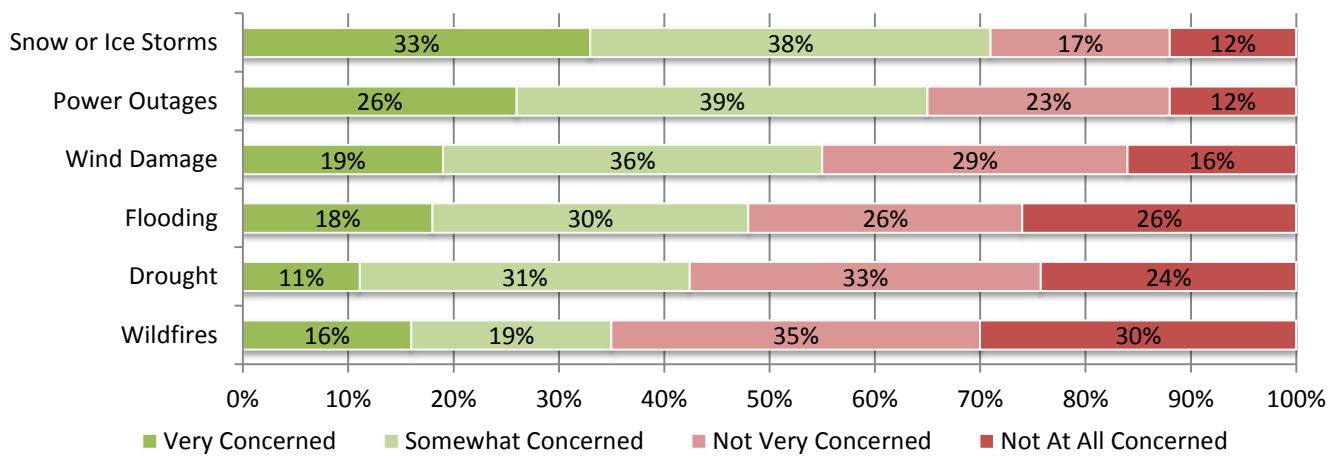

Emergency Preparedness

A large majority of residents (71%) are concerned (33% “very concerned” and 38% “somewhat concerned”) with snow or ice storms in their community followed by power outages (65%), wind damage (55%), flooding (48%), drought (42%), and wildfires (35%).

- Those aged 30 to 39, households earning less than \$20,000, households with children and NH residents for 5 years or less are *more likely* to be very concerned about snow or ice storms.
- Older people (70 and older), households earning less than \$40,000 and those with a high school education or less and NH residents for 5 years or less are *more likely* to be very concerned about power outages.

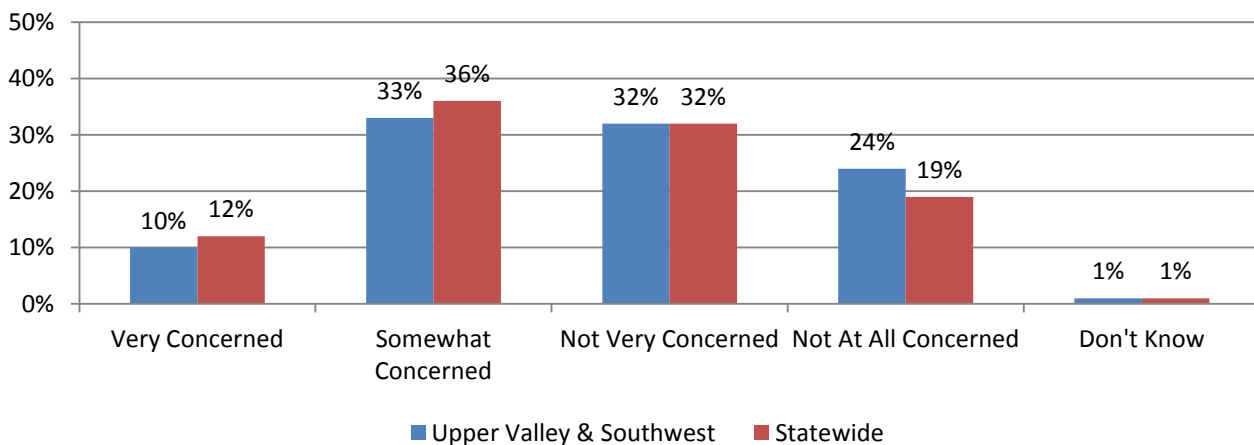

Figure 14: How Concerned Are You About Weather Related Events In Your Community? (q14)

Only 10% of residents are very concerned about their community’s level of preparedness in weather-related situations, while 33% are somewhat concerned, 32% are not very concerned, 24% are not at all concerned and 1% said they don’t know.

- Households earning less than \$20,000 are *more likely* to be very concerned with their community’s level of preparedness for severe weather events.

Figure 15: Concerned about Your Community’s Level of Preparedness? (q15)

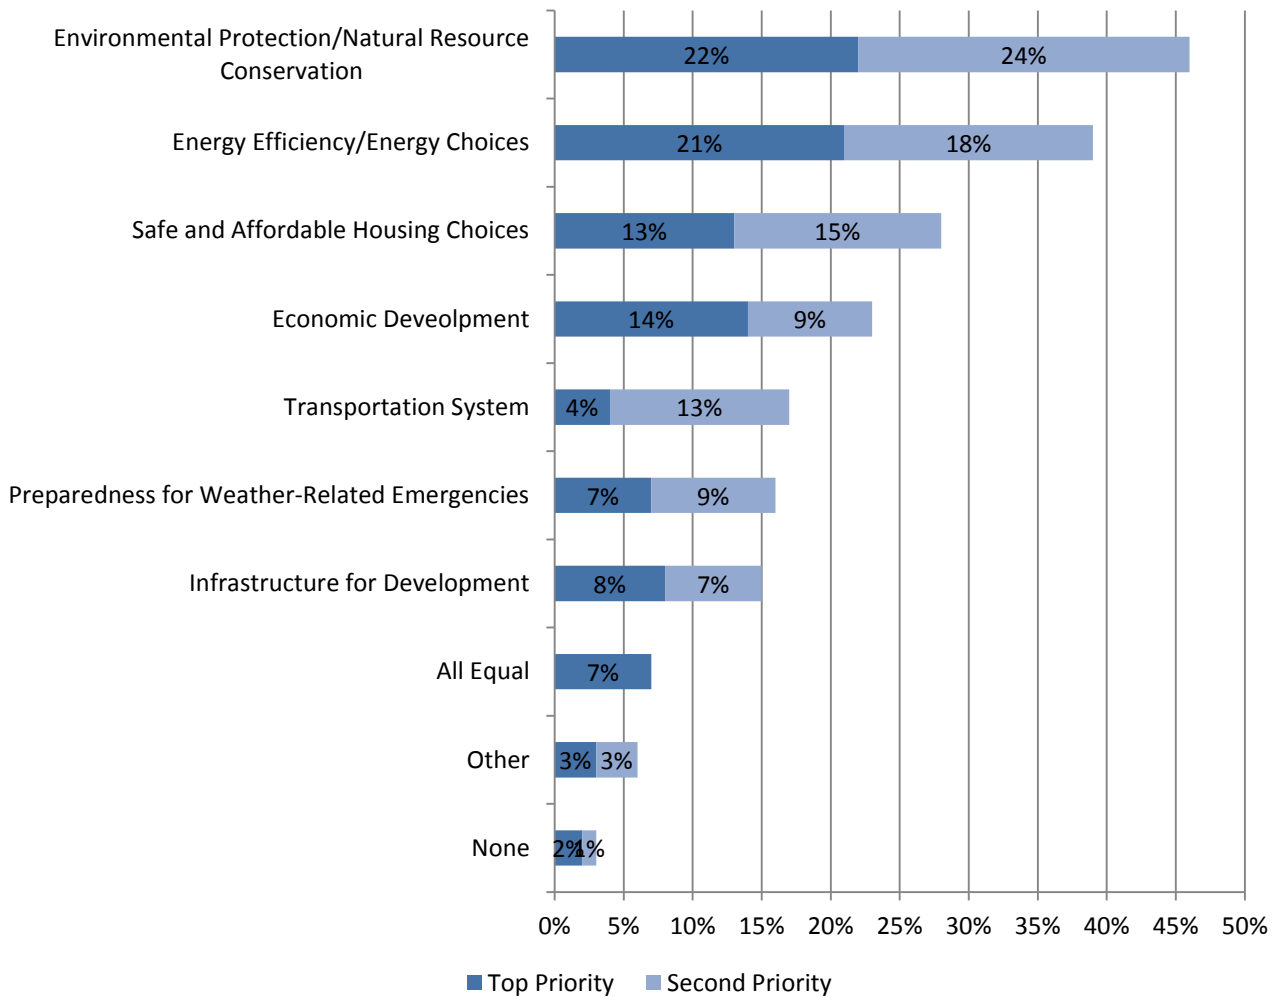

Priorities for Investing Public Dollars

Residents’ top priority for investing public dollars is environmental protection (22%), followed by energy efficiency (21%), economic development (14%), safe and affordable housing (13%), infrastructure for development (8%), preparedness for weather-related or other emergencies (7%), transportation system (4%), all priorities are equal (7%), something else (3%) and none of the above (2%).

When the top two responses are combined environmental protection (46%) and energy efficiency (39%) are the two most cited priorities.

Figure 16: Priorities for Investing Public Dollars (q17)

Broadband

The large majority of residents (84%) have internet access in their home, while just 16% do not (**Figure 11**). For those who do not have internet access at home, a plurality (25%) says that they don't have it because they don't need it, followed by it is too expensive (23%), they don't have an adequate computer (10%), they have access at another place like their job (9%), it is not available where they live (7%), and they don't know how to use it (1%). There were also 21% who cited another reason (**Figure 12**).

- Those with a high school education or less and households earning less than \$40,000 are *less likely* to have internet access at home.

Figure 17: Do You Have Internet Access At Home?

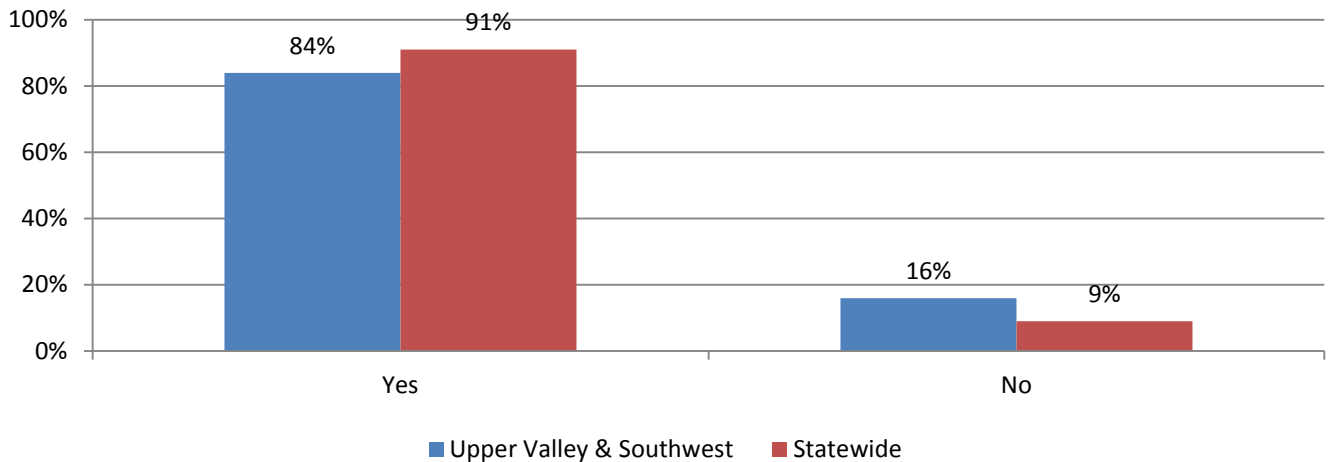

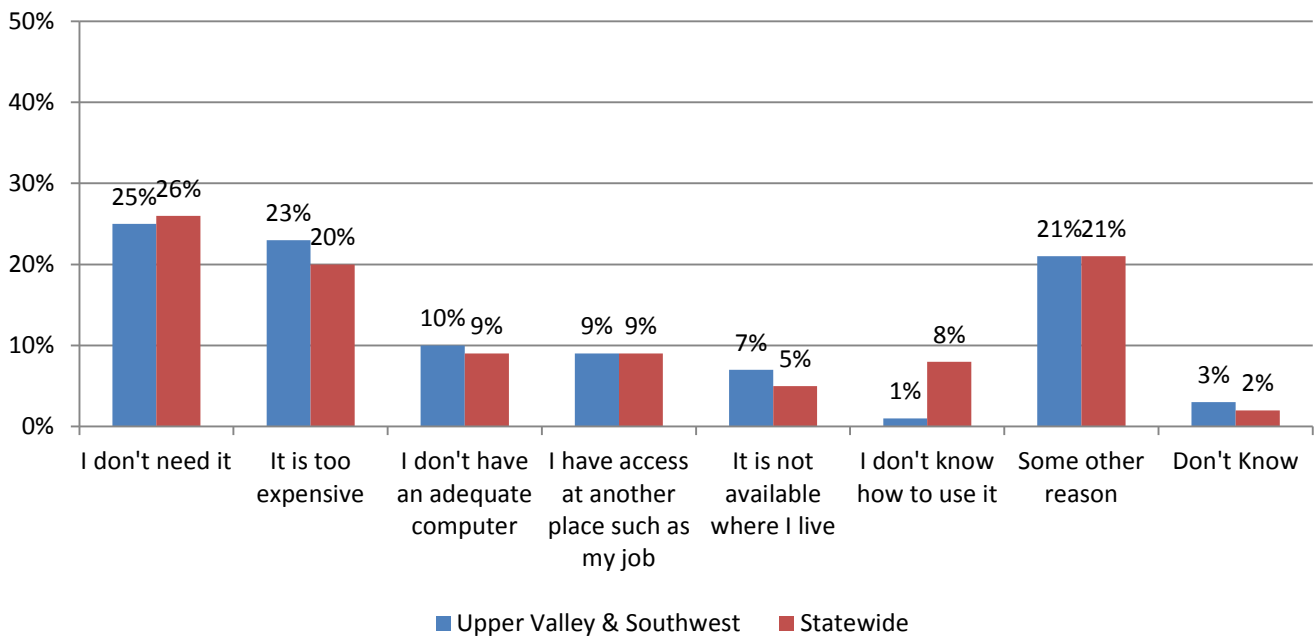

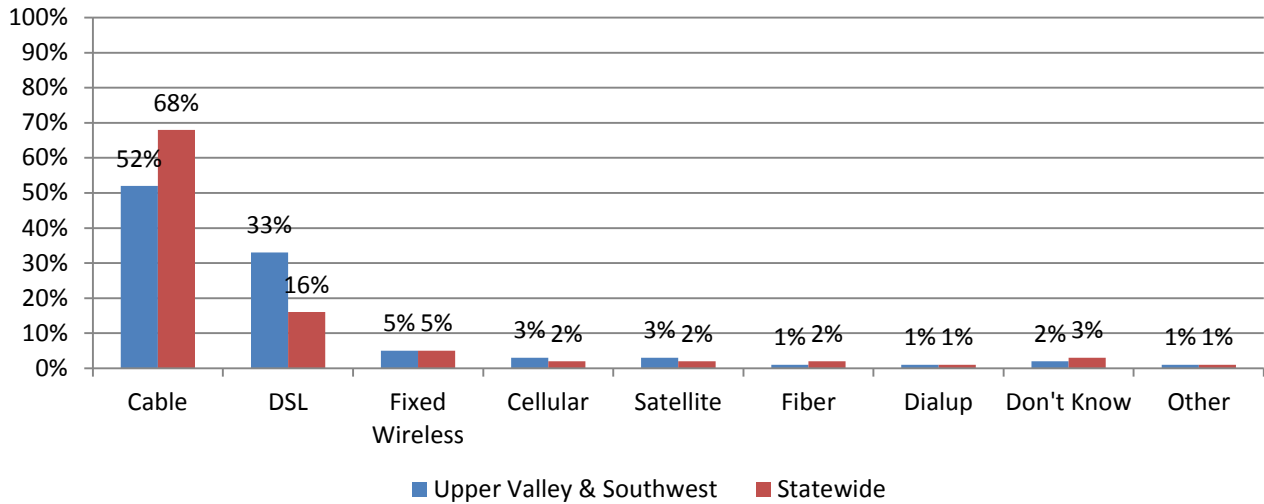

Figure 18: Most important reason why you don't have internet access at home?

The majority of residents (52%) have a cable internet connection, followed by those with DSL (33%), fixed wireless (5%), cellular (3%), satellite (3%), fiber (1%) and dialup (1%). There was also 1% who said they have had another type of connection and 2% didn't know.

- Upper Valley & Southwest residents are *less likely* to have cable internet and *more likely* to have DSL.

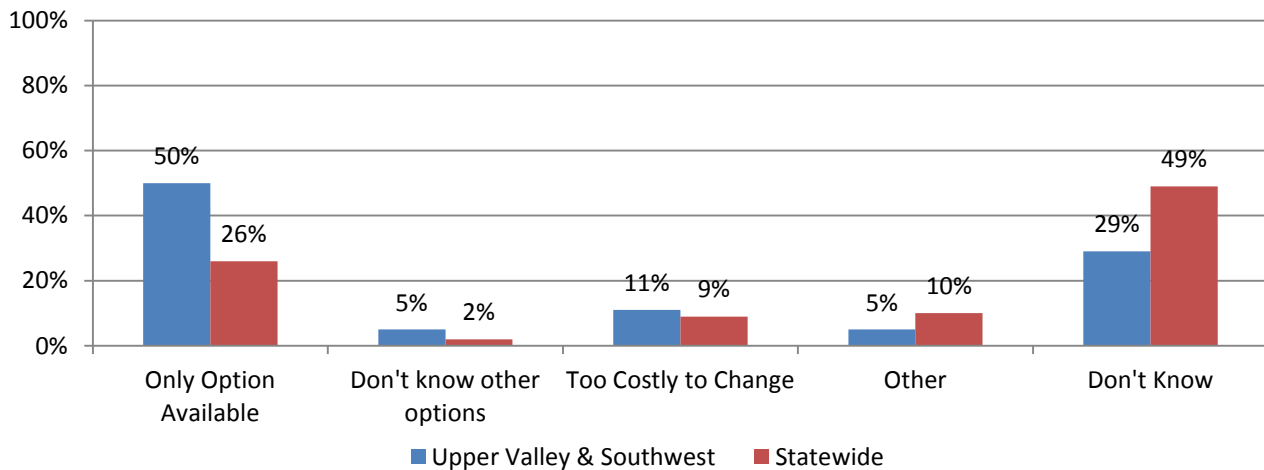

Figure 19: What type of internet connection do you have at home?

For those who do have a dialup or satellite connection, half say that it is the only option available (50%), followed by those who don't know why (29%), it being too costly to change (11%), not knowing other options (5%). There were also 5% who said that they had another reason.

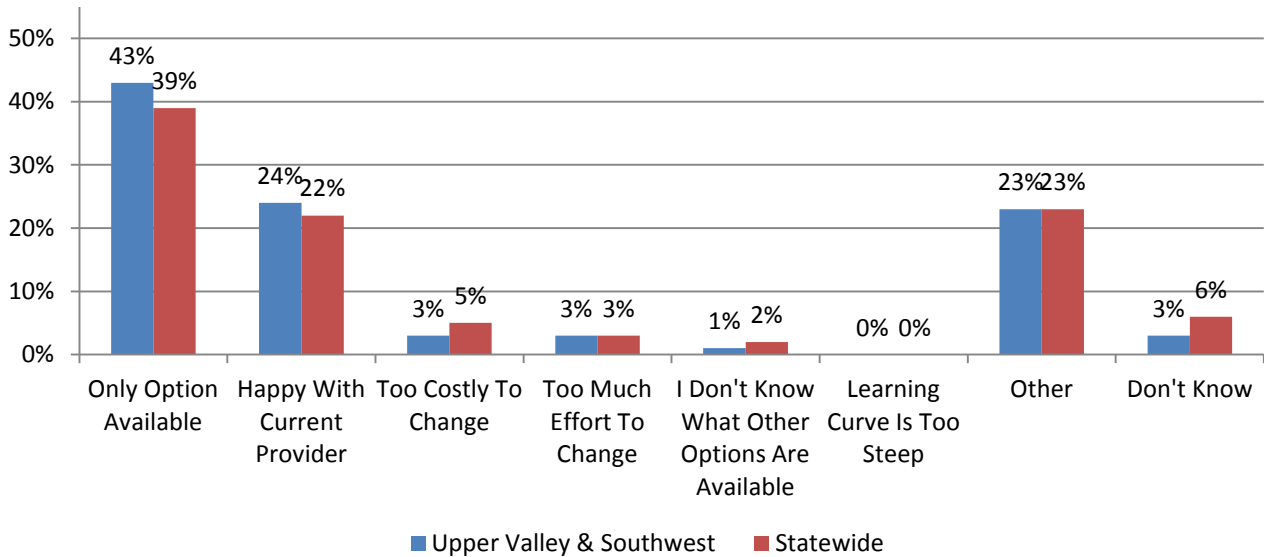

- Upper Valley & Southwest residents were *more likely* to say dialup or satellite internet was the only option available.
- There were 2% of statewide residents who cited it was too much effort to change and 2% who said the learning curve was too steep. No Upper Valley & Southwest resident gave either response.

Figure 20: If you are on dialup or satellite, why?

For those who don't have satellite or dialup, a plurality (43%) say that they have their current internet provider because it is the only option available, followed by being happy with their current provider (24%), it being too costly to change (3%), it being too much effort to change (3%), and they don't know what other options are available (1%). There were also 23% who had another reason and 3% who didn't know.

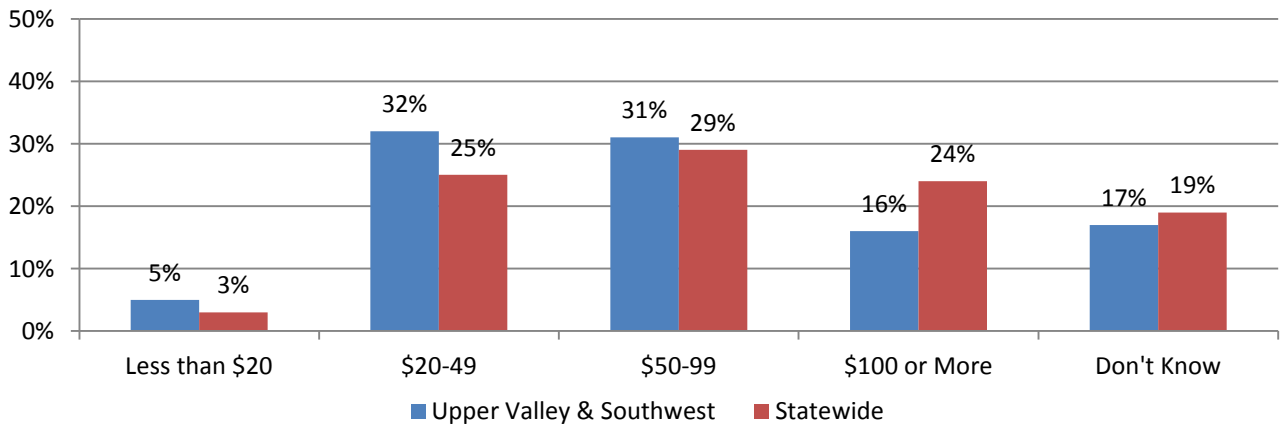

Figure 21: Why Are You Using Your Current Provider?

Only 5% of residents say that their monthly internet bill is less than \$20, while 32% pay \$20-49 per month, 31% pay \$50-99 per month, 16% pay \$100 or more per month and 17% did not know.

- Older people (70 and older) are *more likely* to pay \$100 or more per month, while those aged 30 to 49 are more likely to pay \$20-49 per month.

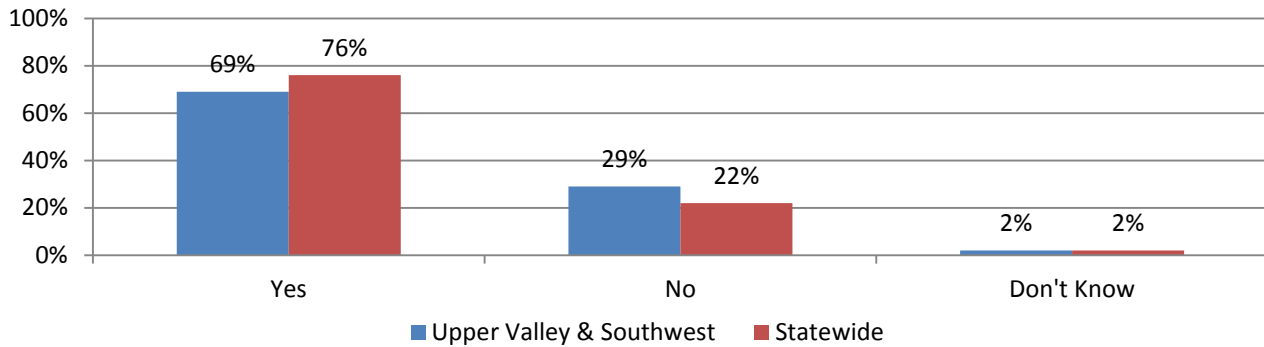

Figure 22: What is your monthly internet bill?

More than two-thirds (69%) currently pay for a bundled internet service, while 29% don't have a bundled service and 2% did not know.

- Young people (18 to 29) and households earning less than \$20,000 or between \$40,000 and \$59,999 are *less likely* to pay for bundled service.

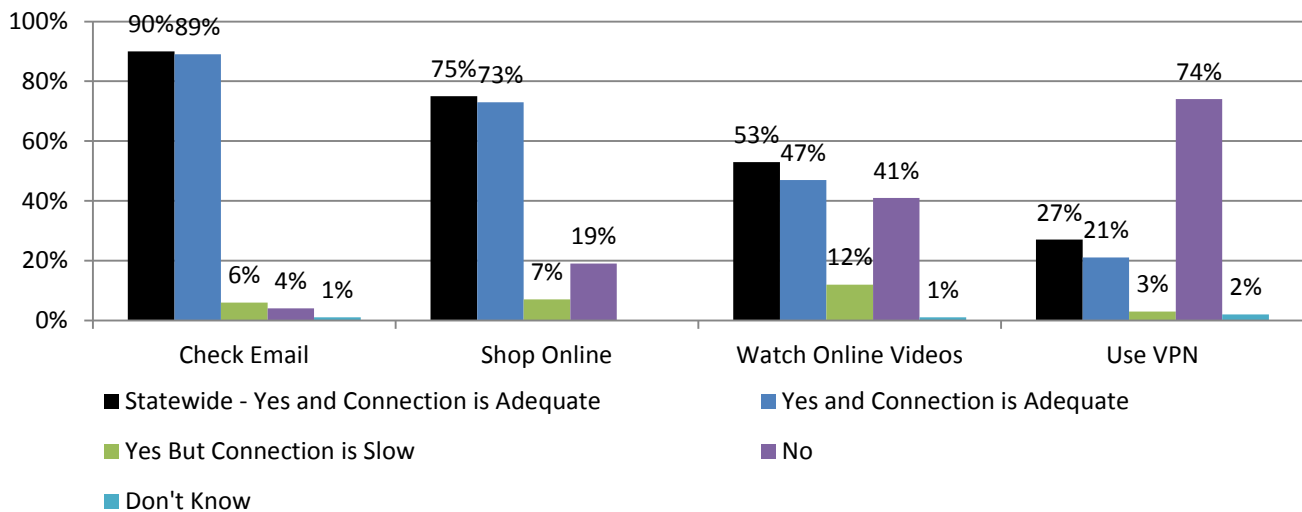

Figure 23: Do you pay for a bundled service?

Almost all (89%) residents use their home internet to check email and their connection is adequate to do so, 73% shop online with an adequate connection, 47% watch online videos and have an adequate connection and 21% use VPN and have an adequate connection to do so.

- Older people (70 or older), retired people and the unemployed are *less likely* to shop online.
- Older people (60 or older) and those who are retired are *less likely* to watch on-line video. Conversely, younger people (18 to 39) and full-time employees are *more likely* to watch on-line video.
- Households earning more than \$160,000 are *more likely* to use a VPN at home. Older people (60 or older) are *less likely* to use a VPN.

Figure 24: What Do You Use The Internet At Home For

Nearly all (88%) residents state that their internet connection is adequate for their uses, followed by 9% who say their connection is not adequate and 2% who don't know (**Figure 19**). A large majority (84%) of residents would not be willing to pay more for faster internet speeds; 12% would be willing to pay 25% more per month, 3% would be willing to pay 50% more per month and 2% don't know (**Figure 20**).

Figure 25: Do you consider your internet connection adequate for your uses?

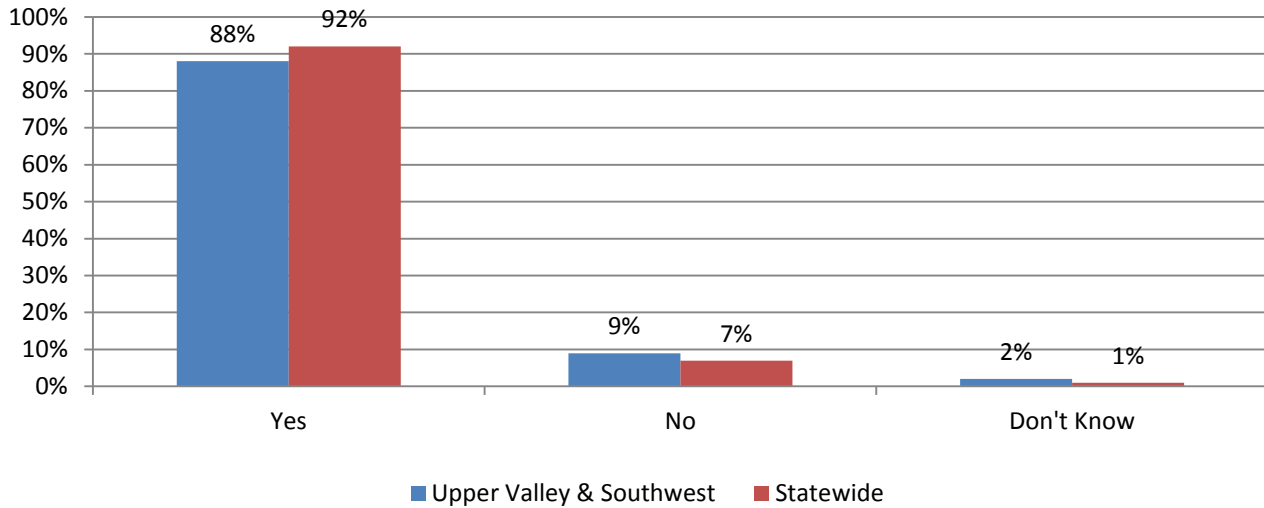

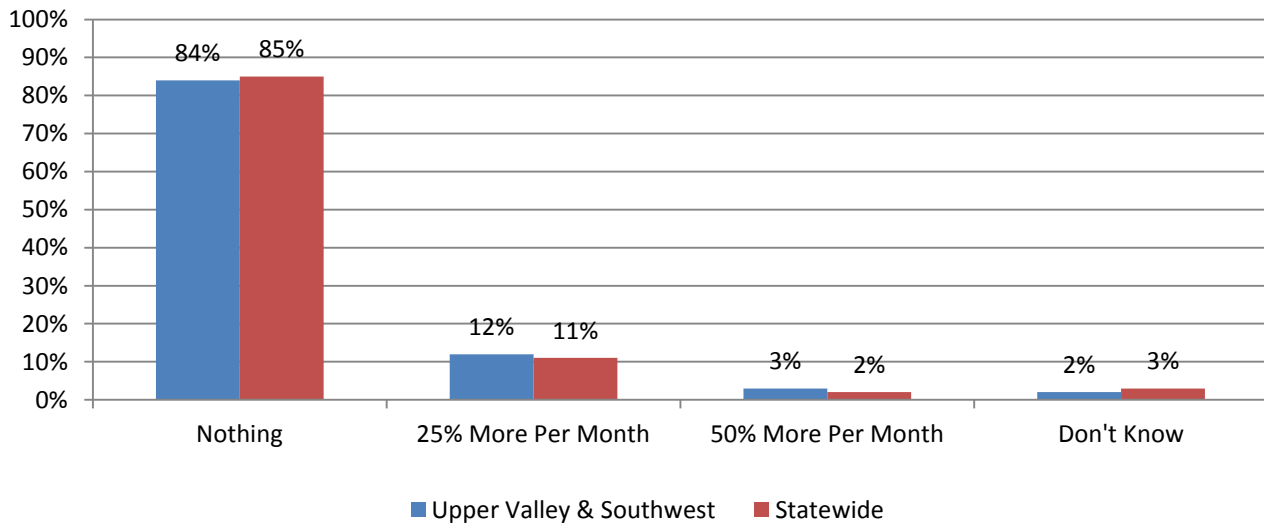

Figure 26: How much more (if any) would you be willing to pay for faster internet speeds?

Technical Report

How the Sample Was Selected

The New Hampshire Regional Planning Commissions A Granite State Future (GSF) Survey was a telephone survey of randomly selected adults in the state of New Hampshire. This survey was conducted using a procedure called Random Digit Dialing (RDD), of both landline and cellular telephone.

A sample of households in the area was selected by a procedure known as random digit dialing. The way this works is as follows. First, with the aid of a computer, one of the three digit telephone exchanges that are currently used in the state (e.g., 772) is randomly selected. The computer then randomly selects one of the "working blocks"--the first two of the last four numbers in a telephone number (e.g., 64)--and attaches it to the randomly selected exchange. Finally, the computer program then generates a two digit random number between 00 and 99 (e.g., 57) which is attached to the previously selected prefix (772), and the previously selected working block (64) resulting in a complete telephone number, i.e., 772 6457. This procedure is then repeated numerous times by the computer to generate more random numbers, so that we have a sufficient quantity to conduct the survey. The end result is that each household in the area in which there is a telephone has an equally likely chance of being selected into the sample. This procedure is done for both land line and cellular exchanges.

The random sample used in the GSF survey was purchased from Scientific Telephone Samples (STS), Foothill Ranch, CA. STS screens each selected telephone number to eliminate non-working numbers, disconnected numbers, and business numbers to improve the efficiency of the sample, reducing the amount of time interviewers spend calling non-usable numbers.

Each of these randomly generated telephone numbers is called by one of our interviewers from a centrally supervised facility at the UNH Survey Center. If the number called is found not to be a residential one, it is discarded and another random number is called. (Approximately forty-five percent of the numbers were discarded because they are found to be businesses, institutions, or not assigned.) If it is a residential number, the interviewer then randomly selects a member of the household by asking to speak with the adult currently living in the household who has had the most recent birthday. This selection process ensures that every adult (18 years of age or older) in the household has an equally likely chance of being included in the survey. No substitutions are allowed. If, for example, the randomly selected adult is not at home when the household is first contacted, the interviewer cannot substitute by selecting someone else who just happens to be there at the time. Instead, he or she must make an appointment to call back when the randomly selected adult is at home. In this way, respondent selection bias is minimized.

When the Interviewing Was Done

New Hampshire adults in the GSF survey were interviewed between May 9 and July 6, 2013. Each selected respondent was called by a professional UNH Survey Center interviewer from a centrally supervised facility at the UNH Survey Center. Telephone calls during the field period were made between 9:00 AM and 9:00 PM.

Response Rates

Interviews were completed with 2,935 randomly selected adults in New Hampshire from a sample of 25,114 randomly selected telephone numbers. Using American Association for Public Opinion (AAPOR) Response Rate 4, the response rate for the Granite State Future survey was 33% percent. The formula to calculate standard AAPOR response rate is:

$$\frac{I}{(I + P) + (R + NC + O) + e(UH + UO)}$$

I=Complete Interviews, **P**=Partial Interviews, **R**=Refusal and break off, **NC**=Non-Contact, **O**=Other, **e**=estimated portion of cases of unknown eligibility that are eligible, **UH**=Unknown household, **UO**=Unknown other.

Weighting of Data

The data have been weighted to account for known biases of telephone surveys. The data in the Granite State Future survey are weighted by the number of adults and telephone lines (landlines and cell phones) within households to equalize the chances that any one adult would be selected for inclusion. The data are also weighted by respondent sex, regional planning commission, and age of respondent.

Sampling Error

The Granite State Future survey, like all surveys, is subject to sampling error due to the fact that all residents in the area were not interviewed. For those questions asked of five hundred (500) or so respondents, the error is +/- 4.4%. For those questions where fewer than 500 persons responded, the sampling error can be calculated as follows:

$$Sampling\ Error = \pm 1.96 \sqrt{\frac{P(1 - P)}{N}}$$

Where P is the percentage of responses in the answer category being evaluated and N is the total number of persons answering the particular question.

For example, suppose you had the following distribution of answers to the question, "Should the state spend more money on road repair even if that means higher taxes?" Assume 1,000 respondents answered the question as follows:

YES	47%
NO	48%
DON'T KNOW	5%

The sampling error for the "YES" percentage of 47% would be

$$\pm 1.96 \sqrt{\frac{47(53)}{1000}} = \pm 3.1\%$$

for the "NO" percentage of 48% it would be

$$\pm 1.96 \sqrt{\frac{48(52)}{1000}} = \pm 3.1\%$$

and for the "DON'T KNOW" percentage of 5% it would be

$$\pm 1.96 \sqrt{\frac{5(95)}{1000}} = \pm 1.4\%$$

In this case we would expect the true population figures to be within the following ranges:

YES	43.9% - 50.1% (i.e., 47% ±3.1%)
NO	44.9% - 51.1% (i.e., 48% ±3.1%)
DON'T KNOW	3.6% - 6.4% (i.e., 5% ±1.4%)

Appendix A: Detailed Tabular Results

Q1: "How would you classify the neighborhood where you live? Would you say you live in a downtown or town center ... a neighborhood close to your town center ... a neighborhood away from your town center ... or in a rural location away from other development?"

	Downtown or Town Center	Neighborhood Close to Town Center	Development Away from Town Center	Rural Location Away from Development	Number Responding

Appendix B: Open-Ended Responses

Q12 “Which of the following things should be actively encouraged in your community?” (Other Responses)

- Affordable housing, 2000sq foot home, need to stop spending needlessly, need relief
- Better road maintenance capabilities
- Communication
- Community center, parks and recreation for children
- Everything on the list
- Farming!
- Gambling casino & road repair
- Greater understanding of diff communities’ needs instead of just self interests, and increasing diversity
- Have some kind of link of transportation to connect to other part of the State-i.e. services to Manchester
- Human freedom
- I live in an area away from center of town, no sidewalks to walk on, in winter its dangerous, if that type of facility were to be expanded that would be very important
- Increase in alternative forms of energy like wind power and solar.
- it should be the priority of the state to protect the green lands that we have and not let the power companies destroy it
- Job Opportunities
- More attention paid to rural roads and traffic, rural areas stuck with bad roads, unsafe roads even
- More community gardens
- More police presence.
- Most of it we already have... I wish they could come up with a way to do something about, like, more Natural resources for heat and stuff like that
- Need more vehicle laws—snowmobiling and four wheelers
- Need to increase access to public transit throughout the community and to other cities, like Nashua, Manchester & Keene, and smaller surrounding towns, as well as to cultural & sporting events. Different parts of town are too far dispersed and need to be connected by public transportation for public social gatherings (dinners, etc.) and getting into town. We also need more affordable housing for working people and seniors.
- No more spending of money we don’t have
- preservation of natural resources
- Providing more help to children in need- more youth services
- public transportation
- Public transportation
- Rails to trails should be promoted more.
- Social Programs need to be revamped: welfare should be to help not to support.
- Spending gov't money to encourage greater involvement
- The big one is to have economic development, you need new jobs coming in. The problem I have is when companies come in and don’t pay attention to the vernacular of the architecture, which in turn affects the tourist trade. That’s probably more of a zoning board issue, a local issue
- very slow, contained development, both residential & business
- wellness

Q17 “We have discussed many issues facing New Hampshire communities. Which of the following do you think should be the TOP priority for investment of public dollars?” (Other Responses)

- Affordable taxes, and Liberty.
- broadband access
- Creating livable-wage jobs with community development **Overall, re-examine & work with what is already there as far as housing, infrastructure, development, & funding - use the existing structures, funds, and pavement more efficiently and durably, rather than adding more!**
- developing schools and economy
- Education
- Education
- Education
- education
- education
- education
- Education
- Education
- Education
- Education
- Education is top priority
- education, all levels
- Education.
- Electrical service
- Emergency Medical Service
- fix the roads
- Getting people to understand what the town is trying to accomplish
- I think a big priority is needs for people in the medical and health care field, big problem, it's not going to get any better not the way things are going anyway
- more public access for shooting pheasants
- Natural Resources Conservation (Not EPA)
- No second priority
- Personal liberty and freedom!
- Quality Schools
- Safe and Affordable housing and environment protection were a tossup for number two
- Stop spending money we don't have
- Vote Kelly Ayotte out

Net2 “Which of the following is the most important reason why you don’t have internet access at home?” (Other Responses)

- does not have the money to pay for it
- Does not want internet
- I am legally blind
- I don't care about it
- I don't have a computer
- I don't have a computer
- Is getting it in a week and hasn't gotten it yet because of money reasons
- It's temperamental
- no available access
- no computer
- Protecting her eyes from screens
- Temporary condition

Net 3A “If you are on dialup or satellite, why?” (Other Responses)

- Don't know
- It's what we've always used

Net4 “Who is your current provider? “ (Other Responses)

- Affinity (1)
- Argent (1)
- Basic ISP (1)
- Broadband (1)
- Cell Phone Hot Spots (1)
- Comcast (140)
- Direct TV (1)
- Dish Network (6)

- TNE (1)
- Trotter (1)
- U.S. Cellular (2)
- Verizon (19)
- WildBlue (1)
- Xfinity (2)
- Zero Point (1)

Net5 “Why are you using your current provider?” (Other Responses)

Provider	Reason
actually we're in a zone... alright, we have MSN, but we're actually in a zone where we can pick up where I am, I can pick up like, satellite.. stuff.	I got rid of the internet because all the kids did is go on stinkin' facebook anyway, and they kept giving me viruses, so I said okay, I'm done, and they can do it on their phone and I can do it on school, so it doesn't matter to me
Broadband	Convenient
cell phone using hot spots	Verizon convenience
Comcast	Availability
Comcast	Best Price
Comcast	Bundled service & doesn't like dish network
Comcast	Fast
Comcast	Good bundle deal
Comcast	Most economical
Comcast	They are where she lives
Comcast	They've always had it
Comcast	Because they have a packaged deal
Comcast	Been with them for years
Comcast	Bundle is easier, and the internet speed was good
Comcast	Cheaper provider
Comcast	Convenience
Comcast	DSL was inconsistent
Comcast	Fast and fairly inexpensive, and probably the only option available here
Comcast	Good deal
Comcast	Good deal and convenient
Comcast	In her particular area, it's the one that's working the best right now
Comcast	It's in my rental agreement
Comcast	Its what my folks have
Comcast	Least expensive and very happy with them
Comcast	She lives in a community where it's cheap and she gets a deal
Comcast	Someone else selected it
Comcast	To reach other parts of the country, email, etc.
Comcast	The bundle deal that I got. I get cable
Direct TV	it's the one we've always used
Dish	Cheapest of options available
DSL	most sensible option
Fairpoint	only one that provided DSL
Fairpoint	bundling it all together
fairpoint	cheapest
fairpoint	cheapest ones around

fairpoint	doing it with phone
fairpoint	fairpoint is doing a fine job
fairpoint	good price
Fairpoint	In her area its best for high speed internet
Fairpoint	Its quick and its got great service
fairpoint	when he moved in it was the best option and he hasn't really thought about it
Fairpoint	Bundled package
Fairpoint	Does not want a package plan
Fairpoint	Husband was self-employed and needed it ages ago at house
Fairpoint	More reliable and less expensive
Fairpoint	Price
Fairpoint	Recommended by others when we moved here
Fairpoint	4 years at a reduced rate guaranteed
Fairpoint	Cheap
PSNH	Cheapest and reliable
Road Runner through Time Warner	Bundle
Segtel	Fast speed at a reasonable price
TDS	cheapest
TDS	I don't want to know what other options are available. It works, if it stops working ill figure out what to do.
TDS	they were recommended
Time Warner	Efficiency and cost, and I have the bundle
Time Warner	Good Price
Time Warner	No particular reason
time warner	Economical
Time Warner	Not sure, just called to set up
Time Warner	Husband likes to stay up to date on news, etc.
Verizon	Not sure anymore? not good here
Verizon	son suggested it and installed it
Verizon	Because it has coverage in a couple key places
Verizon	Convenient
Verizon	Good Family plan
Verizon	Suggested many yrs ago, but now wants to change to get better rate
Verizon	They were our phone company and provided landline service
Verizon	Verizon had DSL where others did not
Xfinity	what is provided with house]

Appendix C: Survey Instrument

Survey Instrument

INTRO:

“Good evening / afternoon. My name is _____ and I’m calling on behalf of New Hampshire’s Regional Planning Commissions from the University of New Hampshire Survey Center. This month, the University is conducting a confidential study of public opinion in New Hampshire, and we'd really appreciate your help and cooperation.”

SEAS

“Before we begin, do you live in New Hampshire all year round or are you on vacation?”

- 1 LIVE IN NH YEAR ROUND
- 2 SEASONAL, JUST VACATIONING → “Thank you very much, we are only interviewing year round residents.”
- 3 NOT A NH RESIDENT → “Thank you very much, we are only interviewing year round residents.”
- * 99 REFUSED → TERMINATE

TOWN

“In what town or city do you live?” ENTER NUMBER OF TOWN FROM SHEET.

- 997 OTHER – TYPE IN _____
- 998 DK - DO NOT PROBE
- * 999 NA / REFUSED

CELL1

“First, to confirm, have I reached you on your cell phone or a land line?”

- 1 CELL PHONE → SKIPTO CELL2
- 2 LAND LINE → SKIPTO BIR1
- 99 REFUSED → TERMINATE

CELL2

“Are you currently driving a car or doing any activity that requires your full attention?”

- 1 IF YES: “Can I call back at a later time?” MAKE APPOINTMENT
- 2 NO → SKIPTO AGE18
- 99 NA / REFUSED → TERMINATE

AGE18

"And are you 18 years old or older?"

- 1 YES → SKIP TO SEX
- 2 NO → "Thank you very much, we are only interviewing adults 18 years old or older."
- * 99 REFUSAL → "Thank you very much, we are only interviewing adults 18 years old or older."

BIR1

"In order to determine who to interview, could you tell me, of the adults aged 18 or older who currently live in your household -- including yourself -- who had the most recent birthday? I don't mean who is the youngest, but rather, who had the most recent birthday?"

- 1 INFORMANT → SKIP TO SEX
- 2 SOMEONE ELSE (SPECIFY): _____ → SKIP TO INT2
- 3 DON'T KNOW ALL BIRTHDAYS, ONLY SOME → CONTINUE WITH BIR2 BELOW
- 4 DON'T KNOW ANY BIRTHDAYS OTHER THAN OWN → SKIP TO SEX
- * 99 REFUSED -- ENTER NON-RESPONSE INFORMATION

BIR2

"Of the ones that you do know, who had the most recent birthday?"

- 1 INFORMANT _____ → SKIP TO SEX
- 2 SOMEONE ELSE (SPECIFY): _____ → GO TO INT2
- 3 PERSON NOT AVAILABLE → MAKE APPOINTMENT
- * 99 REFUSED

INT2

ASK TO SPEAK TO THAT PERSON

"Hello, this is _____ calling on behalf of New Hampshire's Regional Planning Commissions from the University of New Hampshire. This month the University is conducting a confidential study of public opinion in New Hampshire, and we'd really appreciate your help and cooperation. You have been identified as the adult in your household who had the most recent birthday. Is this correct?"

- 1 YES → SKIPTO SEX
- 2 APPOINTMENT
- * 99 REFUSAL → TERMINATE

SEX

"Thank you very much for helping us with this important study. Before we begin I want to assure you that all of your answers are strictly confidential. They will be combined with answers from other people from across the state. Your telephone number was randomly selected from all families in New Hampshire. This call may be monitored for quality assurance."

"Participation is voluntary. If you decide to participate, you may decline to answer any question or end the interview at any time."

IF ASKED: "This survey will take about 20 minutes to complete."

RECORD SEX OF RESPONDENT

- 1 MALE
- 2 FEMALE

* 99 NA

Q:Q1

"How would you classify the neighborhood where you live? Would you say you live in a downtown or town center ... a neighborhood close to your town center ... a neighborhood away from your town center ... or in a rural location away from other development?"

- 1 DOWNTOWN OR TOWN CENTER
- 2 NEIGHBORHOOD CLOSE TO TOWN CENTER
- 3 DEVELOPMENT AWAY FROM TOWN CENTER
- 4 RURAL LOCATION AWAY FROM OTHER DEVELOPMENT
- 5 OTHER -- SPECIFY

- 98 DON'T KNOW/NOT SURE
- 99 NA/REFUSED

Q:Q2

"I am going to read you a list of aspects of the transportation system in your community. Based on what you see now in your community, do you think policy makers should invest more money on each the following aspects of the transportation system in the next 5 years.

ROTATE Q2A – Q2H

Q:Q2A

"Reducing congestion levels on major roads at rush hour ..."

IF YES – "Are you willing to pay increased fees or taxes?"

- 1 YES, WILLING TO PAY MORE
- 2 YES, NOT WILLING
- 3 NO

98 DON'T KNOW
99 NA/REFUSED
